In this regard, it aims to replicate the benchmark (Index).
- The Index measures the performance of the European Banks sector as defined by the Industry Classification Benchmark (ICB) and is a subset of the STOXX® Europe 600 index, which comprises 600 of the largest stocks across 18 European countries. - The proportion of assets in the Fund which matches the weighting of the Index (duplication percentage) is at least 95% of the Fund's assets.
- It is not the Investment Manager's intention to leverage the Fund. However, the Fund may generate minimal amounts of leverage from time to time, for example, if using financial derivative instruments (FDIs) for efficient portfolio management purposes.
- Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- Your shares will be distributing shares (i.e. dividend income will be paid at least annually).
- The Fund's base currency is Euro.
