Key Risks

The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.
The Fund is exposed to the currency markets which may be highly volatile. Large price swings can occur in such markets within very short periods and may result in your investment suffering a loss.
The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.
The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.
The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies.

Investment Policy

- The objective of the investment policy is to achieve a positive mid- to long-term investment performance through investments in large and medium-capitalisation listed equities in developed markets in Europe.
- The sub-portfolio manager for the fund is DWS Investments UK Limited. DWS Investments UK Limited has appointed DWS International GmbH (Discretionary Investment Advisor) to provide investment advice with regard to the composition of the fund's portfolio of equities
- Investment in companies based on a dynamic bottom-up stock selection strategy with the primary aim of generating capital appreciation. In order to achieve the investment objective, the Discretionary Investment Advisor will consider multiple quantitative categories of fundamental and price-driven stock characteristics to determine a scoring model for each of the securities in the Investment Universe. The categories include, but are not limited to: valuation, financial strength, technical indicators, analyst sentiment, and earnings growth. The categories are constantly reviewed for their contribution to overall performance and are dynamically weighted within the scoring model as a result. The scores are implemented in the final allocation using a risk-controlled approach.
