# GENERAL INFORMATION

Franklin Templeton ICAV (the "Fund" or the "ICAV") is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Sub-Funds with registration number C167746. The ICAV was registered on 11 July 2017. The ICAV has been authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (together the "UCITS Regulations"). All capitalised terms used but not defined herein shall have the meaning ascribed thereto in the ICAV's Prospectus dated 1 December 2022 (the "Prospectus").

The ICAV has been registered in accordance with the ICAV Act for the purpose of investing in transferable securities in accordance with the UCITS Regulations.

The ICAV has been structured as an umbrella fund consisting of different Sub-Funds (please see Sub-Funds and share classes below), each comprising of one or more classes of shares. The Directors may from time to time, with the prior approval of the Central Bank, create different series of shares representing separate portfolios of assets, each such series comprising a Sub-Fund. Each Sub-Fund will bear its own liabilities and, under Irish law, none of the ICAV, the service providers appointed to the ICAV, the Directors, any receiver, examiner nor liquidator, nor any other person will have access to the assets of a Sub-Fund in satisfaction of a liability of any other Sub-Fund.

The ICAV has appointed Franklin Templeton International Services S.à.r.l. as Management Company (the ″Management Company″).

The Management Company of the ICAV has appointed Franklin Advisory Services LLC and Franklin Templeton Investment Management Limited as Investment Manager for all Index Tracking Sub-Funds (as defined below), with the exception of Franklin Catholic Principles Emerging Markets Sovereign Debt UCITS ETF, which has only Franklin Templeton Investment Management Limited as Investment Manager.

The Management Company of the ICAV has appointed Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro IG Corporate UCITS ETF, Franklin Sustainable Euro Green Bond UCITS ETF, Franklin Sustainable Euro Green Corp 1-5 Year UCITS ETF and Franklin Sustainable Euro Green Sovereign UCITS ETF.

The Management Company of the ICAV has appointed Franklin Advisers Inc and Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro Short Maturity UCITS ETF.

The Management Company of the ICAV has delegated investment management to Franklin Advisers Inc which in turn has delegated to Franklin Templeton Institutional LLC to act as Sub-Investment Manager in relation to Franklin USD Investment Grade Corporate Bond UCITS ETF.

The Management Company has also appointed BNY Mellon Fund Services (Ireland) Designated Activity Company as Administrator to the Fund.

The portfolio of assets maintained for each series of shares and comprising a Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund as specified in their relevant Supplement. Shares may be divided into different classes to accommodate, amongst other things, different dividend policies, charges, fee arrangements (including different total expense ratios), currencies, or to provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time.

Generally, only an Authorised Participant may engage in creation or redemption transactions directly with the Sub-Fund in the primary market (to be distinguished from the secondary market that shares may trade in). The ETF shares are listed for secondary trading on each Listing Stock Exchange (as defined in the Prospectus as such selected exchanges as the Directors may determine from time to time in respect of each Fund and which are specified on the Website) and individual ETF shares may be purchased and sold by investors on Listing Stock Exchanges through a broker-dealer. The Sub-Fund issues or redeems Creation Units (as defined in the Prospectus as a block of 50,000 shares (or multiples thereof) which constitutes the unit by which the Fund creates or redeems units through transactions with Authorised Participants) to Authorised Participants (as defined in the Prospectus as with respect to ETF shares, a market maker or a broker-dealer entity, which has entered into a participating dealer agreement for the purposes of directly subscribing and/or redeeming ETF shares with the Fund (i.e. primary market)). Shares in the Sub-Funds may be created or redeemed on any Dealing Day at the Net Asset Value per share as of the relevant Dealing Day, subject to an appropriate provision for duties and charges. The Sub-Fund will generally issue

or redeem Creation Units in return for a basket of securities (and/or an amount of cash) that the Sub-Fund specifies each day. All other investors may purchase ETF shares through the secondary market which includes the Authorised Participants, through a stock exchange listing or over the counter. An investor buying or selling ETF shares in the secondary market will pay the secondary market price for ETF shares (broker costs and spreads may also apply) which may deviate, to varying degrees, from the Net Asset Value per share. Further information on purchases and sales in the primary and secondary market is included in the Prospectus.

**Sub-Funds and Share Classes**
There are thirty six Sub-Funds in operation as at 31 December 2025. Twenty nine of these Sub-Funds seek to track an index (the "Index Tracking Sub-Funds") and seven of the Sub-Funds are actively managed by the Investment Manager to seek to achieve a specific investment objective (the "Actively Managed Sub-Funds").

The following table details the Sub-Funds of the ICAV that are Index Tracking Sub-Funds.

Where full replication of the Index is not reasonably possible, the Sub-Fund will use an optimisation methodology to build a representative portfolio that provides a return that is comparable to that of the Index.

The specific investment objectives, strategies and policies for each Sub-Fund are set out in each Investment Manager's report.

The investment policy of the **Index Tracking Sub-Funds** is to track the performance of the relevant Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index. In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index.

The **Actively Managed Sub-Funds' investments** will be managed actively by the Investment Manager or its delegates to seek to achieve its investment objective, for example, to seek to outperform an Index, rather than just to track it. Where a Sub-Fund is actively managed, the Investment Manager will have greater discretion in relation to the composition of the Sub-Fund's portfolio, subject to the investment objectives and policies stated in their relevant supplemental prospectus. An Actively Managed Sub-Fund will not seek to track the performance of any Index.

**Commissions**:

# GENERAL INFORMATION (continued)

**Stock Exchange Listings (continued)**

Franklin Templeton International Services S.à r.l. (″FTIS″) does not grant any commissions from the commissions to which it is entitled for the distribution of the investment fund (inventory management commissions) to distributors and asset managers. Likewise, institutional investors who hold Sub-Fund shares economically for third parties will not receive any refunds.

**Total expense ratio/note Total expense ratio:**

The Total Expense Ratio (TER), expressed as a percentage, reflects the total costs relative to the average net assets of the Sub-Fund during the reporting period. The total costs include the administration fee, the administration and paying agent fee, the custodian bank fee and other costs (see also Note 4 on page 102).

**Financial reports:**

The financial reports will be available on the following website: www.franklintempleton.ch

They will only be sent to shareholders in the countries where the local regulation requires it. The audited annual report is available free of charge on request from the registered office of the Fund and from Franklin Templeton Switzerland Ltd.

In addition to the issue and redemption prices, the prospectus, the key information for investors and the financial reports (annual and semi-annual reports), copies of the Fund's articles of association are also available free of charge from Franklin Templeton Switzerland Ltd.

**List of changes in the investment portfolio:**

Upon request, you will receive a free report at the registered office of the Fund and Franklin Templeton Switzerland Ltd., in which all purchase and sales transactions for each Sub-Fund are listed during the reporting year.

**Performance**:

Past performance is no guarantee for future results. Currency fluctuations can affect the value of investments. The performance data also do not take into account the commissions and costs charged when issuing and redeeming units.

## Economic and Market Overview for Investment Manager's Report

**Six-Month Reporting Period ended 31 December 2025**

During the six months ended 31 December 2025, global equities, as measured by the MSCI All Country World Index in US-dollar terms, were supported by a shift toward easier monetary policy, generally resilient corporate earnings and continued, though increasingly uneven, enthusiasm for artificial intelligence (AI)-related investment. A key macro influence was the transition by major central banks, led by the US Federal Reserve (Fed), from holding policy steady earlier in the period to delivering rate cuts from September, which helped underpin risk appetite despite mixed growth and inflation signals. Trade developments also shaped sentiment, with agreements and periods of reduced tariff tension supporting markets at points, while intermittent renewed rhetoric and geopolitical uncertainty contributed to episodes of volatility. Sector leadership evolved over the period: information technology and communication services drove gains earlier, reflecting strong earnings momentum and AI-related spending, while later months saw broader participation from more defensive areas, such as health care and consumer staples as investors became more selective. Energy stocks were influenced by fluctuations in oil prices linked to sanctions and supply considerations, while industrials reflected a balance between improving activity indicators and concerns around global trade.

In credit markets, sovereign bonds exhibited mixed performance during the second half of the year. US yields—partly contained by Fed easing—were lower, with the yield on the 10-year Treasury note falling six basis points (bps) to 4.17%. By contrast, most other developed markets saw rising yields, driven by factors including fiscal concerns, supply pressures and inflation risks. Notably, the 10-year Japanese yield rose 63 bps to 2.06%, its highest level since late 1998, on tighter monetary policy and fiscal concerns. Emerging market (EM) bond yields were mixed in Latin America and Asia, and were mostly lower in eastern Europe and Africa. Both local-currency and hard-currency EM debt indexes gained over the half-year.

US stocks collectively advanced during the six months ended 31 December 2025, with major indexes reaching new record highs despite periods of elevated volatility. Equity markets were supported by resilient corporate earnings, continued investment in AI and a shift towards easier monetary policy, though sentiment fluctuated in response to trade and policy developments. Early in the period, uncertainty around US tariff policy and global trade relations contributed to bouts of risk aversion, while concerns around inflation persistence and the economic impact of tariffs intermittently weighed on markets. From September, sentiment improved as the Fed began lowering the federal funds target rate, delivering rate cuts that helped underpin equity valuations and supported risk appetite, even as policymakers emphasised data dependence. Technology stocks were a key driver of performance, reflecting ongoing AI-related investment, though leadership narrowed at times and profit-taking emerged later in the year amid investor concerns about concentration and the sustainability of gains in parts of the sector. More defensive areas such as health care and consumer staples saw periods of relative strength during episodes of heightened volatility. Macroeconomic data was mixed: growth momentum softened at points, manufacturing activity remained uneven and inflation eased but stayed above the Fed's long-run target, reinforcing a cautious policy backdrop.

European equities advanced over the second half of 2025, supported by easing policy and receding trade tensions, even as economic growth remained subdued. The United States and European Union struck a tariff agreement in late July, restoring stability and averting further escalation. This, along with a continued truce in US–China trade relations, buoyed export-oriented industries, such as automobiles and industrials. The European Central Bank maintained an accommodative stance, holding interest rates steady after earlier cuts, amid improving eurozone demand and inflation nearing target. In contrast, the Bank of England delivered additional rate cuts, including a December reduction to 3.75%, citing easing inflation. These moves helped lift market sentiment. Eurozone gross domestic product (GDP) grew modestly quarter-on-quarter in the third quarter, rebounding from near-stagnant growth in the second, and business activity ended the year on a strong note as robust services expansion offset a renewed manufacturing downturn. The eurozone thus logged its best quarterly performance since 2022 in the fourth quarter. The United Kingdom's economy followed a similar pattern, weak but positive growth through mid-period, levelling off by year-end, with UK manufacturing returning to slight expansion in December after a prolonged contraction, while services activity largely continued to grow. Stock market volatility was relatively contained and investor sentiment improved. Financials and materials, including energy and mining, outperformed, bolstered by rising bond yields and hopes of Chinese economic stimulus. However, the information technology sector lagged amid profit-taking and competitive pressures.

Japanese equities advanced over the period under review, supported by improving sentiment around trade, resilient corporate earnings and continued strength in export-oriented sectors, though gains were punctuated by periods of volatility linked to monetary policy and currency moves. Early in the period, Japanese stocks benefitted from easing global trade tensions following the US–Japan trade agreement announced in July, which helped alleviate concerns around tariffs on autos and supported industrials and consumer discretionary names. Macroeconomic conditions were mixed: Japan's GDP grew sequentially through the middle of the period before momentum softened later in the year, while manufacturing activity remained uneven, reflecting weak external demand and supply chain adjustments, and services activity continued to expand, supported by domestic consumption and tourism. Monetary policy was a recurring influence, as the Bank of Japan maintained its gradual path towards policy normalisation, signalling greater tolerance for higher interest rates and allowing bond yields to rise, which at times weighed on equity sentiment and contributed to periods of yen strength. Sector performance reflected these dynamics, with information technology and industrials supported by global technology spending and capital investment trends, while financials benefitted intermittently from higher yields. Exporters faced headwinds during bouts of currency appreciation, and market volatility increased at points as investors reassessed the pace of policy tightening and its implications for growth.

Emerging market equities rose over the six-month period, supported by a shift towards easier US monetary policy, intermittent US-dollar softness and periodic rebounds in risk appetite, although performance was uneven across regions and sectors. Trade developments remained an important driver: episodes of US tariff rhetoric and ongoing US–China frictions weighed on sentiment at times, while periods of reduced trade tensions helped stabilise markets and encouraged selective re-risking, particularly in export-sensitive areas. China remained central to the emerging market narrative. Economic growth expanded sequentially through the second half, but momentum moderated and domestic demand stayed soft as the property downturn continued to weigh on confidence. Official National Bureau of Statistics (NBS) Purchasing Managers' Index (PMI) readings showed a mixed backdrop: manufacturing activity stayed in contraction for much of the period before improving late in the year, while the NBS Non-Manufacturing PMI weakened into contraction during November before returning to expansionary territory in December. The People's Bank of China maintained an accommodative bias, keeping key lending rates unchanged through the latter part of the period after earlier easing steps, while reinforcing liquidity support measures aimed at improving credit transmission. Sector leadership rotated meaningfully, with information technology and communication services sensitive to shifts in global AI sentiment, alongside bouts of profit-taking and volatility later in the year, while materials and financials were supported in several markets by firmer commodity trends and resilient domestic demand. Headwinds included periodic risk-off moves, pockets of earnings uncertainty, currency volatility in some countries and ongoing concerns about China's property sector and broader credit conditions, which limited the breadth of advances despite a supportive global policy backdrop.

### Tracking Error

The Sub-Funds of the Franklin Templeton ICAV that are passively managed intend to track as closely as possible the performance of their respective systematic rules-based proprietary index as described in the prospectus. The tool commonly used to measure achievement of this objective is the realised tracking error.

# INVESTMENT MANAGER'S REPORT (continued)

Realised tracking error is the standard deviation of the delivered excess returns over an annual period. It is a measurement of the consistency of the returns relative to the benchmark index over a defined period.

Realised tracking error can be affected by several factors, including but not limited to, the Total Expense Ratio (TER) of the Sub-Fund, the timing of trades when index is rebalanced, efficient portfolio management techniques employed in attempting to replicate benchmark returns, and the tax rate applied to dividends or interests received by the Sub-Fund as opposed to the tax rate assumed in the total return calculation of the benchmark.

The table below compares the anticipated tracking error of the Sub-Funds (as disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Sub-Funds as of 31 December 2025:

| Sub-Fund | Anticipated tracking error | Annualised realised tracking error |

** The Sub-Fund launched post 30 June 2025. Refer to Sub-Funds and Share Classes in General Information for details.

# INVESTMENT MANAGER'S REPORT (continued)

Over the period under review the Sub-Funds and their respective benchmarks achieved the performances disclosed in the Investment Manager's report. The over / (under) performance of a Sub-Fund to its respective benchmark is principally attributable to the differences in timing of trades when index is rebalanced; to the Total Expense Ratio (TER) borne by the Sub-Fund, and the tax rate applied to dividends or interests received by the Sub-Fund as opposed to the tax rate assumed in the total return calculation of the benchmark. The wider tracking error and under performance to the Index of the Franklin FTSE India UCITS ETF are explained by the impact of taxation of capital gains in this market.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS

## Franklin AI, Metaverse and Blockchain UCITS ETF

For the period ended 31 December 2025, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, communication services and real estate. Individual holdings that contributed positively to returns included Micron Technology, Alphabet and Cipher Mining.

For the same period, the health care, financials and industrials sectors detracted from the Sub-Fund's absolute performance. Individual holdings that detracted from returns included ServiceNow, Strategy Inc and Coinbase Global.

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide equity exposure to listed companies around the world that are involved in the metaverse. The Sub-Fund seeks to track the performance of the Solactive Global Metaverse Innovation Index (" the Underlying Index") as closely as possible, regardless of whether the Index level rises or falls. The Sub-Fund aims to replicate the Underlying Index by holding all of its securities in a similar proportion to their weighting in the Index. The holdings of the Underlying index comprise of global equity securities issued by companies that are deemed to have or are expected to have significant exposure to the provision of products and/or services that contribute to the metaverse.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

## Franklin Catholic Principles Emerging Markets Sovereign Debt UCITS ETF

For the period ended December 31, 2025, the Sub-Fund's security selection and sector allocation detracted from relative performance, principally owing to positioning in US-dollar-denominated Polish bonds and euro-denominated Chilean issues. However, an overweight exposure to euro-denominated Ivory Coast bonds added relative value. Its duration and yield-curve positioning in US bonds hampered relative fund returns. Currency positioning also had a negative impact on the Sub-Fund's relative results, particularly through its exposure to the euro. Local market allocation curbed relative performance slightly, owing to an overweight exposure to the underperforming eurozone market.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide exposure to Euro- and US Dollar-denominated sovereign debt issued by emerging market countries. The Sub-Fund seeks to track the performance of the ICE Catholic Principles ESG Emerging Markets External Sovereign Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will select the securities that constitute the Underlying Index in order to build a representative portfolio that provides a return that is comparable to that of the Underlying Index but which may not track the Underlying Index with the same degree of accuracy as an investment vehicle replicating the entire Underlying Index. Each country's exposure is capped at 10% of the Underlying index which are selected from the ICE BofA Diversified Emerging Markets External Debt Sovereign Bond Index (Investment Universe) to ensure diversification and minimise security level concentrations.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin Euro IG Corporate UCITS ETF

For the period ended December 31, 2025, the Sub-Fund's security selection contributed to relative returns, while its sector allocation detracted from relative results. Selection in eurozone corporate investment-grade industrial issues and subordinated bonds (ex banking, ex insurance) helped relative performance. Selection in government-related bonds also added relative value, although this was offset by the negative impact of an overweight exposure to this area. Its duration and yield-curve positioning in eurozone bonds enhanced relative returns.

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide income from the European corporate bond market while seeking to preserve capital. The Sub-Fund seeks to achieve its investment objective by investing primarily in Euro-denominated investment grade corporate debt securities.

For the same period, the communication services, consumer discretionary and consumer staples sectors detracted from the Sub-Fund's absolute performance. Individual holdings that detracted from returns included Elisa Oyj, BAE Systems and Redeia Corporation.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income whilst maximising total returns in the Euro-denominated short term fixed income market.

The Sub-Fund invests mainly in:

- short-term fixed and floating rate investment grade debt securities denominated in Euro issued by sovereign and corporate issuers including non-European issuers

The Sub-Fund can invest to a lesser extent in:

- lower quality debt securities such as non-investment grade securities or securities in default (limited to 20% of the Sub-Fund's assets)
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the Sub-Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

## Franklin FTSE Asia ex China ex Japan UCITS ETF

For the period ended 31 December 2025, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, financials and industrials. Individual holdings that contributed positively to returns included Taiwan Semiconductor Manufacturing Co, Samsung Electronics Co and SK Hynix.

For the same period, the communication services, consumer staples and utilities sectors detracted from the Sub-Fund's absolute performance. Individual holdings that detracted from returns included ICICI Bank, HDFC Bank and Tata Consultancy Services.

### Summary of Investment Objective/Policy

The Sub-Fund invests in large and mid-capitalisation stocks in Asia, excluding China and Japan. The Sub-Fund seeks to track the performance of the FTSE Asia ex Japan ex China Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably possible (for example as a result of the number of securities or the liquidity of certain securities within the Index), the Sub-Fund will use the optimisation methodology to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index but which may not track the Index with the same degree of accuracy as an investment vehicle replicating the entire Index may. Consequently, the Sub-Fund may, over certain periods, only hold a subset of the Index Securities.

## Franklin S&P 500 Screened UCITS ETF

For the period ended 31 December 2025, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, communication services and consumer discretionary. Individual holdings that contributed positively to returns included Nvidia, Alphabet and Apple.

For the same period, the only sector that detracted from the Sub-Fund's absolute performance was consumer staples. Individual holdings that detracted from returns included Meta Platforms, Netflix and Microsoft Corporation.

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide exposure to large capitalisation stocks in the US with a greater emphasis on those stocks deemed to be more environmentally and socially responsible. The Sub-Fund seeks to track the performance of the S&P 500 Guarded Index (the ″ Underlying Index″) as closely as possible, regardless of whether the Underlying Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Underlying Index. The Underlying Index is based on the S&P 500 index, (the ″Parent Index″) which is comprised of large cap stocks in the US. The Underlying Index is designed to measure the performance of the constituents in the Parent Index that meet the sustainability criteria defined for the Underlying Index. The Underlying Index is constructed to achieve a higher sustainability profile through an overall reduction in carbon emissions and an improvement of the S&P Global ESG score relative to the Parent Index. The Underlying Index aims to improve the overall S&P Global ESG Score relative to the Parent Index by over- or under-weighting companies based on their S&P Global ESG Scores.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

## Franklin S&P World Screened UCITS ETF

For the period ended 31 December 2025, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, financials and communication services. Individual holdings that contributed positively to returns included Apple, Nvidia and Google.

For the same period, there were no sectors that detracted from the Sub-Fund's absolute performance. Individual holdings that detracted from returns included Meta Platforms, Netflix and Microsoft Corporation.

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide exposure to large capitalisation stocks in developed markets globally with a greater emphasis on those stocks deemed to be more environmentally and socially responsible. The Sub-Fund seeks to track the performance of the S&P World Guarded Index (the ″Underlying Index″) as closely as possible, regardless of whether the Underlying Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index. The Underlying Index is based on the S&P World Index, (the ″Parent Index″) which is comprised of large and mid-cap stocks across 24 developed markets globally. The Underlying Index is designed to measure the performance of the constituents in the Parent Index that meet the sustainability criteria defined for the Underlying Index. The Underlying Index is constructed to achieve a higher sustainability profile through an overall reduction in carbon emissions and an improvement of the S&P Global ESG score relative to the Parent Index. The Underlying Index aims to improve the overall S&P Global ESG Score relative to the Parent Index by over- or under-weighting companies based on their S&P Global ESG Scores.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

## Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF

For the period ended 31 December 2025, the sectors that contributed most to the Sub-Fund's absolute performance were health care, consumer discretionary and information technology. Individual holdings that contributed positively to returns included ASML Holding, LVMH Moet Hennessy Louis Vuitton and AstraZeneca.

For the same period, the materials, communication services and financials sectors detracted from the Sub-Fund's absolute performance. Individual holdings that detracted from returns included SAP SE, Novo Nordisk and Deutsche Boerse.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide exposure to European large and mid-capitalisation stocks which are aligned to the transition to a low carbon economy. The Sub-Fund seeks to track the performance of the STOXX Europe 600 Paris-Aligned Benchmark Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will select the securities that constitute the Underlying Index in order to build a representative portfolio that provides a return that is comparable to that of the Underlying Index but which may not track the Underlying Index with the same degree of accuracy as an investment vehicle replicating the entire Underlying Index. No holdings shall comprise more than 4.5% of the Underlying Index which are selected from the STOXX 600 Europe Index (Investment Universe) to ensure diversification and minimise security level concentrations.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin Sustainable Euro Green Bond UCITS ETF

For the period ended 31 December 2025, the fund's duration and yield-curve positioning in eurozone bonds contributed to relative returns. Its security selection and sector allocation also enhanced relative results, primarily owing to positioning in government-related bonds, although an overweight exposure to government bonds subtracted relative value. Local market allocation lifted the Sub-Fund's relative returns, through an overweight position in the outperforming UK market.

### Summary of Investment Objective/Policy

**The Sub-Fund aims to provide exposure to the European green bond market whilst maximising total returns.**

The Sub-Fund invests mainly in:

- bonds that are labelled green and denominated in European currencies

The Sub-Fund can invest to a lesser extent in:

- bonds that are climate aligned
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the Sub-Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

## Franklin Sustainable Euro Green Corp 1-5 Year UCITS ETF

For the period ended 31 December 2025, the fund's security selection and sector allocation weighed on relative performance, owing primarily to selection in investment-grade financial bonds and positioning in subordinated debt (ex banking, ex insurance). However, the Sub-Fund's duration and yield-curve positioning in eurozone bonds contributed to relative results.

### Summary of Investment Objective/Policy

The Sub-Fund's aim is to pursue a sustainable investment objective, by providing exposure primarily to the European corporate green bond market with a short to mid duration of less than 5 years, whilst maximising total returns. The Sub-Fund seeks to achieve its investment objective by investing at least 90% of its Net Asset Value in sustainable investments. Such investments will primarily consist of bonds which have been labelled as "green", as described below, and are denominated in European currencies and issued by corporate issuers.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

## Franklin Sustainable Euro Green Sovereign UCITS ETF

For the period ended 31 December 2025, the fund's duration positioning in eurozone bonds bolstered relative returns. Its sector allocation contributed to relative returns, while security selection detracted from relative results. An off-benchmark exposure to Romanian government issues and positioning in Spanish government debt added relative value. Conversely, a lack of exposure to Italian sovereign bonds and selection in Dutch sovereign debt hurt relative performance.

### Summary of Investment Objective/Policy

The Sub-Fund's aim is to pursue a sustainable investment objective, by providing exposure primarily to the European sovereign green bond market, whilst maximising total returns. Investment Policy. The Sub-Fund seeks to achieve its investment objective by investing at least 90% of its Net Asset Value in sustainable investments. Such investments will primarily consist of bonds which have been issued by SSA (sovereigns, sub-sovereigns, supranationals and agencies) entities.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin USD Investment Grade Corporate Bond UCITS ETF

For the period ended 31 December 2025, security selection detracted from relative returns. Detractors included media company Charter Communications, midstream energy company Williams and insurance company Athene Holdings. In contrast, contributors included healthcare company CVS Health, technology companies Intel and Motorola Solutions.

Industry allocation negatively impacted performance, particularly an overweight to US Treasuries and technology-related issues. This was partially offset by an overweight to banking-related issues. As always, article 8 criteria and limitations impacted the fund's ability to hold certain securities even though they may be in the benchmark.

The Sub-Fund's yield curve and duration positioning negative impacted performance during the period. While overall duration ended near neutral to the benchmark, yield changes on specific parts of the curve were a negative.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income from the USD fixed income market while seeking to preserve capital.

The Sub-Fund invests mainly in:

- U.S. dollar denominated fixed and floating rate investment grade corporate debt securities and investments issued by U.S. companies

The Sub-Fund can invest to a lesser extent in:

- non-U.S. securities including those issued by issuers in emerging markets
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investmen tstrategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference againstwhich the performance of the Sub-Fund may be measured. The securities in which the Sub-Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2025

## 1. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are consistent with those of the annual audited financial statements for the year ended 30 June 2025, as described in those financial statements.

### a) Basis of Preparation

The ICAV's unaudited condensed interim financial statements have been prepared in accordance with Financial Reporting Standard 104 ("FRS 104") Interim Financial Reporting, Irish statute comprising the Irish Collective Asset-Management Vehicles Act 2015 (as amended) (the "ICAV Act") and the Central Bank's (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019, (the "Central Bank UCITS Regulations").

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

In preparation of financial statements in conformity with FRS 104, the ICAV is required to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. Critical accounting estimates are those which involve the most complex or subjective judgments or assessments. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

The financial statements for all Sub-Funds have been prepared on a going concern basis as the Directors are of the view that the ICAV will continue in operational existence for the foreseeable future.

The ICAV is availing of the exemption available to open-ended investment funds under FRS 102 and is not presenting a cash flow statement.

### b) Functional and Presentation Currency

Items included in each Sub-Fund's financial statements are measured using the currency of the primary economic environment in which the relevant Sub-Fund operates (the "functional currency"). The functional or base currency of each Sub-Fund is detailed in the General Information section. The ICAV also has adopted these functional currencies as the presentation currency of each of the Sub-Funds.

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency of the Sub-Fund at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency of the Sub-Fund at the exchange rate at the date on which fair value was determined.

Any foreign currency differences arising from retranslation are recognised in the Condensed Statement of Comprehensive Income in net gain/(loss) on investment activities, including those arising on financial instruments at fair value through profit or loss ("FVTPL").

## 2. Taxation

The ICAV is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, the ICAV is not liable to Irish tax in respect of its income and gains, provided the ICAV is resident for tax purposes in Ireland. The ICAV shall be regarded as resident for tax purposes in Ireland provided it is authorised by the Central Bank of Ireland and it is centrally managed and controlled in Ireland.

## 2. Taxation (continued)

However, Irish tax can arise on the happening of a "chargeable event" in the ICAV. A chargeable event arises on any distributions, redemption, repurchase, cancellation, transfer of Shares or the ending of a "relevant period". A relevant period is an eight-year period beginning with the acquisition of the Shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding relevant period. A chargeable event does not include:

(i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
(ii) An exchange of shares representing one Sub-Fund for another Sub-Fund of the ICAV; or
(iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund; or
(iv) Certain exchanges of shares between spouses and former spouses.

No Irish tax will arise in respect of chargeable events in respect of a Shareholder who is an Exempt Irish Investor (as defined in Section 739D TCA) or in respect of a Shareholder who is neither Irish resident nor ordinarily resident in Ireland at the time of the chargeable event provided that a relevant declaration is in place (in accordance with Schedule 2B of the TCA) and the ICAV is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct.

In the absence of an appropriate declaration, the ICAV will be liable for Irish tax on the occurrence of a chargeable event, and the ICAV reserves its right to withhold such taxes from the relevant shareholders. There were no chargeable events during the period under review.

The ICAV is required to recognise a tax liability when it is probable that the tax laws of foreign countries require a tax liability to be assessed on the Sub-Fund's capital gains sourced from such foreign country, assuming the relevant taxing authorities have full knowledge of all the facts and circumstances. The tax liability is then measured at the amount expected to be paid to the relevant taxation authorities, using the tax laws and rates that have been enacted or substantively enacted by the end of the reporting period. There is sometimes uncertainty about the way enacted tax law is applied to offshore investment funds. This creates uncertainty about whether or not a tax liability will ultimately be paid by the Fund. Therefore, when measuring any uncertain tax liabilities, management considers all of the relevant facts and circumstances available at the time that could influence the likelihood of payment, including any formal or informal practices of the relevant tax authorities.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by foreign countries from which the investment income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Withholding tax and reclaims incurred on dividends are recorded on ex-date. Dividends receivable are shown net of withholding taxes payable, if any, in the Condensed Statement of Financial Position. The dividend withholding tax charge for the period ended 31 December 2025 and 31 December 2024 is presented in the Condensed Statement of Comprehensive Income.

The ICAV may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the ICAV invests. Income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Many of these foreign countries have tax laws that indicate that capital gains taxes may be applicable to non-residents, such as the ICAV. Typically, these capital gains taxes are required to be determined on a self assessment basis; therefore, such taxes may not be deducted by the ICAV's broker on a 'withholding' basis. The foreign tax expense, if any, is recorded on an accrual basis and is included in "Capital gains tax" in the Condensed Statement of Comprehensive Income. The amount of foreign tax owed, if any, is included in "Other payables" in the Condensed Statement of Financial Position. Capital gains tax for the period ended 31 December 2025 and 31 December 2024 was accrued on gains on Franklin AI, Metaverse and Blockchain UCITS ETF, Franklin EM Multi-Factor Equity UCITS ETF, Franklin FTSE Asia ex China ex Japan UCITS ETF, Franklin FTSE Brazil UCITS ETF, Franklin FTSE Emerging ex China UCITS ETF, Franklin FTSE Emerging Markets UCITS ETF, Franklin FTSE India UCITS ETF, Franklin Global Quality Dividend UCITS ETF and Franklin MSCI Emerging Markets Climate Paris Aligned UCITS ETF.

The ICAV considers interest and penalties on related tax liabilities to be an inseparable element of the tax liability and accounts for interest and penalties. These amounts would be included within the tax line in the Condensed Statement of Comprehensive Income, and the liability, if any, would be included within the income tax liability on the Condensed Statement of Financial Position.

## 2. Taxation (continued)

In respect of the period ended 31 December 2025 and 31 December 2024, the ICAV has measured uncertain tax liabilities and related interest and penalties with respect to foreign capital gains taxes at Nil. While this represents management's best estimate, the estimated value could differ significantly from the amount ultimately payable.

Pillar Two The Organisation for Economic Co-operation and Development ("OECD") released Pillar Two Model Rules, which target a global 15% minimum tax rate. The OECD continues to release additional guidance on interpretation and application of Pillar Two, and many countries are passing and updating legislation as well as local guidance to comply with Pillar Two. Based on the current available legislation and guidance, the Fund has concluded there will be no material impact on income taxes with respect to Pillar Two for the period ended 31 December 2025. This is because the Fund is widely held and is typically a portfolio investor holding minority stakes in portfolio companies and hence does not prepare consolidated accounts with those companies. The Fund will also qualify as an Investment Fund Excluded Entity for the purpose of the Pillar Two Model Rules. The Fund will continue to evaluate the potential future impacts of Pillar Two and will continue to review and monitor the issuance of additional guidance.

**Reporting Fund Status**
The ICAV has received confirmation from HM Revenue & Customs (HMRC) in the UK that it has been granted UK Reporting Fund Status with effect from the launch dates of all Sub-Funds for UK tax purposes.

## 3. Share Capital & Net Asset Value per Share

**Authorised**
The authorised share capital of the ICAV is 500,000,000,002 shares of no par value divided into 2 subscriber shares of no par value and 500,000,000,000 redeemable participating shares of no par value. The Directors have the power to issue all of the shares of the ICAV on such terms as they think fit.

**Subscriber Shares**
The ICAV issued the 2 subscriber shares of no par value at EUR 1 each for the purpose of the registration of the ICAV. The subscriber shares entitle the holders to attend and vote at general meetings of the ICAV but do not entitle the holders to participate in the profits or assets of the ICAV except for a return of capital on a winding-up. They do not form part of the Net Asset Value of the ICAV and are thus disclosed in the financial statements by way of this note only.

**Redeemable Participating Shares**
Each of the shares entitles the holder to attend and vote at any general meetings of the ICAV and to participate equally in the profits and assets of the Sub-Fund to which the shares relate, subject to any differences between fees, charges and expenses applicable to different classes. Each shareholder shall have one vote for each whole share held. The liability of the shareholders shall be limited to the amount, if any, unpaid on the shares respectively held by them, and the shareholders shall not be liable for the debts of the Sub-Fund. Minimum creation and redemption amounts are specified in the relevant Supplement for each Sub-Fund.

The Franklin Templeton Group provides employees to act as Directors of the ICAV (these Directors do not receive a fee).

## 5. Fair Value Hierarchy

The ICAV is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The standard requires an entity to provide a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the year split between those recognised in the Condensed Statement of Comprehensive Income and recognised through the statement of total recognised gains and losses, purchases, sales issues and settlements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Sub-Funds. The Sub-Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Assets and liabilities not carried at fair value are carried at amortised cost, their carrying values are a reasonable approximation of fair value.

The following tables analyse within the fair value hierarchy the Sub-Funds' financial assets and financial liabilities measured at fair value at 31 December 2025.

**Significant Shareholders**
The significant shareholders are the Authorised Participants who hold 100% of the Sub-Funds on the primary share register at the reporting date, the majority of which are re-sold on the secondary market. The beneficial ownership of these shares is then passed from the Authorised Participants through the trading of shares on the secondary market.

**Transactions with Connected Persons**
Regulation 41(1) of the Central Bank UCITS Regulations states that “a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm’s length; and b) in the best interest of the shareholders of the UCITS”.

## 7. Related Party Disclosures (continued)

**Transactions with Connected Persons (continued)**

As required under Regulation 81 (4) of the Central Bank UCITS Regulations, the Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 41(1) are applied to all transactions with connected persons; and all transactions with connected persons that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 41(1).

The Directors are satisfied that (i) there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected party (as defined in Regulation 42 of the Central Bank UCITS Regulations) and (ii) all transactions with connected parties entered into during the period to which the report relates compiled with the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulation.

## 8. Efficient Portfolio Management

The ICAV may, on behalf of each Sub-Fund, engage in techniques and instruments such as in FDIs, repurchase/reverse repurchase and stock lending agreements for the purposes of efficient portfolio management (″EPM″) meaning the reduction of risk, including the risk of tracking error between the performance of a Sub-Fund and the performance of the Index tracked by the relevant passive Sub-Fund, the reduction of costs to the Sub-Funds, the generation of additional capital or income for the Sub-Fund and hedging against market movements, currency exchange or interest rate risks, taking into account the risk profile of each Sub-Fund and the general provisions of the UCITS Regulations. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by each Sub-Fund. Where permitted, Sub-Fund may use financial derivative instruments ("FDI") for efficient portfolio management purposes as well as for investment purposes, it is not possible to differentiate between the purposes of the FDI, as such any gains or losses arising from efficient portfolio management techniques and investments are recognised in the Condensed Statement of Comprehensive Income, and details of FDIs have been included in the risks note, please refer to Note 4 for details. No securities lending took place during the period ended 31 December 2025 or year ended 30 June 2025.
