## What is this product?

### Type

This Fund is an open-ended investment company with variable capital which was incorporated in Ireland on 5 January 2011 under registration number 493329 and is authorised by the Central Bank of Ireland as a UCITS.

### Term

The Company is an open-ended public limited company incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Shareholders adopted in compliance with applicable laws.
This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

### Objectives

**Investment objective** The objective of the Fund is to provide a return greater than the performance of the Saudi Arabian equity markets.

The Fund is an actively managed fund.

**Investment policies** The Fund is actively managed and aims to outperform S&P Saudi Arabia BMI 5/10/40 Capped Index (the "Index") over the medium to long term. The Investment Manager uses a proprietary quantitative model to select stocks based on factors such as quality, value, and market sentiment. The model also considers sector and country trends, as well as macroeconomic inputs.

The Fund's portfolio is constructed with a focus on balancing expected returns and risk. Limits are applied to country, sector, and individual stock exposures, both in absolute terms and relative to the Index.

Although the Fund is benchmarked against the Index, its holdings and weightings may differ to achieve its investment objective. Most investments will be in stocks listed on recognised markets and may include securities not in the Index but from countries within the Index.

The Index reflects the performance of the Saudi Arabian equity market and is weighted by market capitalisation. The Fund's performance will typically differ from and may under-perform the Index. The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

The Shares of the USD Class are issued in U.S. Dollar.

**Index Source:** The Index is a trademark of S&P Global Inc., or its affiliates, and have been licensed for use by S&P Dow Jones Indices LLC ("S&P") and sub-licensed for use to State Street Investment Management ("State Street"). The Fund is not sponsored, endorsed, sold or promoted by S&P, its affiliates, or its third party licensors. Please see the Prospectus for the full index disclaimer.

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). ## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

| **Example Investment 10,000 USD** | **if you exit after 1 year** | **if you exit after 5 years** (recommended holding period) |
|---|---|---|
| **Total Costs** | **80 USD** | **707 USD** |
| **Annual cost impact*** | **0.8%** | **0.9% each year** |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.4% before costs and 11.5% after costs.
