Invesco EUR IG Corporate Bond Short Duration Active UCITS ETF (the "Fund")
A sub-fund of Invesco Markets IV ICAV (the "Umbrella Fund")
Acc (ISIN: IE0003B9KF87) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is an actively managed Exchange-Traded Fund ("**ETF**") and is not constrained by a benchmark. The Fund may use the Bloomberg Euro Corporate Bond 1-5 Year Index (the "**Benchmark**")[1] for performance comparison purposes.
- The investment objective of the Fund is to achieve a combination of income and capital growth over the medium-term by investing in an actively-managed portfolio of securities.
- To achieve the investment objective, the Fund will primarily invest in an actively managed portfolio of euro denominated investment grade corporate and government related bonds issued by global issuers. The initial investment universe may also comprise government bonds from global issuers, and bonds denominated in currencies other than euro (exposure to exchange-rate fluctuations resulting from investments in non-euro denominated bonds will be hedged back to euro). The Fund may also hold securities that are below investment grade if the credit rating of any security rated investment grade is downgraded subsequent to purchase. The Fund will not invest in securities that are in default at the time of investment. The Fund may invest up to 10% in investment grade contingent convertible bonds. Of the securities held by the Fund, a minimum of 70% will have 5 years or less time to maturity and no bond will have a time to maturity of more than 10 years. The Fund applies ESG screening criteria to issuers and securities are then selected by the Investment Manager based on a combination of macroeconomic analysis, fundamental credit research, single-security analysis and risk management considerations.
- The Fund is an Article 8 Fund (it promotes environmental and/or social characteristics) for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainabilityrelated disclosures in the financial services sector ("**SFDR**").
- The Fund's base currency is EUR.
- The Fund may use derivative instruments for the purposes of managing risk, reducing costs, generating additional capital or income.
- The Fund may also use derivatives for investment purposes. The use of such instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund.
- **Dividend Policy:** This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the Trans-European Automated Real-Time Gross Settlement Express Transfer System (T2) System is open. Please refer to the supplement for further information.
- **Redemption and Dealing of Shares:** The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from the Umbrella Fund in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- **The Benchmark:** The Fund will not seek to track the performance of the Benchmark. The Fund will hold an actively managed portfolio of bonds with the aim of delivering income and capital growth over the medium-term for which the Benchmark serves as a reference.

Risk and Reward Profile

Lower Risk ◄——————————► Higher Risk

Typically lower rewards — Typically higher rewards

1	2	**3**	4	5	6	7

- The Share Class is in risk category 3 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and any income from them, will fluctuate. This may partly be the result of changes in exchange rates. Investors may not get back the full amount invested.
- **Contingent Convertible Bonds Risk:** This Fund invests in contingent convertible bonds, a type of corporate debt security that may be converted into equity or forced to suffer a write down of principal upon the occurrence of a pre-determined event. If this occurs, the Fund could suffer losses. Other notable risks of these bonds include liquidity and default risk.
- **Credit Risk:** The creditworthiness of the debt the Fund is exposed to may weaken and result in fluctuations in the value of the Fund. There is no guarantee the issuers of debt will repay the interest and capital on the redemption date. The risk is higher when the Fund is exposed to high yield debt securities.
- **Environmental, Social and Governance Risk:** The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- **Interest Rate Risk:** Changes in interest rates will result in fluctuations in the value of the Fund.
- **Liquidity Risk:** It may be difficult for the Fund to buy or sell certain instruments in stressed market conditions. Consequently, the price obtained when selling such instruments may be lower than under normal market conditions.
- **Securities Lending Risk:** The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.
- **Use of Derivatives for Investment Purposes Risk:** This Fund may use derivatives for investment purposes. The use of such complex instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund.
