Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Franklin Future of Health and Wellness UCITS ETF

Class SINGLASS • ISIN IE0003WEWAX4 • A sub-fund of Franklin Templeton ICAV
The management company is Franklin Templeton International Services S.à r.l.

Objectives and Investment Policy

Franklin Future of Health and Wellness UCITS ETF (the "**Fund**") investment objective is to provide exposure to companies that are involved in delivering sustainable products and services related to health and wellness globally.

Investment Policy

The Fund invests in equities of developed market companies that utilize technology and demonstrate innovation within the healthcare industry as well as companies that are enabling access to care, health, or wellness provision for a wide range of consumers including the elderly.

To be included in the Index, such securities have, or are expected to have, exposure to the provision of products and/or services that contribute to health and wellbeing.

Such companies operate in industry categories such as senior diseases, genomics, robotic surgery, medical imaging, E-Health and healthcare access, housing and medical care, mind and body wellness and independent aging.

Index Securities are selected from the Solactive GBS Developed Markets All Cap Index (the "Parent Index") based on screening publicly available information such as financial news, business profiles and company publications using the Index Provider's proprietary natural language processing algorithm.

Derivatives and techniques The Fund may use derivatives for hedging and efficient portfolio management.

Strategy The investment manager seeks to minimise the difference between the Fund's performance and that of the benchmark (tracking error), regardless of whether the benchmark level rises or falls.

SFDR category Article 8 (promotes environmental and/or social characteristics under EU regulations).

The benchmark consists of companies with higher environmental, social and governance (ESG) ratings relative to their sector peers. It also excludes or restricts investments in certain industries that are harmful to the environment or society, such as fossil fuels, weapons and tobacco.

For more information see www.franklintempleton.ie/36452

Base currency US dollar (USD).

Benchmark(s) Solactive Sustainable Health and Wellness Index-NR. Used for index tracking only.

The Fund is passively managed and seeks to replicate the benchmark by holding all of the Index securities in a similar proportion to their weighting in the benchmark. Its portfolio, and thus its performance, closely resemble that of the benchmark.

Buying and selling shares

You may buy or sell shares daily through a broker on the stock exchange where the shares are traded. Authorised participants, such as selected financial institutions, may buy or sell shares directly with the fund, on any day the London Stock Exchange is open for business (provided that on such day the markets on which substantially all of the Fund's investments are traded are open).

Intended retail investor

Investors who understand the risks of the Fund and plan to invest for at least 3 to 5 years. The Fund may appeal to investors who:

• are looking for long-term investment growth

• are interested in a thematic exposure to equity markets as part of a diversified portfolio

• have a high risk profile and can tolerate significant short-term changes in the share price

Product availability The Fund is available to all investors with at least basic investment knowledge, through a wide range of distribution channels, with or without the need for advice.

Terms to Understand

derivatives: Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

equities: Securities that represent partial ownership of a company.

efficient portfolio management: A strategy aimed at reducing risk, lowering costs or generating additional capital or income for the Fund through the use of derivatives. These strategies must align with the Funds risk profile.

Share Class Currency: USD

Treatment of Income: For accumulation shares, income from investments is reinvested in the Fund and reflected in the price of shares.

Risk and Reward Profile

1	2	3	4	**5**	6	7

Lower risk — Higher risk
Potentially lower rewards — Potentially higher rewards

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

Why is the Fund in this specific category?

The Fund intends to track the performance of the Solactive Sustainable Health and Wellness Index-NR, composed of securities ranked and selected from the Solactive GBS Developed Markets All Cap Index. As a result, the performance of the Fund can fluctuate considerably over time.

Risks materially relevant not adequately captured by the indicator:

Concentration risk: the risk that arises when a fund invests in relatively few holdings, few sectors or a restricted geographic area. Performance may be more volatile than a fund with a greater number of securities.
Counterparty risk: the risk of failure of financial institutions or agents (when serving as a counterparty to financial contracts) to perform their obligations, whether due to insolvency, bankruptcy or other causes.
Derivative Instruments risk: the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.
Foreign Currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.
Index related risk: the risk that quantitative techniques used in creating the Index the Fund seeks to track do not generate the intended result, or that the portfolio of the Fund deviates from its Index composition or performance.
Secondary market trading risk: the risk that the shares purchased on the secondary market cannot usually be sold directly back to the Fund and that investors may therefore pay more than the NAV per share when buying shares or may receive less than the current NAV per Share when selling shares.
For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of Franklin Templeton ICAV.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	Not applicable*
Exit charge	Not applicable*
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the Fund over a year	
Ongoing charges	0.30%
Charges taken from the Fund under certain specific conditions	
Performance fee	Not applicable

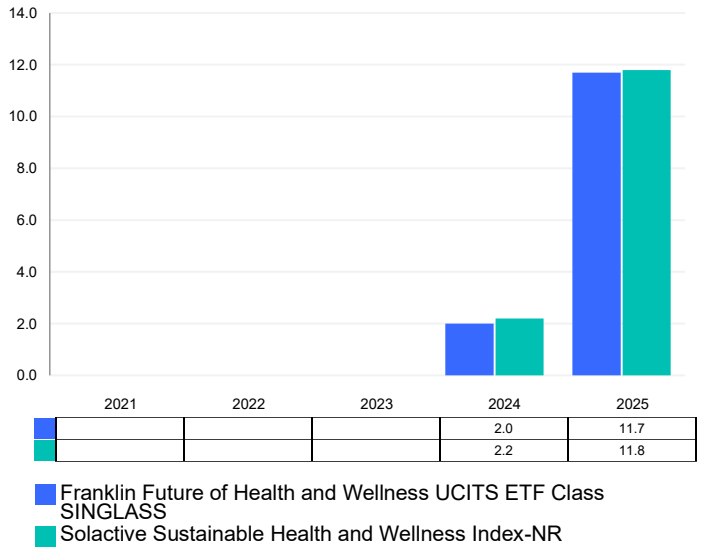

*No entry nor exit charges are payable where investors deal in shares in the secondary market – i.e. where shares are purchased and sold on a stock exchange. In such cases, investors may pay fees charged by their broker. Authorised Participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 2%.

The entry and exit charges shown are maximum amounts: you may pay less in some cases. For more information please ask your financial adviser.

The ongoing charges are based on the expenses for the year ending 31 December 2025. This figure may vary from year to year.

For detailed information about charges, please refer to the “Fees and Expenses” section of the current prospectus of Franklin Templeton ICAV and the Fund supplement.
