# GENERAL INFORMATION

Franklin Templeton ICAV (the “Fund” or the “ICAV”) is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Sub-Funds with registration number C167746. The ICAV was registered on 11 July 2017. The ICAV has been authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (together the “UCITS Regulations”). All capitalised terms used but not defined herein shall have the meaning ascribed thereto in the ICAV’s Prospectus dated 1 December 2022 (the “Prospectus”).

The ICAV has been registered in accordance with the ICAV Act for the purpose of investing in transferable securities in accordance with the UCITS Regulations.

The ICAV has been structured as an umbrella fund consisting of different Sub-Funds (please see Sub-Funds and share classes below), each comprising of one or more classes of shares. The Directors may from time to time, with the prior approval of the Central Bank, create different series of shares representing separate portfolios of assets, each such series comprising a Sub-Fund. Each Sub-Fund will bear its own liabilities and, under Irish law, none of the ICAV, the service providers appointed to the ICAV, the Directors, any receiver, examiner nor liquidator, nor any other person will have access to the assets of a Sub-Fund in satisfaction of a liability of any other Sub-Fund.

The ICAV has appointed Franklin Templeton International Services S.à.r.l. as Management Company (the “Management Company”).

The Management Company of the ICAV has appointed Franklin Advisory Services LLC and Franklin Templeton Investment Management Limited as Investment Manager for all Index Tracking Sub-Funds (as defined below), with the exception of Franklin Catholic Principles Emerging Markets Sovereign Debt UCITS ETF, which has only Franklin Templeton Investment Management Limited as Investment Manager.

The Management Company of the ICAV has appointed Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro IG Corporate UCITS ETF, Franklin Sustainable Euro Green Bond UCITS ETF, Franklin Sustainable Euro Green Corp 1-5 Year UCITS ETF and Franklin Sustainable Euro Green Sovereign UCITS ETF.

The Management Company of the ICAV has appointed Franklin Advisers Inc and Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro Short Maturity UCITS ETF.

The Management Company of the ICAV has delegated investment management to Franklin Advisers Inc which in turn has delegated to Franklin Templeton Institutional LLC to act as Sub-Investment Manager in relation to Franklin USD Investment Grade Corporate Bond UCITS ETF.

The Management Company has also appointed State Street Fund Services (Ireland) Limited as Administrator to the Fund.

The portfolio of assets maintained for each series of shares and comprising a Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund as specified in their relevant Supplement. Shares may be divided into different classes to accommodate, amongst other things, different dividend policies, charges, fee arrangements (including different total expense ratios), currencies, or to provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time.

Generally, only an Authorised Participant may engage in creation or redemption transactions directly with the Sub-Fund in the primary market (to be distinguished from the secondary market that shares may trade in). The ETF shares are listed for secondary trading on each Listing Stock Exchange (as defined in the Prospectus as such selected exchanges as the Directors may determine from time to time in respect of each Fund and which are specified on the Website) and individual ETF shares may be purchased and sold by investors on Listing Stock Exchanges through a broker-dealer. The Sub-Fund issues or redeems Creation Units (as defined in the Prospectus as a block of 50,000 shares (or multiples thereof) which constitutes the unit by which the Fund creates or redeems units through transactions with Authorised Participants) to Authorised Participants (as defined in the Prospectus as with respect to ETF shares, a market maker or a broker-dealer entity, which has entered into a participating dealer agreement for the purposes of directly subscribing and/or redeeming ETF shares with the Fund (i.e. primary market)). Shares in the Sub-Funds may be created or redeemed on any Dealing Day at the Net Asset Value per share as of the relevant Dealing Day, subject to an appropriate provision for duties and charges. The Sub-Fund will generally issue or redeem Creation Units in return for a basket of securities (and/or an amount of cash) that the Sub-Fund specifies each day. All other investors may purchase ETF shares through the secondary market which includes the Authorised Participants, through a stock exchange listing or over the counter. An investor buying or selling ETF shares in the secondary market will pay the secondary market price for ETF shares (broker costs and spreads may also apply) which may deviate, to varying degrees, from the Net Asset Value per share. Further information on purchases and sales in the primary and secondary market is included in the Prospectus.

Where full replication of the Index is not reasonably possible, the Sub-Fund will use an optimisation methodology to build a representative portfolio that provides a return that is comparable to that of the Index.

The specific investment objectives, strategies and policies for each Sub-Fund are set out in each Investment Manager's report.

The investment policy of the **Index Tracking Sub-Funds** is to track the performance of the relevant Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error

between the Sub-Fund's performance and that of the Index. In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index.

The **Actively Managed Sub-Funds' investments** will be managed actively by the Investment Manager or its delegates to seek to achieve its investment objective, for example, to seek to outperform an Index, rather than just to track it. Where a Sub-Fund is actively managed, the Investment Manager will have greater discretion in relation to the composition of the Sub-Fund's portfolio, subject to the investment objectives and policies stated in their relevant supplemental prospectus. An Actively Managed Sub-Fund will not seek to track the performance of any Index.

# INVESTMENT MANAGER'S REPORT

## Economic and Market Overview for Investment Manager's Report

### Six-Month Reporting Period Ended 31 December 2024

Global equities collectively rose during the six-month period ended 31 December 2024, despite bouts of heightened volatility as many investors grew optimistic that the global economy could achieve a soft landing amid resilient growth in certain regions and monetary easing by many central banks, including the US Federal Reserve (Fed), the European Central Bank (ECB), the Bank of England (BoE) and the People's Bank of China (PBoC). The Bank of Japan (BoJ) was a notable outlier, as it raised its benchmark rate in July for the second time in 2024, which led to a brief global stock selloff. Later in the period, Donald Trump's presidential victory in November and the potential for additional tax cuts and expansionary fiscal policy supported US equities, while investors outside the United States were concerned about the president-elect's tariff plans and their implications on global trade. On the economic front, global manufacturing activity contracted in December after stabilising in November (following four months of contraction), while global services activity expanded in December for the 23rd consecutive month. As measured by MSCI indexes in US-dollar terms, developed market equities outpaced a global index, while emerging market and frontier market equities lagged it. In terms of investment style, global growth stocks outperformed global value stocks.

In credit markets, sovereign bond yields were mixed over the period. The yield on the 10-year US Treasury note rose to 4.57% in December from 4.40% in June, reflecting some evolution in US interest-rate expectations, and the yield on the 10-year Japanese government bond ended 2024 at 1.09% from 1.05% at the end of June. However, eurozone sovereign bond yields fell, including the yield on 10-year German Bunds, which ended the year at 2.36% from 2.50% at June-end. Other developed market yields were mixed, as were emerging markets, though within that latter group most Asian and eastern European yields fell.

US stocks generally advanced during the six months under review, with major US indexes reaching new record highs multiple times. After experiencing heightened volatility in July as many investors rotated away from large-capitalisation technology-related stocks, US equities recovered amid generally solid economic data and corporate earnings reports, along with a continued disinflation trend. Donald Trump's victory in the presidential election and the Republican Party's success in gaining a majority in both chambers of the US Congress led to investor optimism about a more market-friendly and economic growth-focused administration. Consequently, US stocks rose significantly following the election in early November and through the first two weeks of December. However, stocks pared those gains amid investor concerns about the potential impacts of threatened tariffs on various industries and trade relationships with other countries, as well as on inflation and the Fed's interest-rate easing path. The Fed began lowering the federal funds target rate in September by 50 basis points (bps) and followed up with two 25-bp cuts in November and December. However, the Fed's reduction of its 2025 interest-rate cut projections and more cautious stance on future rate cuts weighed on stocks. Annual inflation, as measured by the core personal consumption expenditures price index—which excludes volatile food and energy prices and is the Fed's preferred inflation gauge—accelerated in October and stayed at the same rate in November as it remained above the Fed's target. After softening during parts of the six-month period, the US labour market ended 2024 stronger than consensus expectations. The country's gross domestic product (GDP) expanded in 2024's third quarter at a modestly higher annualised rate than in the previous quarter. Manufacturing activity contracted for the ninth successive month in December, while services activity expanded for the sixth consecutive month.

European stocks collectively declined during the six-month period due to investor concerns about the region's economic outlook, earnings warnings from automobile and consumer goods companies, political turmoil in Germany and France, and US President-elect Donald Trump's tariff threats. The eurozone's GDP grew in the third quarter at the fastest sequential pace in two years. Manufacturing activity in the eurozone contracted during the period, as it has for more than two years; meanwhile, services activity experienced a contraction in November but expanded during the rest of the period. The ECB cut the refinancing rate three times during the period for a total of 110 bps. December statements from the ECB dropped the tightening bias but reiterated a data-dependent stance. In the United Kingdom, GDP stalled sequentially in the third quarter after expanding during 2024's first two quarters. The country's manufacturing activity contracted for the third consecutive month in December, while its services activity expanded for the 14th successive month. The BoE lowered its key bank rate twice during the period for a total of 50 bps. At its December meeting, the BoE left its key bank rate unchanged as it remained concerned about wage growth and persistent inflation.

Japanese equities declined slightly in yen terms during the six months under review, but they collectively rose in US-dollar terms as the yen strengthened against the dollar for the period as a whole, despite weakening in the latter months. In early August, Japanese stocks fell as the BoJ's interest-rate hike at July-end and investor concerns about a potential US recession led to the unwinding of the Japanese-yen carry trade, which had been dependent on borrowing the yen at a low cost to purchase potentially higher-return assets. However, an easing in these factors as the six-month period unfolded, along with less hawkish comments from BoJ officials, led Japanese stocks to rebound, paring losses in Japanese-yen terms and

resulting in a positive return in US-dollar terms. Meanwhile, Japan's GDP grew sequentially in the third quarter at a slower pace than in the previous quarter. Its manufacturing activity contracted for the sixth consecutive month in December, while its services activity expanded during most of the period except for a contraction in October. After raising its benchmark interest rate in July for the second time in 2024, the Bank of Japan left its key benchmark rate unchanged at its three subsequent meetings, indicating it needed time to evaluate the potential risks that may result from the incoming US administration's economic policies.

Emerging market equities ended the six-month period with a small collective gain, significantly underperforming developed market stocks, all in US-dollar terms. The Chinese government's announcement of significant stimulus in September drove Chinese and other emerging market stocks higher. However, stocks pared gains later in the period amid investor concerns about political instability in South Korea, US President-elect Trump's tariff threats, a potential US-China trade conflict, and uncertainty whether China's stimulus measures are enough to end the country's real estate crisis. In economic data, China's GDP grew sequentially in the third quarter at a faster rate than in the previous quarter. The country's manufacturing activity expanded in December for the third consecutive month, while its non-manufacturing activity returned to growth in December after stalling in November. The PBoC cut the one-year loan prime rate (LPR), which is used for corporate and household loans, and the five-year LPR, which is used as a reference for mortgage loans, to record lows in July and again in October. Additionally, the PBoC in September reduced the cash reserve requirement for banks to the lowest level since early 2007, the seven-day reverse repurchase rate to a record low and the interest rates on existing mortgages by 50 bps. Elsewhere in emerging markets, central banks in Latin America and eastern Europe that had lowered their benchmark interest rates early slowed their pace of monetary policy easing or paused rate cuts, and a couple of Latin American countries—notably Brazil—started raising rates during the period. Some central banks in emerging Asia also started cutting rates during this period, but at a slow pace.

\* Sub-Fund performance is calculated net of fees and expenses comprising the Total Expense Ratio (TER) and does not take account of commissions and costs incurred on the issue and redemption of shares. Performance is based on the net asset value (NAV) of the ETF which may not be the same as the market price of the ETF. Where applicable the NAV includes a provision for Capital Gains Tax on portfolio holdings, the benchmark does not include any such provision. Past performance is no indication of current or future performance.

## Tracking Error

The Sub-Funds of the Franklin Templeton ICAV that are passively managed intend to track as closely as possible the performance of their respective systematic rules-based proprietary index as described in the prospectus. The tool commonly used to measure achievement of this objective is the realised tracking error.

Realised tracking error is the standard deviation of the delivered excess returns over an annual period. It is a measurement of the consistency of the returns relative to the benchmark index over a defined period.

Realised tracking error can be affected by several factors, including but not limited to, the Total Expense Ratio (TER) of the Sub-Fund, the timing of trades when index is rebalanced, efficient portfolio management techniques employed in attempting to replicate benchmark returns, and the tax rate applied to dividends or interests received by the Sub-Fund as opposed to the tax rate assumed in the total return calculation of the benchmark.

# INVESTMENT MANAGER'S REPORT (continued)

The table below compares the anticipated tracking error of the Sub-Funds (as disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Sub-Funds as of 31 December 2024:

Sub-Fund	Anticipated tracking error	Annualised realised tracking error

Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	0.50%	0.13%
Franklin U.S. Equity UCITS ETF	0.50%	0.06%

\* Realised tracking error is normally computed from 36 months of returns. The Sub-Fund's return history is too short to give a statistically significant tracking error.

\*\* The Sub-Fund launched post 30 June 2024. Refer to Sub-Funds and Share Classes in General Information for details.

Over the period under review the Sub-Funds and their respective benchmarks achieved the performances disclosed in the Investment Manager's report. The over / (under) performance of a Sub-Fund to its respective benchmark is principally attributable to the differences in timing of trades when index is rebalanced; to the Total Expense Ratio (TER) borne by the Sub-Fund, and the tax rate applied to dividends or interests received by the fund as opposed to the tax rate assumed in the total return calculation of the benchmark. The wider tracking error and under performance to the index of the Franklin FTSE India UCITS ETF are explained by the impact of taxation of capital gains in this market.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS

## Franklin AI, Metaverse and Blockchain UCITS ETF

For the period ended 31 December 2024, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, financials and industrials. Individual holdings that lifted the Sub-Fund's absolute return included MicroStrategy, Inc., SoundHound AI, Inc. and Upstart.

For the same period, the only sector that detracted from the Sub-Fund's absolute performance was consumer discretionary. Individual holdings that hindered the Sub-Fund's absolute return included Super Micro Computer, Inc., Intel Corp. and STMicroelectronics NV.

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide equity exposure to listed companies around the world that are involved in the metaverse. The Sub-Fund seeks to track the performance of the Solactive Global Metaverse Innovation Index ("the Underlying Index") as closely as possible, regardless of whether the Index level rises or falls. The Sub-Fund aims to replicate the Underlying Index by holding all of its securities in a similar proportion to their weighting in the Index. The holdings of the Underlying index comprise of global equity securities issued by companies that are deemed to have or are expected to have significant exposure to the provision of products and/or services that contribute to the metaverse.

# INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

## Franklin Catholic Principles Emerging Markets Sovereign Debt UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's duration and yield-curve positioning in US bonds hampered relative performance. Currency positioning also had a negative impact on the Sub-Fund's relative results, particularly its exposure to the euro. Local market allocation contributed to relative returns, owing to an overweight exposure to the outperforming eurozone market and an underweight position in the underperforming US market. The Sub-Fund's sector allocation lifted relative performance, while security selection detracted. Positioning in Brazilian bonds added relative value, although selection in Polish and Hungarian bonds held back relative results.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide exposure to Euro- and US Dollar-denominated sovereign debt issued by emerging market countries. The Sub-Fund seeks to track the performance of the ICE Catholic Principles ESG Emerging Markets External Sovereign Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will select the securities that constitute the Underlying Index in order to build a representative portfolio that provides a return that is comparable to that of the Underlying Index but which may not track the Underlying Index with the same degree of accuracy as an investment vehicle replicating the entire Underlying Index. Each country's exposure is capped at 10% of the Underlying index which are selected from the ICE BofA Diversified Emerging Markets External Debt Sovereign Bond Index (Investment Universe) to ensure diversification and minimise security level concentrations.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin Euro IG Corporate UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's duration and yield-curve positioning in eurozone bonds detracted from relative results. Security selection contributed to the Sub-Fund's relative performance, notably in corporate investment-grade financial and utility bonds. The Sub-Fund's overall sector allocation had a broadly neutral impact on relative returns, with the positive impact of its exposure to government-related bonds and eurozone corporate investment-grade industrial issues partially offset by the negative influence of its exposure to subordinated debt (ex banking, ex insurance).

### Summary of Investment Objective/Policy

The Sub-Fund seeks to provide income from the European corporate bond market while seeking to preserve capital. The Sub-Fund seeks to achieve its investment objective by investing primarily in Euro-denominated investment grade corporate debt securities.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

## Franklin Euro Short Maturity UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's security selection and sector allocation contributed to relative performance, notably positioning in eurozone corporate investment-grade financial issues, as well as selection in Spanish government bonds. The Sub-Fund's overall duration and yield-curve positioning in eurozone bonds further lifted relative returns, although exposure to medium-dated issues and carry subtracted relative value.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income whilst maximising total returns in the Euro-denominated short term fixed income market.

The Sub-Fund invests mainly in:

- short-term fixed and floating rate investment grade debt securities denominated in Euro issued by sovereign and corporate issuers including non-European issuers

The Sub-Fund can invest to a lesser extent in:

- lower quality debt securities such as non-investment grade securities or securities in default (limited to 20% of the Sub-Fund's assets)
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the Sub-Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

## Franklin FTSE Asia ex China ex Japan UCITS ETF

For the period ended 31 December 2024, the sectors that contributed most to the Sub-Fund's absolute performance were health care, communication services and real estate. Individual holdings that lifted the Sub-Fund's absolute return included Taiwan Semiconductor Manufacturing Co. Ltd., DBS Bank and Infosys Ltd..

For the same period, the sectors that detracted from the Sub-Fund's absolute performance were information technology, materials and energy. Individual holdings that hindered the Sub-Fund's absolute return included Samsung Electronics Co. Ltd., HDFC Bank Ltd. and Reliance Industries Ltd..

### Summary of Investment Objective/Policy

The Sub-Fund invests in large and mid-capitalisation stocks in Asia, excluding China and Japan. The Sub-Fund seeks to track the performance of the FTSE Asia ex Japan ex China Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably possible (for example as a result of the number of securities or the liquidity of certain securities within the Index), the Sub-Fund will use the optimisation methodology to select Index Securities in order to build a representative portfolio that provides a return that is comparable to that of the Index but which may not track the Index with the same degree of accuracy as an investment vehicle replicating the entire Index may. Consequently, the Sub-Fund may, over certain periods, only hold a subset of the Index Securities.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin Sustainable Euro Green Bond UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's local market allocation detracted from relative performance, notably exposure to the UK market. The Sub-Fund's security selection further weighed on relative returns, while sector allocation added relative value. Selection in eurozone corporate investment-grade financial issues curbed relative results, although this was partially offset by the positive impact of an underweight exposure to this area. Selection in eurozone corporate investment-grade utility bonds also helped relative performance. Duration and yield-curve positioning in eurozone bonds hindered the Sub-Fund's relative results, as did its exposure to interest-rate derivatives.

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide exposure to the European green bond market whilst maximising total returns.

The Sub-Fund invests mainly in:

- bonds that are labelled green and denominated in European currencies

The Sub-Fund can invest to a lesser extent in:

- bonds that are climate aligned
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the Sub-Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

## Franklin Sustainable Euro Green Corp 1-5 Year UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's security selection and sector allocation had broadly neutral impacts on relative performance. Positioning in corporate investment-grade financial bonds subtracted relative value.

However, positioning in their industrial counterparts added relative value, as did selection in corporate investment-grade utility issues. The Sub-Fund's duration and yield-curve positioning in eurozone bonds contributed to relative results.

### Summary of Investment Objective/Policy

The Sub-Fund's aim is to pursue a sustainable investment objective, by providing exposure primarily to the European corporate green bond market with a short to mid duration of less than 5 years, whilst maximising total returns. The Sub-Fund seeks to achieve its investment objective by investing at least 90% of its Net Asset Value in sustainable investments. Such investments will primarily consist of bonds which have been labelled as "green", as described below, and are denominated in European currencies and issued by corporate issuers.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

## Franklin Sustainable Euro Green Sovereign UCITS ETF

For the period ended 31 December 2024, the Sub-Fund's sector allocation detracted from relative performance, while security selection had a small positive impact. A lack of exposure to Italian sovereign bonds hurt relative returns. Conversely, positioning in Spanish and Austrian government debt helped relative results, as did an underweight allocation to French sovereign issues. The Sub-Fund's duration positioning in eurozone bonds curbed relative performance.

### Summary of Investment Objective/Policy

The Sub-Fund's aim is to pursue a sustainable investment objective, by providing exposure primarily to the European sovereign green bond market, whilst maximising total returns. Investment Policy. The Sub-Fund seeks to achieve its investment objective by investing at least 90% of its Net Asset Value in sustainable investments. Such investments will primarily consist of bonds which have been issued by SSA (sovereigns, sub-sovereigns, supranationals and agencies) entities.

# INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

## Franklin USD Investment Grade Corporate Bond UCITS ETF

For the period ended 31 December 2024, Security selection positively contributed to relative returns for the period under review. Top contributors to performance included retailer Dick's Sporting Goods, Inc., computer software company Cisco Systems, Inc., and insurance company Athene Holding Ltd.. In contrast, top detractors were healthcare company CVS Health Corp., telecommunications company T-Mobile USA, Inc. and entertainment company Warner Bros Discovery, Inc..

### Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income from the USD fixed income market while seeking to preserve capital.

The Sub-Fund invests mainly in:

- U.S. dollar denominated fixed and floating rate investment grade corporate debt securities and investments issued by U.S. companies

The Sub-Fund can invest to a lesser extent in:

- non-U.S. securities including those issued by issuers in emerging markets
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. # NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2024

## 1. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are consistent with those of the annual audited financial statements for the period ended 30 June 2024, as described in those financial statements.

### a) Basis of Preparation

The ICAV's unaudited condensed interim financial statements have been prepared in accordance with Financial Reporting Standard 104 ("FRS 104") Interim Financial Reporting, Irish statute comprising the Irish Collective Asset-Management Vehicles Act 2015 (as amended) (the "ICAV Act") and the Central Bank's (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019, (the "Central Bank UCITS Regulations").

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

In preparation of financial statements in conformity with FRS 104, the ICAV is required to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. Critical accounting estimates are those which involve the most complex or subjective judgments or assessments. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

The Directors have a reasonable expectation that the ICAV has adequate resources to continue in operation and existence for the foreseeable future. Therefore, the Sub-Funds of the ICAV continue to adopt the going concern basis of accounting in preparing these condensed financial statements.

The ICAV is availing of the exemption available to open-ended investment funds under FRS 104 and is not presenting a cash flow statement.

### b) Functional and Presentation Currency

Items included in each Sub-Fund's financial statements are measured using the currency of the primary economic environment in which the relevant Sub-Fund operates (the "functional currency"). The functional or base currency of each Sub-Fund is detailed in the General Information section. The ICAV also has adopted these functional currencies as the presentation currency of each of the Sub-Funds.

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency of the Sub-Fund at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency of the Sub-Fund at the exchange rate at the date on which fair value was determined.

Any foreign currency differences arising from retranslation are recognised in the Condensed Statement of Comprehensive Income in net gain/(loss) on investment activities, including those arising on financial instruments at fair value through profit or loss ("FVTPL").

## 2. Taxation

The ICAV is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, the ICAV is not liable to Irish tax in respect of its income and gains, provided the ICAV is resident for tax purposes in Ireland. The ICAV shall be regarded as resident for tax purposes in Ireland provided it is authorised by the Central Bank of Ireland and it is centrally managed and controlled in Ireland.

However, Irish tax can arise on the happening of a "chargeable event" in the ICAV. A chargeable event arises on any distributions, redemption, repurchase, cancellation, transfer of Shares or the ending of a "relevant period". A relevant period is an eight-year period beginning with the acquisition of the Shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding relevant period. A chargeable event does not include:

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

## 2. Taxation (continued)

- (i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- (ii) An exchange of shares representing one Sub-Fund for another Sub-Fund of the ICAV; or
- (iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund; or
- (iv) Certain exchanges of shares between spouses and former spouses.

No Irish tax will arise in respect of chargeable events in respect of a Shareholder who is an Exempt Irish Investor (as defined in Section 739D TCA) or in respect of a Shareholder who is neither Irish resident nor ordinarily resident in Ireland at the time of the chargeable event provided that a relevant declaration is in place (in accordance with Schedule 2B of the TCA) and the ICAV is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct.

In the absence of an appropriate declaration, the ICAV will be liable for Irish tax on the occurrence of a chargeable event, and the ICAV reserves its right to withhold such taxes from the relevant shareholders. There were no chargeable events during the period under review.

The ICAV is required to recognise a tax liability when it is probable that the tax laws of foreign countries require a tax liability to be assessed on the Sub-Fund's capital gains sourced from such foreign country, assuming the relevant taxing authorities have full knowledge of all the facts and circumstances. The tax liability is then measured at the amount expected to be paid to the relevant taxation authorities, using the tax laws and rates that have been enacted or substantively enacted by the end of the reporting period. There is sometimes uncertainty about the way enacted tax law is applied to offshore investment funds. This creates uncertainty about whether or not a tax liability will ultimately be paid by the Fund. Therefore, when measuring any uncertain tax liabilities, management considers all of the relevant facts and circumstances available at the time that could influence the likelihood of payment, including any formal or informal practices of the relevant tax authorities.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by foreign countries from which the investment income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Withholding tax and reclaims incurred on dividends are recorded on ex-date. Dividends receivable are shown net of withholding taxes payable, if any, in the Condensed Statement of Financial Position. The dividend withholding tax charge for the period ended 31 December 2024 and 31 December 2023 is presented in the Condensed Statement of Comprehensive Income.

The ICAV may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the ICAV invests. Income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Many of these foreign countries have tax laws that indicate that capital gains taxes may be applicable to non-residents, such as the ICAV. Typically, these capital gains taxes are required to be determined on a self assessment basis; therefore, such taxes may not be deducted by the ICAV's broker on a 'withholding' basis. The foreign tax expense, if any, is recorded on an accrual basis and is included in "Capital gains tax" in the Condensed Statement of Comprehensive Income. The amount of foreign tax owed, if any, is included in "Other payables" in the Condensed Statement of Financial Position. Capital gains tax for the period ended 31 December 2024 and 31 December 2023 was accrued on gains on Franklin Emerging Markets UCITS ETF, Franklin FTSE Asia ex China ex Japan UCITS ETF, Franklin FTSE India UCITS ETF, Franklin Global Quality Dividend UCITS ETF, Franklin Global Equity SRI UCITS ETF and Franklin MSCI Emerging Markets Climate Paris Aligned UCITS ETF.

The ICAV considers interest and penalties on related tax liabilities to be an inseparable element of the tax liability and accounts for interest and penalties. These amounts would be included within the tax line in the Condensed Statement of Comprehensive Income, and the liability, if any, would be included within the income tax liability on the Condensed Statement of Financial Position.

In respect of the period ended 31 December 2024 and the year ended 30 June 2024, the ICAV has measured uncertain tax liabilities and related interest and penalties with respect to foreign capital gains taxes at Nil. While this represents management's best estimate, the estimated value could differ significantly from the amount ultimately payable.

### Reporting Fund Status

The ICAV has received confirmation from HM Revenue & Customs (HMRC) in the UK that it has been granted UK Reporting Fund Status with effect from the launch dates of all Sub-Funds for UK tax purposes.

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

## 3. Share Capital & Net Asset Value per Share

### Authorised

The authorised share capital of the ICAV is 500,000,000,002 shares of no par value divided into 2 subscriber shares of no par value and 500,000,000,000 redeemable participating shares of no par value. The Directors have the power to issue all of the shares of the ICAV on such terms as they think fit.

### Subscriber Shares

The ICAV issued the 2 subscriber shares of no par value at EUR 1 each for the purpose of the registration of the ICAV. The subscriber shares entitle the holders to attend and vote at general meetings of the ICAV but do not entitle the holders to participate in the profits or assets of the ICAV except for a return of capital on a winding-up. They do not form part of the Net Asset Value of the ICAV and are thus disclosed in the financial statements by way of this note only.

### Redeemable Participating Shares

Each of the shares entitles the holder to attend and vote at any general meetings of the ICAV and to participate equally in the profits and assets of the Sub-Fund to which the shares relate, subject to any differences between fees, charges and expenses applicable to different classes. Each shareholder shall have one vote for each whole share held. The liability of the shareholders shall be limited to the amount, if any, unpaid on the shares respectively held by them, and the shareholders shall not be liable for the debts of the Sub-Fund. Minimum creation and redemption amounts are specified in the relevant Supplement for each Sub-Fund.

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2024 (CONTINUED)

## 4. Operating Expenses (continued)

### Directors Fees

During the period ended 31 December 2024, the Directors earned fees amounting to EUR 26,975 (30 June 2024: EUR 54,104), none of which is outstanding as at period end and the previous year end. The Franklin Templeton Group provides employees to act as Directors of the ICAV (these Directors do not receive a fee). The remuneration of the Directors shall not exceed EUR 100,000 per annum per Director (or its equivalent) (or such other sum as the Directors may from time to time determine and disclose to the Shareholders).

## 5. Fair Value Hierarchy

The ICAV's policies for managing risk associated with the use of financial instruments applied during the period under review are consistent with those disclosed in the ICAV's audited financial statement as at and for the year ended 30 June 2024.

The ICAV is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The standard requires an entity to provide a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the period split between those recognised in the Condensed Statement of Comprehensive Income and recognised through the statement of total recognised gains and losses, purchases, sales issues and settlements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Sub-Funds. The Sub-Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Assets and liabilities not carried at fair value are carried at amortised cost, their carrying values are a reasonable approximation of fair value.

The following tables analyse within the fair value hierarchy the Sub-Funds' financial assets and financial liabilities measured at fair value as at 31 December 2024.

Investments whose values are based on quoted market prices in active markets are classified within Level 1. For the ICAV these include active listed equities and exchange traded derivatives.

Financial instruments that are not listed but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include bonds and forward contracts.

There was 1 (30 June 2024: 1) security with a fair value of USD Nil in Franklin Global Quality Dividend UCITS ETF that was classified as Level 3 as at 31 December 2024. Tatneft PJSC suspended trading from the Moscow Exchange (MOEX) on 1 March 2022 and resumed trading on 24 March 2022 to local investors but continued to remain inaccessible to all "unfriendly" foreign investors. Given the current market conditions and the inability of the Sub-Fund to access the local Moscow equity market, the Russian investments are valued at USD Nil on 31 December 2024 (30 June 2024: USD Nil).

All related party transactions as noted above were carried out at arm's length and in the ordinary course of business.

### Significant Shareholders

The significant shareholders as at 31 December 2024 and 30 June 2024 are the Authorised Participants who hold 100% of the Sub-Funds on the primary share register at the reporting date, the majority of which are re-sold on the secondary market. The beneficial ownership of these shares is then passed from the Authorised Participants through the trading of shares on the secondary market.

## 8. Efficient Portfolio Management

The ICAV may, on behalf of each Sub-Fund, engage in techniques and instruments such as in FDIs, repurchase/reverse repurchase and stock lending agreements for the purposes of efficient portfolio management meaning the reduction of risk, including the risk of tracking error between the performance of a Sub-Fund and the performance of the Index tracked by the relevant passive Sub-Fund, the reduction of costs to the Sub-Funds, the generation of additional capital or income for the Sub-Fund and hedging against market movements, currency exchange or interest rate risks, taking into account the risk profile of each Sub-Fund and the general provisions of the UCITS Regulations. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by each Sub-Fund. No securities lending took place during the period ended 31 December 2024 or the year ended 30 June 2024.
