Invesco EUR Government and Related Green Bond Weighted UCITS ETF (the "Fund")
A sub-fund of Invesco Markets II plc (the "Umbrella Fund")
Dist (ISIN: IE0008SEV3B2) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is an actively-managed Exchange-Traded Fund ("**ETF**"), which aims to provide the performance of the European government bond market by investing in an actively managed portfolio of government and government-related bonds that also factors certain environmental, social, and corporate governance ("**ESG**") criteria into the portfolio construction and maximises exposure to Green Bonds subject to exposure and liquidity considerations.
- To achieve the investment objective, the Fund will generally invest in a portfolio of euro denominated government and government related bonds predominantly issued by European issuers with an investment grade rating. The Fund may invest up to 30% of its assets in bonds denominated in currencies other than euro. The Fund will only invest in bonds from developed market issuers, unless an issuer is from the European Economic Area (EEA) in which case an emerging market issuer is eligible. The Fund may invest up to 30% of its assets in issuers not from the EEA. Securities are selected by the Investment Manager based on three criteria: 1) compliance with the Fund's ESG policy; 2) maximising exposure to Green Bonds subject to specific exposure and liquidity considerations, with a minimum proportion of Green Bonds in the portfolio set at 20% of the Fund's invested assets (excluding cash holdings); and 3) the overall ability of the Fund's portfolio to meet certain ex ante tracking error targets relative to the Benchmark.
- Under the Fund's ESG policy, Bonds issued by governments and corresponding agencies and local authorities are eligible for inclusion in the portfolio if the relevant country has ratified and implemented into national legislation: (a) the eight fundamental conventions identified in the International Labour Organisation's Declaration on Fundamental Rights and Principles at Work; and (b) at least half of the 18 core International Human Rights Treaties. The Investment Manager also applies exclusionary criteria which excludes countries based on non-conformity with international treaties and assessments by third-party non-profit organisations. Government-owned issuers that are not government guaranteed are excluded based on their involvement in controversial business activities and/or controversies (as more fully defined in the ESG policy of the Fund).
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund is an Article 8 Fund (it promotes environmental and/or social characteristics) for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("**SFDR**").
- The Fund may use derivative instruments for the purposes of managing risk, reducing costs, generating additional capital or income. The Fund may also use derivatives for investment purposes. The use of such instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund.
- The Fund's base currency is EUR.

Risk and Reward Profile

Lower Risk — Higher Risk

Typically lower rewards — Typically higher rewards

1	2	3	**4**	5	6	7

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and any income from them, will fluctuate. This may partly be the result of changes in exchange rates. Investors may not get back the full amount invested.
- **Concentration Risk:** The Fund might be concentrated in a specific region or sector or be exposed to a limited number of positions, which might result in greater fluctuations in the value of the Fund than for a fund that is more diversified.
- **Credit Risk:** The creditworthiness of the debt the Fund is exposed to may weaken and result in fluctuations in the value of the Fund. There is no guarantee the issuers of debt will repay the interest and capital on the redemption date. The risk is higher when the Fund is exposed to high yield debt securities.
- **Environmental, Social and Governance Risk:** The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- **Green Bond Risk:** The Fund invests in Green Bonds which means the Fund will be more affected by the performance of Green Bonds than a fund that is more diversified across the bond market. The market for Green Bonds and related regulation is evolving. The current accepted market standard definitions of "green" may change over time and in such event, the Fund may change the definition of Green Bonds that is applied by the Fund.
- **Interest Rate Risk:** Changes in interest rates will result in fluctuations in the value of the Fund.
- **Securities Lending Risk:** The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.
- **Use of Derivatives for Investment Purposes Risk:** This Fund may use derivatives for investment purposes. The use of such complex instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund.
