Key Risks

The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss. Bonds are exposed to credit risk and interest rate risk. There is a risk that the bond issuer may be unable to pay interest or repay the bond principal, resulting in your investment suffering a loss. If interest rates rise, typically the value of the bond will fall, which could also affect the value of your investment.
