The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco US High Yield Fallen Angels UCITS ETF (the "Fund")
A sub-fund of Invesco Markets III plc (the "Umbrella Fund")
Acc (ISIN: IE0009D6K2A2) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to provide investors with investment results which, before expenses, would correspond to the price and yield performance of the FTSE Time-Weighted US Fallen Angel Bond Select Index (Total Return) (the "**Index**")[1].The Fund is a passively managed Exchange-Traded Fund ("**ETF**").
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances Investors will be permitted to redeem their shares directly from Invesco Markets III plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- An index measures the performance of a selection of securities representative of the overall market or a subsection of it.
- To achieve the investment objective the Fund will, as far as possible and practicable, hold all the securities in the Index in their respective weightings.
- The Index measures the performance of US$ "fallen angels" i.e., US$ corporate bonds which were (i) previously rated investment-grade (higher quality) and subsequently downgraded to high-yield (lower quality); or (ii) previously rated high-yield, subsequently rated investment-grade and then downgraded again to high-yield. The Index is rebalanced on a monthly basis.
- The Index is based on the FTSE Time-Weighted US Fallen Angel Bond Index which includes US Dollar-denominated bonds issued by corporations where the country is assigned as Australia, Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States.
- You can buy and sell shares in the Fund on any Business Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.

Risk and Reward Profile

Lower Risk ⟷ Higher Risk

Typically lower rewards ⟷ Typically higher rewards

1	2	3	**4**	5	6	7

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and any income from them, will fluctuate. This may partly be the result of changes in exchange rates. Investors may not get back the full amount invested.
- **Concentration Risk:** The Fund might be concentrated in a specific region or sector or be exposed to a limited number of positions, which might result in greater fluctuations in the value of the Fund than for a fund that is more diversified.
- **Credit Risk:** The creditworthiness of the debt the Fund is exposed to may weaken and result in fluctuations in the value of the Fund. There is no guarantee the issuers of debt will repay the interest and capital on the redemption date. The risk is higher when the Fund is exposed to high yield debt securities.
- **Interest Rate Risk:** Changes in interest rates will result in fluctuations in the value of the Fund.
- **High yield debt instruments / Non Investment Grade Securities Risk:** This Fund may hold a significant amount of debt instruments which are of lower credit quality. This may result in large fluctuations of the value of the ETF as well as impacting its liquidity under certain circumstances.
- **Securities Lending Risk:** The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.
- For more information on risks, please see the Fund supplement and prospectus under "**Risk Factors**", which is available at http://etf.invesco.com (select your country and navigate to the Prospectus on the Documents section on the product page).
