EQUITY

Objective and Investment Policy

The Sub-Fund is passively managed. The objective of the Sub-Fund is to track the performance of the S&P World Energy Weighted & Screened Index (the "Index"). The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund. The Sub-Fund promotes environmental and/or social characteristics through among others, replicating an Index integrating an environmental, social and governance ("ESG") rating. The Index is an equity index that measures the performance of eligible equity securities from the S&P World Energy Index (the "Parent Index"). The Parent Index is designed to measure the performance of large and mid-cap energy companies in developed markets excluding Korea which make up approximately 85% of the total available capital. Energy companies are identified by reference to the GICS. The energy sector comprises of companies engaged in exploration and production, refining and marketing, and storage and transportation of oil and gas, and coal and consumable fuels. It also includes companies that offer oil and gas equipment and services. The Index is selected and weighted to enhance ESG profiles, and reduce carbon emission intensity, all compared to the Parent Index. The Index applies several ESG filters (e.g. exclusions filters to exclude companies involved in controversial business activities (e.g. controversial weapon), or involved in ESG controversies) and optimization constraints (GHG intensity reduction and identical S&P Global ESG Score or improvement of such score compared to the Parent Index). The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return. More information about the composition of the Index and its operating rules are available in the prospectus and at https://www.spglobal.com/spdji/en/supplemental-data/europe The Index value is available via Bloomberg (SPDSEEUN). The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and which relate to the Index or constituents of the Index for investment and/or efficient portfolio management. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Performances from 20/09/2022 to 30/10/2026 (Source : Fund Admin)

Risk indicators (Source: Fund Admin)

	1 year	3 years	Inception to date *
Portfolio volatility *	21.18%	20.53%	20.98%
Benchmark volatility	21.22%	20.56%	21.00%
Ex-post Tracking Error	0.11%	0.11%	0.13%
Sharpe ratio	2.49	0.65	0.60

* Volatility is a statistical indicator that measures an asset's variations around its average value. For example, market variations of +/- 1.5% per day correspond to a volatility of 25% per year. The higher the volatility, the higher the risk.
The Tracking Error indicator measures the performance's difference between the fund and the benchmark

Risk & Reward Profile (SRRI) (Source: Fund Admin)

Lower risk, potentially lower rewards

Higher risk, potentially higher rewards

The SRRI represents the risk and return profile as presented in the Key Investor Information Document (KIID). The lowest category does not imply that there is no risk. The SRRI is not guaranteed and may change over time.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the AMUNDI ETF ICAV prospectus.
