ETF

Class: JPM US Research Enhanced Index Equity (ESG) UCITS ETF - EUR Hedged (acc)

Fund overview

ISIN	Valor	
IE000CN8T855	114175851	
Investment objective: The Sub-Fund aims to achieve a long-term return in excess of Standard & Poor's (S&P) 500 Index (Total Return Net) (the "Benchmark") by actively investing primarily in a portfolio of US companies.		
Investment policy: The Sub-Fund pursues an actively-managed investment strategy.		
Investment approach		
<ul style="list-style-type: none">• Uses a fundamental, bottom-up stock selection process.• Enhanced index approach that builds a portfolio in reference to the benchmark by overweighting securities with the highest potential to outperform and underweighting securities considered most overvalued.• Diversified portfolio with disciplined, risk-controlled portfolio construction.• Applies values and norms based screening and implements minimum investment thresholds on companies with positive ESG characteristics.		
Investor profile: Typical investors in the Sub-Fund are expected to be investors who want to take broad market exposure to the US stock market, who seek to benefit from potential excess returns with similar risks to investing in securities representing the Benchmark and who are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

Key risks

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.

Exclusion of companies that do not meet certain ESG criteria from the Sub-Fund's investment universe may cause the Sub-Fund to perform differently compared to similar funds that do not have such a policy.

The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may under-perform its Benchmark.

Further information about risks can be found in the "Risk Information" section of the Prospectus.
