General Information

UBS (Irl) ETF plc (the "Company") is an open-ended investment company with variable capital which was incorporated in Ireland on 14 December 2011 under registration number 507439 and is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). The objective of the Company is the collective investment in transferable securities and/or other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (the "Central Bank UCITS Regulations"). References to statutes, regulations and laws shall include any amendments thereto.

All capitalised terms not defined herein shall have the meaning attributed to them in the latest Prospectus for the Company.

The Company has been structured as an umbrella fund, with segregated liability between sub-funds, in that the Directors may from time to time, with the prior approval of the Central Bank, issue different series of Shares representing separate portfolios of assets, each comprising a fund (each a "Fund", collectively the "Funds"). The portfolio of assets maintained for each series of Shares and comprising a Fund will be invested in accordance with the investment objectives and policies applicable to such Fund as specified in the relevant supplement to the Prospectus, and each relevant supplement shall include all such relevant information in relation to the additional Fund or Funds as the Directors may deem appropriate and the Central Bank requires to be included. Each Fund will bear its own liabilities and, under Irish law, none of the Company, any of the service providers appointed to the Company, the Directors, any receiver, examiner or liquidator, or any other person will have access to the assets of a Fund in satisfaction of a liability of any other Fund.

Shares of any particular series may be divided into different Classes to accommodate different dividend policies, charges and/or fee arrangements (including different flat fees) and/or currencies. The Company may establish Classes that provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time. While it is anticipated that applications will be made for most of the Classes to be admitted to listing on one or more Listing Stock Exchange, the Company may also establish Classes of Unlisted Shares.

Replication Strategy

Our approach to passive equity investment is to target full replication where possible, depending on the characteristics of the benchmark index, the size of portfolio and the desired tracking accuracy. In some situations, the Investment Manager may utilise stratified sampling where the Investment Manager deem this to be more efficient.

In practice, the majority of our Equity ETFs target full replication (holding all or virtually all the underlying constituents at weights at or close to the index). As at 30 June 2026, no funds were considered sampled.

We typically utilize "stratified sampling" approach for our passive fixed income funds. "Stratified Sampling" is a quantitative based process, bolstered with qualitative input from our portfolio managers, that aims to construct an optimal portfolio that efficiently replicates benchmark risk characteristics with fewer securities that are sufficiently liquid and diversified. However, for certain cases,the optimal portfolio may be achieved by full replication.

As at 30 June 2026 the following Fixed Income Sub-Fund utilised stratified sampling:

[1] This is due to a one-off event during the 12-month measurement period ended 30 June 2026 where an index constituent was suspended for more than 60 days and the index provider deleted the stock at a zero price. The Fund held the investment and sold it once trading resumed and, as a result, the Fund experienced significant outperformance on that day.

Note: Not all Share Classes were in existence for the full financial year of these financial statements. The following Share Classes launched during the financial year ended 31 December 2025: UBS S&P 500 ESG Elite UCITS ETF USD dis, UBS MSCI World Selection UCITS ETF hEUR dis, UBS Solactive US Listed Gold & Silver Miners UCITS ETF USD acc, UBS Nasdaq-100 UCITS ETF USD dis, UBS Nasdaq-100 UCITS ETF USD acc, UBS Nasdaq-100 ESG Enhanced UCITS ETF USD acc, UBS MSCI World Mega Cap UCITS ETF USD acc, UBS MSCI World ex Mega Cap UCITS ETF USD acc, UBS MSCI USA ex Mega Cap UCITS ETF USD acc, UBS MSCI USA Mega Cap UCITS ETF USD acc, UBS Core MSCI World UCITS ETF Class hGBP acc, UBS Core S&P 500 UCITS ETF Class USD acc, UBS MSCI India Universal UCITS ETF USD dis, UBS MSCI United Kingdom IMI Socially Responsible UCITS ETF GBP acc and UBS Nasdaq-100 UCITS ETF hGBP acc. For these Share Classes, the performance data in the table above is not for the full financial year, it is from launch date to the financial year end date. For the financial year ended 31 December 2025, the tracking error for these share classes is n.a. since the share classes launched for less than full applicable 12-month period.

There were no Share Classes terminated during the financial year ended 31 December 2025.

Historical performance is no indicator of current or future performance. The performance data does not take account of any commissions and costs charged when subscribing and redeeming units.

[a] Fund performance reflects percentage change in NAV's per share (cum dividend) over the financial period.
[b] Total Net Return of the Index.
[c] The tracking difference is attributable to Fund Expenses (see Note 2 to the financial statements) as well as non-reclaimable withholding taxes and to generation of securities lending income. The Funds' portfolio manager aims to achieve a level of tracking accuracy whereby the expected annual difference in returns, after expenses, between the performance of the shares of a Fund and that Fund's index will not exceed 1% under normal market conditions. However, exceptional circumstances may arise which cause a Fund's tracking accuracy to exceed 1%. None of the Funds had a tracking difference of more than 1% over a 12-month financial period.
[d] Total Expense Ratio (TER) or the flat fee is calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER of collective investment schemes" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets. For terminated and newly launched share classes the total operating expense figure included in the flat fee has been annualised. The flat fee has been audited.
[e] Tracking Error: annualised standard deviation. The Fund's portfolio manager aims to keep the tracking error, defined as the volatility of the tracking difference between the performance of the shares of a Fund and that Fund's index, below or equal to 1% under normal market conditions. However, exceptional circumstances may arise which cause a Fund's tracking error to exceed 1%. Additionally, in relation to certain Funds through the composition of that Fund's Index, it may not be practicably possible, for example because of the Company's investment restrictions, to achieve such a tracking error. It is anticipated for most Funds, especially those where the Index's component securities are listed on one or more highly liquid and efficient Recognised Markets, that the tracking error will be significantly lower than 1%. In relation to those certain Funds where such accuracy is not practicably possible, it is anticipated that the annual tracking error will be no more than 3%. There were no tracking errors exceeding 1% in the last 12 months. Tracking error calculation: The tracking error for the last 12 months is calculated as follows: =STANDARD DEVIATION (Monthly Excess calculated each month over a 12-month financial period)*SQUARE ROOT (12).

Investment Objectives & Policies

UBS Core MSCI USA UCITS ETF

The objective of the Fund is to seek to track the equity market performance of the U.S. market. The investment policy of the Fund is to seek to track the performance of the MSCI USA Index.

UBS MSCI USA Value UCITS ETF

The objective of the Fund is to seek to track the equity market performance of U.S. equities, which are categorised as value stocks using eight historical and forward-looking fundamental data points. The data points are broken down into value investment style characteristics and growth investment style characteristics and, in constructing the index, MSCI use them to identify which stocks exhibit stronger value characteristics (i.e., are priced at a low level relative to what is considered to be their fundamental value). The value investment style characteristics are (i) book value to price ratio, (ii) 12-month forward earnings to price ratio and (iii) dividend yield. The growth investment style characteristics are (i) long-term forward earnings per share (EPS) growth rate, (ii) short-term forward EPS growth rate, (iii) current Internal Growth Rate, (iv) long-term historical EPS growth trend and (v) long-term historical sales per share (SPS) growth trend. The investment policy of the Fund is to seek to track the performance of the MSCI USA Value Index.

Investment Managers' Report
For the six months financial period ended 30 June 2026

Quarter One 2026

Global equities declined in the first quarter of 2026 as geopolitical tensions in the Middle East drove a broad risk-off move, pushed energy prices sharply higher, and raised concerns about renewed inflation and slower growth. The MSCI All Country World Index fell 2.5% for the quarter, while the S&P 500 declined 4.3%, with weakness concentrated in March as investors assessed the impact of prolonged disruption to energy supplies and the potential for tighter central-bank policy. Market leadership rotated away from growth and mega-cap technology, with value stocks outperforming growth stocks as AI-related hardware and memory concerns added to pressure on the technology sector. Regional performance diverged: emerging markets ended nearly flat, Japan gained 3.0%, and the UK rose 4.0%, while the Eurozone and Switzerland each declined 2.4% and China fell 8.5% amid weaker sentiment toward AI monetization, regulatory pressure, and higher geopolitical risk premiums. Overall, Q1 2026 was marked by elevated volatility, a sharp repricing of energy and inflation risks, and significant regional dispersion, with commodity-linked and defensive markets proving more resilient than growth-heavy regions.

Quarter Two 2026

Global equities rebounded strongly in the second quarter of 2026 as easing Middle East tensions, falling energy prices, resilient corporate earnings, and renewed confidence in AI-related capital expenditure supported risk sentiment. The MSCI All Country World Index gained 15.3%, while the S&P 500 returned 15.2%, its strongest quarterly performance since the post-pandemic rebound in the second quarter of 2020. The rally was broad but remained closely linked to the AI supply chain: the Philadelphia Semiconductor Index surged 88.0%, while emerging markets advanced 24.1%, supported by South Korean and Taiwanese semiconductor and hardware names. Europe also participated strongly, with MSCI EMU up 15.8%, while Japan rose 16.7% and Switzerland gained 13.2%; China lagged, declining 6.8%, reflecting weaker confidence in the domestic recovery and pressure in technology-related areas. June saw some rotation away from the largest US technology names, with the S&P 500 down 1.0% for the month while the equal-weighted index rose 2.4%, suggesting improving breadth beneath the headline rally. Overall, Q2 2026 marked a sharp recovery from the prior quarter's stress, driven by de-escalation, lower energy-price risk, and renewed AI earnings momentum.

Notes to the Financial Statements for the six months financial period ended 30 June 2026

Note 1 Summary of material accounting policies

The material accounting policies applied in the preparation of these condensed interim unaudited financial statements are set out below.

(a) *Basis of presentation*

The condensed interim unaudited statements for the financial period ended 30 June 2026 are presented in accordance with International Accounting Standard 34, 'Interim financial reporting' ("IAS 34") and the UCITS Regulations. These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The condensed interim unaudited financial statements should be read in conjunction with the Company's audited annual financial statements for the financial year ended 31 December 2025, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), the UCITS Regulations and Irish Company Law.

The condensed interim financial statements as at 30 June 2026 are unaudited. We note that the statutory auditor's report in the audited annual financial statements as at 31 December 2025 was unqualified.

The accounting policies, accounting estimates and judgments, and methods of calculation applied in these condensed interim unaudited financial statements are consistent with those applied in the Company's annual audited financial statements for the financial year ended 31 December 2025.

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2026

A number of new standards and amendments to standards are effective for the financial year beginning 1 January 2026. Adoption of these standards did not have a material impact on the Company's financial position, performance or disclosures on the Sub-Funds:

Standard:	Narrative:	Effective Date:
Amendments to IFRS 9 and IFRS 7	Classification and Measurement of Financial Instruments	1 January 2026
Amendments to IFRS 9 and IFRS 7	Contract Referencing Nature-dependent Electricity	1 January 2026
Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10, IAS 7	Annual Improvements to IFRS Accounting Standards	1 January 2026

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2026 and not early adopted

A number of new standards, amendments to standards and interpretations are issued but not yet effective for financial year beginning 1 January 2026, and have not been early adopted in preparing these financial statements. The Company had assessed the impact of these standards to its financial position, performance or disclosures in its financial statements. As at 30 June 2026, the Company do not expect a material impact on the financial statements.

Standard:	Narrative:	Effective Date:
IFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027
IFRS 1	Annual Improvements for SMEs Accounting Standard, Translation to a Hyperinflationary Presentation Currency	1 January 2027
Amendment to IAS 21	The Effects of Changes in Foreign Exchange Rates	1 January 2027

Combined Financial Statements

(i) For the purpose of producing the Combined Statement of Financial Position, assets and liabilities, including net assets attributable to holders of Redeemable Participating Shares of each Fund whose presentation currency is not USD are translated from its presentation currency to USD at the closing rate at the Statement of Financial Position date; and

(ii) For the purpose of producing the Combined Statement of Comprehensive Income, the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders and Combined Statement of Cash Flows, the average exchange rates for the respective six months financial period are used to convert into USD, the respective statements of the Funds with a presentation currency other than USD. The currency gain or loss on retranslation of opening net assets, and the average rate difference arising on the translation of the Combined Statement of Comprehensive Income and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, is included in the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. This translation adjustment does not impact the net asset value per share of any of the individual Funds.

Estimates and judgments policy

The preparation of the condensed unaudited interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. However, uncertainty about

these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

In preparing these condensed unaudited interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty and assumptions were the same as those applied to the preparation of the Company's audited financial statements for the financial year ended 31 December 2025.

Note 2 Fees & Expenses

All of the fees and expenses payable in respect of a Fund are paid as one single fee. This is referred to as the Flat Fee. Out of the aforementioned Flat Fee, the Company will bear all costs incurred in connection with the Company's assets. This includes, but is not limited to, fees and expenses of the Investment Manager or Sub-Investment Manager, Depositary, Administrator, Directors, Distributor or Sub-Distributor and Company Secretary. The Company may pay part or all of its fees to any person that invests in or provides services to the Company or in respect of any Fund.

Directors' fees will not exceed the sum of €40,000 per annum per Director (or its equivalent) or such other amount as the Directors may from time to time determine (with each Director abstaining in respect of any resolution relating to that Director's remuneration) and disclose to the Shareholders. Ms. Petrini, Mr. Goetschi and Ms. Calabretta currently do not receive a fee. Mr. White did not receive a fee. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

The following fees and expenses will also be discharged out of the Flat Fee:

(i) the cost of listing and maintaining a listing of Shares on any Listing Stock Exchange;
(ii) the cost of convening and holding Directors' and Shareholders' meetings;
(iii) professional fees and expenses for legal and other consulting services;
(iv) the costs and expenses of preparing, printing, publishing and distributing prospectuses, supplements, annual and semi-annual reports and other documents to current and prospective Shareholders;
(v) the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the Company;
(vi) the costs and expenses of any investment adviser appointed by the Investment Manager/s;
(vii) such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the Company or of any Fund; and
(viii) all establishment costs of the Company and the Funds not otherwise referred to above.

The Flat Fee does not include extraordinary costs and expenses (including but not limited to transaction charges, stamp duty or other taxes on the investments of the Company including duty charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Company's investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Fund and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Company all of which will be paid separately out of the assets of the relevant Fund). The Flat Fee is calculated and accrued daily from the Net Asset Value of each Fund and payable monthly in arrears. The Flat Fee of each Fund is as listed below and in the relevant Supplement. If a Fund's expenses exceed the Flat Fee outlined below in relation to operating the Funds, the Distributor or its affiliate will cover any shortfall from its own assets.

The Flat Fee rates which were effective up to 30 June 2026 are outlined below:

Connected Person Transactions

Regulation 43(1) of the UCITS Regulations "Restrictions on transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person are conducted a) at arm's length; and b) in the best interest of the unitholders of the UCITS".

As required under Central Bank UCITS Regulation 81(4), the Directors of the Company are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

The Board of Directors of the Company is not aware of any transactions with connected persons during the six-month financial period ended 30 June 2026 and financial year ended 31 December 2025 other than those disclosed in these financial statements.

Note 4 Commission arrangements

During the six-month financial period ended 30 June 2026, no commission sharing arrangements (CSAs) were entered into on behalf of the Company (financial period ended 30 June 2025: None).

Note 5 Distributions

The Directors intend to declare distributions out of:

(i) net income; and/or
(ii) realised and unrealised gains net of realised and unrealised losses attributable to the following share classes: AUD dis; EUR dis; GBP dis; hCHF dis; hEUR dis; hGBP dis; USD dis; and USD UKdis

In respect of each six month period ending on 30 June and 31 December within 30 calendar days of the end of the relevant financial period end. Any such dividends will be paid within two calendar months after declaration.

Note 6 Securities lending

Securities lending is the temporary transfer of securities from the lender (the Company) to a third party borrower through an appointed lending agent. In exchange for the lent security the borrower provides collateral, prior to the delivery of securities, and pays a fee over the financial period of the loan. All loans within the lending program are open and rolled daily such that they can be terminated on demand.

The Company engages in securities lending for selected, physically replicated Funds with the aim of reducing the investor's net costs. Securities lending with the Company is always overcollateralised with at least 105% margin across all asset classes. An additional safeguard is that loan balances are capped at 50% of each Fund's Asset Under Management. Funds tracking a "socially responsible" index, an ESG, Gender Equality Index or Paris aligned Indices are not in the lending program.

The following Funds are in the securities lending program as at 30 June 2026:

In general, lending may only be effected via the Securities Lending Agent (State Street Bank) with the protection of an indemnity against borrower default provided for by State Street Bank and Trust Company (State Street). Collateral is held in a depositary account that is ring-fenced from the lending agent's Balance Sheet. Mark to markets take place on a daily basis to ensure that the required margin levels are consistently maintained. Whilst State Street provides a borrower indemnity and carefully selects its underlying list of borrowers, an additional level of oversight is provided for by UBS Credit & Risk to structure a bespoke approved borrower list.

Non-cash collateral received by way of the title transfer collateral arrangements in relation to securities lending transactions cannot be sold, re-invested or pledged.

It should be noted that securities lending is subject to a certain risk where the borrower does not return the borrowed securities according to their obligation, and where the value of the collateral provided does not cover the costs of repurchase of the securities. In such cases, State Street, under the terms of the borrower default indemnity, shall cover the cost of purchasing the replacement securities, subject to certain conditions.

Effective 1 October 2024, at least 80% of the gross revenue received in the context of securities lending transactions is credited to the relevant Fund while the Securities Lending Agent approximately receives 20% to cover operational costs resulting from the transactions carried out in relation to the securities lending.

Until 30 September 2024, at least 60% of the gross revenue received in the context of securities lending transactions is credited to the relevant Fund while UBS Asset Management Switzerland AG receives approximately 20% of the gross revenues to cover the due diligence and 20% of the gross revenues are paid to the Securities Lending Agent as normal compensation for its services in the context of such efficient portfolio management techniques.

UBS Asset Management Switzerland AG receives approximately 20% of the gross revenues to cover for services performed by UBS Asset Management Switzerland AG and the Securities Lending Agent approximately 20% to cover operational costs resulting from the transactions carried out in relation to the securities lending. The services include due diligence on the borrowers (careful borrower selection and monitoring), website disclosure of daily adjusted lending data like daily publication of collateral assets, disclosure in the financial statements. In terms of collateral liquidity checks are performed and collateralization level are monitored.

All amounts in this note are stated in USD, including amounts for those Funds with a functional currency other than USD.

Note 9 Operating segments

The Investment Managers make the strategic resource allocations on behalf of the Funds. The Investment Managers are responsible for each Fund's entire portfolio and consider each Fund to be a single operating segment.

The Investment Managers' asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index of each Fund, and each Fund's performance is evaluated by reference to the relevant Reference Index.

The Funds have no assets classified as non-current assets. Each Fund's investments expose it to the performance of the relevant Reference Index.

The Funds have highly diversified portfolios of investments, and no single investment accounts for a significant portion of the Company's income.

Products and services
All of the Company's revenues are derived from one product grouping, namely the portfolio securities invested in by the Funds in order to track the performance of their respective indices.

Geographical areas
The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major customers
As the Company is an investment company, its distinct major customers are the Authorised Participants who make the primary market for the Funds' shares. The Company permits subscriptions and redemptions solely with Authorised Participants. Investors (whether or not the ultimate beneficial owner or end-investor) may purchase and sell shares in the ETFs on exchanges or from the Authorised Participants - however, the Company does not regard such investors or related end-investors as its direct customers.

Note 10 Fair Value Hierarchy

IFRS 13 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels as defined under IFRS 13.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).
Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), IFRS 13, requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the financial period split between those recognised in the Condensed Statement of Comprehensive Income, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The Level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The majority of the Company's financial assets and liabilities measured at fair value at 30 June 2026 and 31 December 2025 were classified within Level 1 as they are active listed equities and futures contracts, apart from forward foreign currency exchange contracts which are classified within Level 2.

Level 1 is deemed to be the most appropriate categorisation for Net Assets Attributable to Redeemable Participating Shareholders.

The following tables analyse the fair value hierarchy of the Funds' financial assets and financial liabilities measured at fair value.

Investments, whose values are based on quoted market prices in active markets are classified within Level 1, including active listed equities. The Company does not adjust the quoted price for these instruments. The futures contracts held by the Funds as noted on the Funds Schedule of Investments as at 30 June 2026 and 31 December 2025, are classified within Level 1.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions,valuations may be adjusted to reflect illiquidity and/or nontransferrability, which are generally based on available market information. Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred. The transfer is primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. No Level 3 reconciliation and no sensitivity analysis assumptions used in determining the fair value have been included for these positions as they have been separately identified on the Schedule of Investments and are immaterial to the Company at the financial period ended 30 June 2026 and the financial year ended 31 December 2025.

During the financial period ended 30 June 2026, the following transfers of securities between levels took place:

- Level 1 to Level 2: two securities, GoTo Gojek Tokopedia Tbk. PT (held on UBS MSCI ACWI Universal UCITS ETF and UBS MSCI EM Climate Paris Aligned UCITS ETF) and Piotech, Inc. (held on UBS MSCI AC Asia ex Japan Selection UCITS ETF) were classified as Level 2. GoTo Gojek Tokopedia Tbk. PT security price is stall. Piotech, Inc. security trade was suspended and priced at last available date prior to trade halt.

- Level 2 to Level 1: one security, Advanced Micro-Fabrication Equipment, Inc. China, held on UBS MSCI ACWI Climate Paris Aligned UCITS ETF and UBS MSCI AC Asia ex Japan Selection UCITS ETF was classified as Level 1 as the security resumed trading on 5 January 2026.

- Level 1 to Level 3: one security, JR Global Reit, held on UBS FTSE EPRA Nareit Developed Green UCITS ETF was classified as Level 3 as it is contingent value right.

During the financial year ended 31 December 2025, the following transfers of securities between levels took place:

- Level 2 to Level 3: one security, ESC GCI Liberty, Inc., held on MSCI USA Select Factor Mix UCITS ETF were classified as Level 3. ESC GCI Liberty, Inc. was valued based on the last market price of the underlying security prior to trading halt.

- Level 2 to Level 1: one security, Shanghai RAAS Blood Products Co. Ltd., held on MSCI EM Climate Paris Aligned UCITS ETF was classified as Level 1 as it is actively listed. Shanghai RAAS Blood Products Co. Ltd resumed trading on January 2025.

- Level 1 to Level 2: one security, Advanced Micro-Fabrication Equipment, Inc. China, held on MSCI AC Asia ex Japan Selection UCITS ETF due to trading halt prior to year end. The security resumed trading on 5 January 2026.

- Level 1 to Level 3: one security, Corporate Travel Management Ltd., held on MSCI World Small Cap Socially Responsible UCITS ETF and MSCI Pacific ex Japan IMI Socially Responsible UCITS ETF was classified as Level 3. Corporate Travel Management Ltd was valued based on the last market price prior to trading halt.

Appendix 1

Securities Financing Transactions Regulations

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions ("SFTR") requires reporting and disclosures for securities financing transactions ("SFTs") and total return swaps. SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement
- securities or commodities lending/borrowing
- a buy-sellback or sale-buyback transaction
- a margin lending transaction

During the financial period under review, certain Funds were engaged in the Company's security lending programme, as noted in Note 6 to the financial statements. This Appendix contains the relevant SFTR reporting and disclosure requirements in respect of the securities on loan, as of 30 June 2026, on these Funds as detailed below and the relevant pages overleaf.

The following table details the value of securities on loan as a proportion of the Fund's Net Asset Value, as at 30 June 2026.
