What is this product?

Type

The product is a UCITS sub-fund of an open-ended investment company with variable capital under the laws of Ireland. The fund is a UCITS ETF.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The 1C share class of Xtrackers S&P 500 Swap II UCITS ETF was launched in 2025.

Objectives

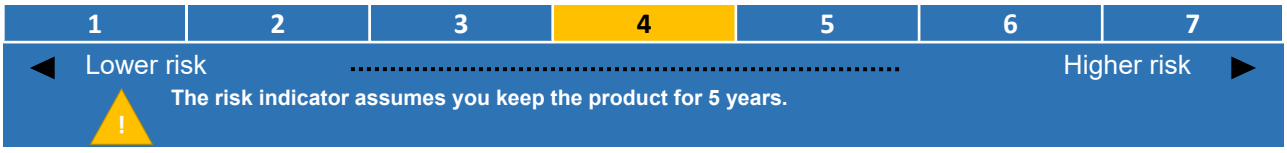

The fund is passively managed. INVESTMENT OBJECTIVE: The aim is for your investment to track the performance, before fees and expenses, of the S&P 500 Index (index) which is designed to reflect the performance of shares of 500 companies representing all major US industries. DESCRIPTION OF INDEX: The index contains shares of large companies traded on certain eligible US exchanges. A company's weighting in the index depends on its relative size based on the combined value of a company's readily available shares as compared to other companies on the stock markets. INDEX REBALANCING, CALCULATION AND ADMINISTRATION: The index is administered by Standard & Poor's. The index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is reviewed and rebalanced on a quarterly basis, and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions. INVESTMENT POLICY: To achieve the aim, the fund will invest in transferable securities and enter into financial contracts (derivatives) with one or more counterparties relating to the transferable securities and the net or gross total return version of the index (swap index), in order to obtain the return on the swap index. The gross total return version of the index calculates the performance of the stocks assuming that all dividends and distributions are reinvested on a gross basis. The swap index shall be selected in the absolute discretion of the Investment Manager. FURTHER INFORMATION: Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of Xtrackers (IE) plc for which the sales prospectus and the periodic reports are prepared as a whole in addition to individual supplements per sub-fund. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the supplement for further details. You are not permitted to exchange your shares in this fund for other funds of Xtrackers (IE) plc. The depositary is State Street Custodial Services (Ireland) Limited, Ireland. More detailed information of this fund, such as the sales prospectus and supplement as well as the latest annual and semi-annual report, can be obtained free of charge online at www.etf.dws.com. These documents are available in English or German. The documents as well as other information (including the latest share prices) are available free of charge.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Derivatives risk, Concentration risk, Conflicts of interest risk, Counterparty risk, Shares risk, Rules based index risk, Region Concentration risk. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus and supplement. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: **Example Investment:**		5 years 10.000 USD	
		If you exit after 1 year	**If you exit after 5 years**
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Custodial Services (Ireland) Limited, Ireland securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 USD is invested.

	If you exit after 1 year	**If you exit after 5 years**
Total costs	4 USD	29 USD
Annual cost impact (*)	0.0 %	0.0 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.6% before costs and 14.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years. The product has no minimum holding period.

This product has no required minimum holding period. The recommended holding period has been selected due to its investment strategy and because it is designed for a medium term investment horizon. It is expected that it will be possible to achieve the investment objective of the fund within this time frame. You may request the redemption of shares generally on each valuation date. No fees or penalties will be charged by the company for any such transaction.

There is no change on the risk return profile when you redeem your shares early.
