

### Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Xtrackers MSCI Global SDG 7 Affordable and Clean Energy UCITS ETF

**Share class: 1C, ISIN: IE000JZYIUN0, Security code: DBX0SP, Currency: USD**

a sub-fund of Xtrackers (IE) PLC. The management company is DWS Investment S.A., a member of the DWS Group.

### Objectives and investment policy

The fund is passively managed. The aim is for your investment to track the performance of the MSCI ACWI IMI SDG 7 Affordable and Clean Energy Select Index (index). The index is based on the MSCI ACWI IMI Index (Parent Index) and is designed to reflect the performance of the shares of large, medium, and small-capitalisation companies globally that are associated with a positive contribution to the United Nations Sustainable Development Goal 7 (Ensure access to affordable, reliable, sustainable and modern energy for all) (SDG 7). In order to be eligible for inclusion in the index, companies must be eligible for inclusion in the Parent Index and must pass the ESG screening criteria and either the SDG impact selection criteria or the SDG thematic selection criteria. The ESG screening criteria excludes companies from the Parent Index, which: (i) are unrated by MSCI ESG Research; (ii) are assigned an MSCI ESG Rating of B and below; (iii) have any tie to controversial weapons; (iv) are classified by MSCI in their Business Involvement Screening Research as breaching certain thresholds in controversial activities, including, but not limited to, tobacco, conventional weapons, nuclear weapons, civilian firearms, thermal coal, adult entertainment, alcohol, gambling, nuclear power, fossil fuel reserves ownership, and oil sands and unconventional oil & gas extraction; (v) fail to comply with the United Nations Global Compact principles; (vi) have an MSCI ESG Controversies score of 0 or those with very severe controversies, or have an insufficient MSCI ESG Controversies Score related to certain environmental controversies; and/or (vii) are assessed by MSCI Impact Solutions' SDG Alignment as 'Misaligned' or 'Strongly Misaligned' on their net alignment to any of the 17 SDGs. The SDG impact selection criteria identifies companies that contribute positively to SDG 7. Securities must meet a certain revenue threshold from associated business activities to be eligible for inclusion. The SDG thematic selection criteria calculates a relevance score for potential constituents by

assessing companies' exposure to the clean energy theme. Securities must meet a certain relevance score threshold to be eligible for inclusion. Securities are weighted by the product of their free float-adjusted market capitalisation and either their percentage revenue exposure from SDG 7 aligned business activities (if meeting the SDG impact selection criteria) or their relevance score (if meeting the SDG thematic selection criteria) and are then scaled to 75% and 25% respectively. The index includes an issuer capping component, limiting the weight of each issuer to 4.5% at each quarterly rebalance. The index is administered by MSCI Limited. The index is calculated on a total return net basis, which means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is reviewed semi-annually and rebalanced at least quarterly. The index is calculated in USD on a daily basis. To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. The fund is exposed to less economically developed economies (known as emerging markets) which involve greater risks than well developed economies. The fund is exposed to liquidity, operational, clearing, settlement, market suspension and custody risks linked to

investments in the People's Republic of China ("PRC") and Stock Connect. The fund may suffer difficulties or delays in enforcing its rights in A-shares given the securities regimes in the PRC and Hong Kong are different. The fund and the depositary cannot ensure that the fund's ownership of the securities in the PRC or title thereto is assured in all circumstances. The Board of Directors intends to make relevant provision on dividend and interest from A-shares if the tax on dividends is not withheld at source at the time when such income is received. Any such provision may be excessive or inadequate. Investors may be advantaged or disadvantaged depending on the time they subscribed and/or redeemed their shares. The ESG screening and selection criteria are embedded within the index selection process, which seeks to exclude securities issued by companies involved in certain activities and identify companies which positively contribute to SDG 7. The investment manager and sub-portfolio manager are not responsible for monitoring the screening process or confirming that all securities which pass the screening or identification process are issued by companies with adequate ESG standards or SDG alignment. The company is solely relying on the activities conducted by and information provided by the administrator of the index and MSCI ESG Research LLC for the ESG screening and identification. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there is a risk that the index administrator may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the index. The fund may use derivatives for investment purposes and to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investments.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	None
<b>Exit charge</b>	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
<b>Ongoing charges</b>	0.35 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges shown here are a cost estimate. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

## Past performance

There is not yet sufficient data available to provide you with useful information regarding earlier performance.

The 1C share class of Xtrackers MSCI Global SDG 7 Affordable and Clean Energy UCITS ETF was launched in 2023.

## Practical information

The depositary is State Street Custodial Services (Ireland) Limited, Ireland. Copies of the prospectus and the periodic reports are available free of charge in the language of this document. The documents as well as other information (including the latest share prices as well as the indicative net asset values) are available free of charge. The documents are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Information on the current remuneration policy of the management company, including a description of how remuneration and benefits are calculated is published on the Internet at <https://www.dws.com/footer/Legal-Resources/dws-remuneration-policy?setLanguage=en>. The information will be sent to you in paper form free of charge upon request. Taxation regimes applicable to the fund in your jurisdiction may affect your personal tax situation. Prospective investors should inform themselves of, and where appropriate take advice on such taxation regimes. Xtrackers (IE) plc may be held liable solely on the basis of any

statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the sales prospectus. This fund is a sub-fund of Xtrackers (IE) PLC for which the sales prospectus and the periodic reports are prepared as a whole in addition to individual supplements per sub-fund. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the supplement for further details. You are not permitted to exchange your shares in this fund for other funds of Xtrackers (IE) plc. This fund is authorised in Ireland and is regulated by the Central Bank of Ireland. DWS Investment S.A. is authorised in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier.
