Invesco S&P China A 300 Swap UCITS ETF (the "Fund")
A sub-fund of Invesco Markets plc (the "Umbrella Fund")
Acc (ISIN: IE000K9Z3SF5) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is a passively managed Exchange-Traded Fund (ETF), which aims to achieve the net total return performance of the S&P China A 300 Index (the "**Index**")[1], less fees, expenses and transaction costs.
- To achieve the objective the Fund will use unfunded swaps ("**Swaps** "). These Swaps are an agreement between the Fund and an approved counterparty to exchange one stream of cash flows against another stream but do not require the Fund to provide collateral, on the basis that the Fund has already invested in a basket of equities and equity related securities (namely shares). Please note that the Fund will purchase securities that are not contained in the Index. The performance of the Index is swapped from the counterparty to the Fund in exchange for the performance of equities and equity related securities held by the Fund.
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is USD.
- **Dividend Policy:**This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:**This is calculated daily and the Fund is open for subscriptions and redemptions on each day the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index is designed to measure the performance of the 300 largest and most liquid stocks, as measured by total market capitalisation, in the China A-Shares market while representing the sector balance of the broad market, subject to liquidity and Earnings per Share ("EPS") screens. The eligible universe is defined as all of the constituents of the S&P China A Domestic BMI Index (the "Parent Index") 1) excluding any stocks designated as "Special Treatment" stocks by the Shanghai or Shenzhen Stock Exchanges, which means that the stocks are at risk of delisting due to a distressed financial status or not satisfying regulatory requirements; 2) excluding any stocks with negative EPS for the two previous 12-month periods; and 3) including stocks ranked in the top 70% of the Parent Index by a six-month median daily value traded or the top 75% of a six-month median daily value traded for current constituents of the Index. Eligible stocks are then ranked by total market capitalisation in descending order and the top 300 stocks are selected for inclusion in the Index. The Index is rebalanced semi-annually.

Risk and Reward Profile

Lower Risk — Higher Risk

Typically lower rewards — Typically higher rewards

1	2	3	4	5	**6**	7

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk**: The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Concentration risk**: The Fund might be concentrated in a specific region or sector or be exposed to a limited number of positions, which might result in greater fluctuations in the value of the Fund than for a fund that is more diversified.
- **Currency risk**: The Fund's performance may be adversely affected by variations in the exchange rates between the base currency of the Fund and the currencies to which the Fund is exposed.
- **Emerging market risk:** Emerging markets are generally more sensitive to economic and political conditions and less liquid than developed markets.
- **Equity Risk**: The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer and general and regional economic and market conditions. This may result in fluctuations in the value of the Fund.
- **Risk of using Derivatives**: The Fund's ability to track the benchmark's performance is reliant on the counterparties to continuously deliver the performance of the benchmark in line with the swap agreements and would also be affected by any spread between the pricing of the swaps and the pricing of the benchmark. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- **Synthetic ETF Risk**: The fund might purchase securities that are not contained in the index and will enter into swap agreements to exchange the performance of those securities for the performance of the index.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to the Prospectus on the Documents section on the product page).

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None*
Exit charge	None*
Charges taken from the Share Class over a year	
Ongoing charge	0.35%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- *Currently, the Fund is not exercising its entitlement to apply entry and exit charges.
- The **ongoing charge** is based on the fee paid to the Manager. The Manager is responsible for discharging from its fee, costs attributable to the Investment Manager, Administrator, Depositary as well as the Operational Expenses incurred by the Fund. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- Because the Fund is an ETF, investors will typically only be able to buy or sell shares in the secondary market. Accordingly, investors may incur brokerage and / or transaction fees in connection with their dealings. Investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold. You should discuss these fees and costs with your broker before you invest, as they may reduce the amount of your initial investment and the amount you receive on disposal.
- For more information on charges, please see the relevant charges section in the Fund supplement under "General Information Relating to the Fund", which is available at etf.invesco.com (select your country and navigate to the Documents section on the product page.)
