Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global X Responsible Gold Miners UCITS ETF (the "Fund"), A sub-fund of Global X ETFs ICAV (the "ICAV")

USD Accumulating Share Class, IE000O8MVTJ6

The Fund is managed by Global X Management Company (Europe) Limited (the "Manager").

Objectives and Investment Policy

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the MerQube Responsible Gold Miners Index (the "Index").

The Fund is passively managed. The Fund will aim to achieve its investment objective by attempting to replicate the composition of the Index by investing primarily in a portfolio of equity securities that as far as possible and practicable consists of the component securities of the Index in similar proportions to their weightings in the Index and in American depositary receipts ("**ADRs**") and global depositary receipts ("**GDRs**") based on the securities in the Index.

The Fund is an ESG Fund, classified as an Article 8 fund pursuant to SFDR, and promotes environmental, social and governance characteristics by focusing on investments in Responsible Mining Companies (as defined below) through replicating the Index.

The Index is designed to track the performance of companies that earn a minimum of 50% of their revenue in the provision of mining gold. "Responsible Mining Companies" are considered to be mining companies that operate practices relating to the provision of mining gold that pass a number of environmental, social and governance screens, including Carbon, Water usage and Waste generation intensity. In addition, the Index also assesses companies' revenue and operations alignments to certain UN Sustainable Development Goals ("**SDG**") relating to Clean Water and Sanitation, Responsible Consumption and Production, Climate Action, Life Below Water and Life on Land. Please refer to the Pre-contractual disclosure for further information on the Sustainability characteristics of the fund.

Where it is not possible or practicable for the Fund to invest directly in or to continue to hold all of the component securities of the Index, the Fund may invest in depositary receipts relating either to components securities of the Index or to equity securities of the type referred to above; and financial derivative instruments ("**FDIs**"), namely, total return "unfunded" OTC swaps and exchange-traded equity futures for investment purposes.

The Fund may enter into securities lending transactions, investing in repurchase and reverse repurchase transactions and collective investment schemes, for the purposes of efficient portfolio management only.

The Fund's base currency is USD.

For Accumulating Shares, income will be automatically reinvested in the Fund and reflected in the NAV per share.

Investors can buy and sell shares of the Fund on each business day. Business day means a day on which the New York Stock Exchange and London Stock Exchange are open for normal business.

For more information about the investment policy and strategy of the Fund, please refer to the sections entitled "Investment Objective" and "Investment Policy" in the Fund's Supplement.

Risk and Reward Profile

Lower Risk ⟷ Higher Risk

Typically lower rewards — Typically higher rewards

1	2	3	4	5	6	**7**

This indicator above is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment.

This Fund is in risk category 7 due to the range and frequency of price movements (i.e. the volatility) of the underlying investments referenced by the Fund which may not be a reliable indicator of the future risk profile of the share class.

The Fund offers no capital guarantee or protection.

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator. Key risk factors include:

Commodity Exposure Risk: The Fund invests in companies engaged in the gold mining industry, which may be susceptible to fluctuations in the underlying commodities market. Commodity prices may be influenced or characterised by unpredictable factors, including, where applicable, high volatility, changes in supply and demand relationships, weather, agriculture, trade, changes in interest rates and monetary and other governmental policies, action and inaction. Securities of companies held by the Fund that are dependent on a single commodity, or are concentrated on a single commodity sector, may typically exhibit even higher volatility attributable to commodity prices.

Commodity Price Relationship Risk: The Index measures the performance of companies involved in the gold mining industry and not the performance of the price of gold bullion itself. The securities of companies involved in the gold mining industry may under- or over-perform the price of gold bullion over the short-term or the long-term.

Currency Risk: Some of the Fund's investments will be denominated in currencies other than the Fund's base currency (USD) therefore investors may be affected by adverse movements of the denominated currency and the base currency. The Fund may attempt to use FDIs to hedge against negative currency movements, however there is no guarantee that any attempts at hedging will be successful. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Equities Risk: The Fund may invest in equity securities which are subject to greater fluctuations than other assets. Factors which may affect the fluctuation including economic conditions, industry or company news. High volumes of trading may also see increased transaction costs.

Concentration Risk: The Fund's investments will be highly concentrated in companies that are involved in the gold mining ecosystems. The lack of diversification across the Fund's portfolio may increase the losses suffered by the Fund if exposure to companies that are involved in the gold mining ecosystems as a group were to suffer a downturn.

Operational Risk (including safekeeping of assets): The Fund and its assets may experience material losses as a result of technology/system failures, human error, policy breaches, and/or incorrect valuation of units. Social, political and economic developments and laws differ between regions.

Derivatives Risk: The Fund may invest in FDIs to hedge against risk and/or to increase return. There is no guarantee that the Fund's use of derivatives for either purpose will be successful. Derivatives are subject to counterparty risk (including potential loss of instruments) and are highly sensitive to underlying price movements, interest rates and market volatility and therefore come with a greater risk.

Risks associated with the ability to track an index: Transaction costs and other fees and expenses to be borne by the Fund and exchange rate factors where the underlying equities are denominated in a different currency to the Base Currency or currency of any Class of Shares are likely to affect the ability of a Fund to track the performance of the Index.

Liquidity Risk: The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

For more information on risks, please see the sections entitled "Risk Factors" in the ICAV's prospectus and in the Fund's supplement to the ICAV's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None *
Exit Charge	None *

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year:	
Ongoing Charges	0.55% **
Charges taken from the fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is based on the total expense ratio of the Fund that the Investment Manager has agreed to cap. The Manager gives a commitment to respect the published figure shown and to discharge any excess amounts out of its own assets for all other fees and expenses over this cap which may arise.

The ongoing charge figure excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

* Secondary market investors (Investors dealing on a stock exchange) may pay fees charged by their stock brokers. Such charges, if any, can be obtained from stock brokers. Authorised participants dealing directly with the Fund will pay related transaction costs related to their subscriptions and redemptions.

** To the extent the Fund undertakes securities lending, the Fund will receive 87% of the associated revenue generated from securities lending activities and the remaining 13% will be retained by the securities lending agent (representing the attendant direct and indirect operational costs and fees of the securities lending). As securities lending does not increase the costs of running the fund, this has been excluded from the ongoing charges.

Please refer to the "Fees, Costs and Expenses" section of the ICAV's Prospectus and "Fees and Expenses" section of the Supplement to the Prospectus for further detail on charges and fees for the relevant share classes.

Past Performance

There is insufficient data to produce a useful indication of past performance for the share class.

Past performance is not an indicator of future results.

The past performance takes account of all charges and costs.

The performance of this class is calculated in US Dollar.

The Fund is yet to launch.

This class is yet to launch.

Practical Information

Depositary Bank: SEI Investments – Depositary and Custodial Services (Ireland) Limited

Further Information: Further information about the ICAV, copies of the Prospectus and Fund Supplement, latest annual, semi-annual reports and other practical information may be obtained free of charge from https://www.globalxetfs.eu and at the registered office of the ICAV.

Latest Share Prices/Net Asset Value: The latest share prices will be made available on https://www.globalxetfs.eu or by contacting the Administrator, SEI Investments – Global Fund Services Limited.

Remuneration Policy: Details of the remuneration policy of the Manager are available on the Manager's website, https://www.globalxetfs.eu. A paper copy will be available free of charge from the office of the Manager upon request.

Conversion of Shares: A Shareholder may convert shares of one fund into shares of another fund or shares of a class within a fund into shares of a different class within the same fund, switching fees may apply. Notice should be given to the Directors in such form as the Directors may require. Please refer to the Prospectus for the ICAV for further details on how to exercise your right to switch.

Tax Legislation: The taxation of income and capital gains of the ICAV and of the Shareholders is subject to the fiscal laws and practices of Ireland, of the countries in which the ICAV invests and of the jurisdictions in which the Shareholders are resident for tax purposes or otherwise subject to tax. Depending on your country of residence, this may impact your personal tax position. For further details, please speak to your financial adviser.

Accuracy Statement: The Manager may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the ICAV's Prospectus.

Umbrella Fund: The Fund is a sub-fund of Global X ETFs ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between sub-funds.

Segregated Liability: Under Irish law the assets and liabilities of the Fund are segregated from other sub-funds within the ICAV and the assets of the Fund will not be available to satisfy the liabilities of another fund of the ICAV.

This Fund is authorised in Ireland and regulated by Central Bank of Ireland. The Manager is authorised in Ireland and regulated by the Central Bank of Ireland.
