Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF (the "Fund")
A sub-fund of Invesco Markets II plc (the "Umbrella Fund")
Acc (ISIN: IE000PJL7R74) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is a passively-managed Exchange-Traded Fund (ETF), which aims to achieve the net total return performance of the MSCI Emerging Markets ESG Climate Paris Aligned Benchmark Select Index (the "**Index**")[1], less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.
- To achieve the investment objective, the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to country weights, industry sectors, and liquidity. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund is an Article 8 Fund (it promotes environmental and/or social characteristics) for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector ("**SFDR**").
- The Fund's base currency is USD.
- **Dividend Policy:** This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index tracks the performance of large and mid-capitalisation companies across 26 emerging markets countries and aims to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Index also provides exposure to companies with high ESG metrics and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark as set out in the Commission Delegated Regulation (EU) 2020/1818.The Index is constructed from the MSCI Emerging Markets Index (the "**Parent Index**") by applying the index provider's exclusionary criteria. The remaining constituents are then subject to an optimisation which has the aim of aligning the Index to the objectives of the Paris Agreement by reducing the weighting of companies exposed to climate transition risks, maximising the weighting of companies with the highest exposure to climate transition opportunities and minimising the ex-ante tracking error relative to the Parent Index. The remaining constituents are also subject to a set of diversification and turnover constraints. The Index rebalances on a semi-annual basis.
