iShares Essential Metals Producers UCITS
ETF

A sub-fund of iShares IV plc

USD (Acc) Share Class

ISIN: IE000ROSD5J6 Exchange Traded Fund (ETF)
Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of the Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the S&P Global Essential Metals Producers Index, the Fund's benchmark index ("Index").
- ▶ The Share Class, via the Fund, is passively managed and aims to invest so far as possible and practicable in the equity securities that make up the Index.
- ▶ The Index aims to reflect the performance of a subset of equity securities of eligible developed and emerging market countries with involvement in the production of metals that are required for the global energy sector's transition from fossil-based systems of energy production and consumption to renewable energy sources. The Benchmark Index is comprised of issuers from the S&P Global BMI Index.
- ▶ Companies included in the Index must (i) have a 6-month median daily traded volume (MDTV) of at least US\$3 million (US\$2 million for existing constituents); (ii) have a free-float market capitalisation greater than or equal to USD \$100 million; (iii) have a total market capitalisation greater than or equal to USD \$300 million; (iv) be domiciled in an eligible country, as determined by the index provider.
- ▶ As part of the index methodology, companies that meet the eligibility criteria above are considered for inclusion in the Benchmark Index if they are determined by the index provider to have a sufficiently significant revenue exposure, per the index methodology, to transition metal related business based on Revere Business Industry Classification System (RBICS) categories.. These categories are grouped into 3 classifications: core metal categories (including copper and lithium), non-core metal categories (including zinc and silver) and diversified metal categories. The revenue exposure for each company is calculated using the aggregate revenues generated from core metal categories, plus the aggregate revenues generated from non-core and diversified metal categories multiplied by a revenue adjustment factor. The revenue adjustment factor aims to reduce exposure to companies identified in non-core metal categories and diversified metal categories.
- ▶ The Fund intends to replicate the Index by holding the equity securities which make up the Index, in similar proportions to it.
- ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objectives. FDIs (including FX contracts) may be used for direct investment purposes. The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated seven due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
- Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Practical Information

- ▶ The depositary of the Fund is State Street Custodial Services (Ireland) Limited.
- ▶ Further information about the Fund and the Share Class can be obtained from the latest annual report and half-yearly reports of iShares IV plc. These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as details of the key underlying investments of the Share Class and share prices, on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser.
- ▶ Investors should note that the tax legislation that applies to the Fund and Share Class may have an impact on the personal tax position of your investment.
- ▶ The Fund is a sub-fund of iShares IV plc, an umbrella structure comprising different sub-funds. The Fund has one or more share classes. This document is specific to the Fund and Share Class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ iShares IV plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The indicative intra-day net asset value of the Share Class is published on relevant stock exchanges websites.
- ▶ Under Irish law, iShares IV plc has segregated liability between its sub-funds (i.e. the Fund’s assets will not be used to discharge the liabilities of other sub-funds within iShares IV plc). In addition, the Fund's assets are held separately from the assets of other sub-funds. Assets and liabilities specific to a share class would be attributable to only that share class, however there is no segregation of liabilities between share classes under Irish law.
- ▶ Switching of shares between the Fund and other sub-funds within iShares IV plc is not available to investors. Only Authorised Participants dealing directly with the Fund may switch shares between share classes of the Fund subject to meeting certain conditions in the Fund's prospectus.
