Publication Date: 30-04-2026

What is this product?

Type

Shares of a sub-fund of Fidelity UCITS ICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

SFDR Article 9 (has sustainable investment objectives) - ESG Target.

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity UCITS ICAV may terminate the fund by way of liquidation or merger.

Objectives

Investment objective The investment objective of the Sub-Fund is to align with the Paris Agreement long-term global warming objectives by restricting the carbon emission exposure of its portfolio and to achieve long-term capital growth.

Investment policy The Sub-Fund aims to achieve its investment objective by actively investing in a portfolio primarily made up of equity securities of companies domiciled, or exercising the predominant part of their economic activity, globally. The reduction of carbon emission objective of the Sub-Fund will be aligned with the Solactive ISS ESG Screened Paris Aligned Developed Markets USD Index NTR (the "Benchmark"), as described below.

Investment approach The fund is actively managed and references the Solactive ISS ESG Screened Paris Aligned Developed Markets USD Index NTR (the "Benchmark") as part of its investment process. The fund aims to achieve long-term capital growth while contributing to environmental objectives. The investment manager uses a combination of quantitative and fundamental research (as described below) to select securities that are: (a) weighted with a view to maximising portfolio return relative to the Benchmark; (b) at least aligned with the carbon emission performance of the Benchmark; and (c) sustainable investments in accordance with the SFDR. The fund invests in companies that contribute to an environmental objective, do no significant harm, meet minimum safeguards, and follow good governance practices. At least 90% of the fund's assets are assessed for ESG characteristics. The portfolio is systematically tilted towards securities with higher ESG ratings and excludes companies with significant negative ESG profiles. The fund may also invest in securities not included in the Benchmark in specific cases, such as during index transitions or for liquidity management. Currency hedged share classes are available and use forward foreign exchange contracts in accordance with the relevant section of the Prospectus. For more information, see the "Sustainable Investing and ESG Integration" and Sustainability Annex sections of the Prospectus.

Benchmark Solactive ISS ESG Screened Paris Aligned Developed Markets USD Index NTR, an index that takes into account ESG characteristics. Used for: alignment of the fund's carbon emission reduction objective. The Benchmark tracks the performance of large and mid-cap equity securities publicly issued globally while aiming to align with the Paris Agreement's climate targets. It is classified as an EU Paris-Aligned Benchmark (EU PAB), with an initial carbon intensity at least 50% lower than a non-ESG market index and a year-on-year decarbonisation target of at least 7%. The Benchmark excludes issuers involved in controversial activities (e.g. tobacco, fossil fuels, controversial weapons), those in breach of international norms (e.g. UN Global Compact), or those with a significant negative impact on sustainable development goals. Issuers with poor governance practices are also excluded. Further details regarding the Benchmark are available on the index provider's website at www.solactive.com/indices.

Distribution policy As this is a non-distributing share class, dividends are re-invested.

Base Currency USD

Further information You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day. This key information document describes a sub-fund of Fidelity UCITS ICAV. A separate pool of assets is invested and maintained for each sub-fund of Fidelity UCITS ICAV. The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from the Management Company. These documents and details of the Remuneration Policy are available via www.fidelityinternational.com. The Net Asset Value of the fund is available at the registered office of the Management Company, and at www.fidelityinternational.com. Information regarding portfolio holdings and the indicative net asset value is available at www.fidelityinternational.com.

Depositary Brown Brothers Harriman Trustee Services (Ireland) Limited.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds, who plan to hold their investment for a recommended holding period of at least 3 years , who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all the capital invested

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 Years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks: liquidity.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between (03/2017 - 03/2020).

Moderate scenario: This type of scenario occurred for an investment between (07/2020 - 07/2023).

Favourable scenario: This type of scenario occurred for an investment between (12/2018 - 12/2021).

Recommended holding period Example Investment			3 years USD 10 000
Scenarios		If you exit after 1 Year	If you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	**What you might get back after costs** Average return each year	**4 220 USD** -57.8 %	**4 760 USD** -21.9 %
Unfavourable	**What you might get back after costs** Average return each year	**7 660 USD** -23.4 %	**10 880 USD** 2.9 %
Moderate	**What you might get back after costs** Average return each year	**11 440 USD** 14.4 %	**13 280 USD** 9.9 %
Favourable	**What you might get back after costs** Average return each year	**15 560 USD** 55.6 %	**18 510 USD** 22.8 %

What happens if the Management Company is unable to pay out?

The assets and liabilities of this product are segregated from those of the Management Company. There is no cross- liability between these entities, and the product would not be liable if the Management Company or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- USD 10 000 is invested.

Example Investment 10 000 USD		
Scenarios	If you exit after 1 Year	If you exit after 3 years (recommended holding period)
Total Costs	31 USD	113 USD
Annual Cost impact (*)	0.3%	0.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.3 % before costs and 9.9 % after costs.
Authorised participants dealing directly with the fund may pay an entry charge up to 5% and an exit charge up to 3%. Although not charged directly to investors who are not authorised participants, these charges may have an impact on brokerage fees, transaction fees and/or the "bid-ask" spread.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the amount you pay in when entering this investment.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.3% of the value of your investment per year. This is an estimate based on actual costs over the last year.	25 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	6 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

Authorised participants dealing directly with the fund may pay an entry charge up to 5% and an exit charge up to 3%. Although not charged directly to investors who are not authorised participants, these charges may have an impact on brokerage fees, transaction fees and/or the "bid-ask" spread.

How long should I hold it and can I take money out early?

Recommended holding period: 3 Years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Processing: The shares are listed and traded on various stock exchanges. Investors who are not authorised participants can generally only buy or sell the shares on those stock exchanges at the then prevailing market price. In normal circumstances, authorised participants may buy and sell shares directly with the Fund, by submitting orders by 5:00 PM CET (4:00 PM Irish time) on the Business Day that is prior to the relevant Dealing Day. Such orders are ordinarily processed at the NAV for that Dealing Day.

How can I complain?

If you wish to make a complaint about this product or the conduct of the Management Company please visit www.fidelityinternational.com. Alternatively, write to The Management Company at George's Quay House, 43 Townsend Street, Dublin 2, Ireland or email fidelity.ce.crm@fil.com. If you have a complaint about the person who advised you about this product, or who sold it to you please contact them for their complaints process.
