The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising the manufacturer, JPMorgan Asset Management (Europe) S.à.r.l., (a member of JPMorgan Chase & Co.) in relation to this Key Information Document.

The Sub-Fund is authorised in Ireland and regulated by the Central Bank of Ireland ("CBI").

THIS DOCUMENT WAS PRODUCED ON 15 JANUARY 2024

What is this product?

Type

This product is a UCITS exchange traded fund or "UCITS ETF". It is a sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between its sub-funds and authorised by the CBI pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Objectives, Process and Policies

Objective The Sub-Fund aims to achieve a long-term return in excess of Russell 1000 Growth Index (Net Total Return of 30% dividend withholding tax) ("the Benchmark") by actively investing primarily in a growth style-biased portfolio of US Companies.

Share Class Benchmark Russell 1000 Growth Index (Net Total Return of 30% dividend withholding tax)

Investment Policy The Sub-Fund pursues an actively-managed investment strategy.

The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in equity securities issued primarily by companies that are domiciled in, or carrying out the main part of their economic activity in, the US.

The Sub-Fund systematically includes environmental, social and governance ("ESG") analysis in its investment decisions on at least 90% of securities purchased. Pursuant to the Sub-Fund's ESG analysis, at least 51% of the Sub-Fund's assets are invested in companies with positive environmental and/or social characteristics that follow good governance practices, as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

The Sub-Fund invests at least 10% of assets excluding cash, cash equivalents, money market funds and derivatives for efficient portfolio management, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website (www.jpmorganassetmanagement.ie).

The Sub-Fund will seek to outperform the Benchmark over the long-term. The Benchmark consists of large capitalisation stocks issued by U.S. companies ("Benchmark Securities").

The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The degree to which the Sub-Fund may resemble the composition and risk characteristics of the benchmark will vary over time and its performance may be meaningfully different.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of equity securities (which may include but will not be limited to the Benchmark Securities) which is actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term.

In order to seek to achieve this, the Investment Manager will invest in companies which the Investment Manager believes have strong earnings growth potential. A fundamental, bottom-up process that

combines research, valuation and stock selection will be employed to identify companies with underappreciated growth potential that the Investment Manager believes will achieve higher than average earnings growth over the next several years.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

The Sub-Fund seeks to assess the impact of ESG factors on the cash flows of many companies in which it may invest, to identify issuers that it believes will be negatively impacted by such factors relative to other issuers. The Investment Manager focuses on key risk factors, including, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors, seeking to identify such negative outliers. USD is the base currency of the Sub-Fund.

The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on www.jpmorganassetmanagement.lu.

This Share Class seeks to minimise the effect of currency fluctuations between the Reference Currency of the Sub-Fund (USD) and the Reference Currency of this Share Class (EUR).

Redemption and Dealing Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Distribution Policy This Share Class does not pay dividends. Earned income is retained in the Net Asset Value.

SFDR Classification Article 8

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years.

- Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Sub-Fund objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. The Sub-Fund is not intended as a complete investment plan.
- The Sub-Fund is aimed at investors seeking to achieve a long-term return in excess of the Benchmark by actively investing primarily in a portfolio of US companies, with positive environmental and/or social characteristics that follow good governance practices, with an overlay of ESG integration and values and norms-based screening of its investment universe.
- Typical investors in the Sub-Fund are expected to be investors who want to take broad market exposure to the US equity market, who seek to benefit from potential excess returns with similar risks to investing in securities representing the Benchmark and who are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

Term This product does not have a fixed maturity date and may be liquidated in certain circumstances, as further detailed in the Prospectus.

What are the risks and what could I get in return?

Risks

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the relevant supplement, available free of charge at www.jpmorganassetmanagement.lu.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2021 and 2024.

Moderate: this type of scenario occurred for an investment between 2017 and 2022.

Favourable: this type of scenario occurred for an investment between 2016 and 2021.

What happens if JPMorgan Asset Management (Europe) S.à r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à r.l. is responsible for administration and management of the Sub-Fund and does not hold assets of the Sub-Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). JPMorgan Asset Management (Europe) S.à r.l., as

the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 119	€ 1,058
Annual cost impact*	1.2%	1.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.9% before costs and 14.9% after costs.
