Notes to the Financial Statements

1. Material Accounting Policies

A) General Information

Invesco Markets II plc (the "Company") is an open-ended variable capital company with segregated liability between Funds of the Company ("Funds"). The Company was incorporated on 11 September 2015. It is organised under the laws of Republic of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities Regulations 2019 (the "Central Bank UCITS Regulations"). Please see page 8 to 12 for General Information on the Umbrella.

These Financial Statements have been prepared on a going concern basis. The Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") endorsed by the European Union (EU), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertaking for Collective Investment in Transferable Securities (Amendment) Regulation 2019 (the "Central Bank UCITS Regulations"). The Financial Statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss. The material accounting policies are set out below.

The preparation of Financial Statements in accordance with IFRS, as adopted by the EU, requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Financial Statements are disclosed in Notes 1 c) (iii) and 1 d).

International Financial Reporting Standards

The principal accounting policies adopted in the preparation of these Financial Statements are set out below. These policies have been consistently applied to the periods presented unless otherwise stated.

Standards, amendments and interpretations effective 1 January 2025:

There are no new IFRSs, new amendments or IFRIC interpretations that are effective on 1 January 2025 that would be expected to have any impact on the Funds.

Standards, amendments and interpretations not yet effective:

There are no new IFRSs, new amendments or IFRIC interpretations that are not yet effective that would be expected to have any impact on the Funds.

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory for 31 December 2025 reporting periods and have not been early adopted by the Funds. These standards, amendments or interpretations are not expected to have a material impact on the Funds in the current or future reporting periods and on foreseeable future transactions.

B) Functional and presentation currency

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

The Financial Statements of the Company are presented in Euro, which is both the functional and presentation currency.

Each individual Fund's functional currency is disclosed on pages 14 and 15.

Transactions and balances

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value. Net currency gains/(losses) are net foreign exchange gains and losses on monetary financial assets and liabilities other than those classified at fair value through profit or loss.

Assets and liabilities denominated in foreign currencies, other than the functional currency of the Company, have been translated at the rate of exchange ruling at 31 December 2025. Transactions in foreign currencies are translated into Euro at the exchange rate ruling at the date of the transaction. All gains and losses on foreign exchange are recognised in the Statement of Comprehensive Income in net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss in determining the result for the financial period.

C) Financial assets and financial liabilities at fair value through profit or loss

(i) Classification

IFRS 9 sets out three potential categories for financial assets. These are amortised cost, fair value through other comprehensive income, and financial assets at fair value through profit and loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

1. Material Accounting Policies (continued)

C) Financial assets and financial liabilities at fair value through profit or loss (continued)

(i) Classification (continued)

A debt instrument is measured at fair value through comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows from Solely Payments of Principal and Interest ("SPPI") and to sell. All other debt instruments must be recognised at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

Pursuant to IFRS 9, a portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows or held both to collect contractual cash flows and to sell financial assets. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. In addition, a portfolio of financial assets that meets the definition of held for trading is not held to collect contractual cash flows or held both to collect contractual cash flows and to sell financial assets. For such portfolios, the collection of contractual cash flows is only incidental to achieving the business model's objective. Consequently, such portfolios of financial assets must be measured at FVTPL.

The carrying amounts of cash and cash equivalents, accrued interest income from financial assets at fair value through profit or loss, amounts due from/to brokers, accrued management fees and distributions payable is approximate fair value due to the immediate or short term nature of these financial instruments.

The Company's financial assets and liabilities are initially recorded at their transaction price and then measured at fair value subsequent to initial recognition. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

Financial assets other than financial assets at fair value through profit or loss include cash and cash equivalents, balances due from brokers, dividend income receivable, capital shares receivable, interest from financial assets at fair value through profit and loss receivable and accrued income and other receivables.

Financial liabilities that were not at fair value through profit or loss include bank overdraft, balances due to brokers, capital shares payable, variation margin payable, creditors (amounts falling due within one year) and financial liabilities arising on redeemable shares.

All of the Funds' investments are classified as financial assets and financial liabilities at fair value through profit or loss as at 31 December 2025 and 31 December 2024.

(ii) Recognition, derecognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date. Any gains and losses, arising from changes in fair value of the financial assets or financial liabilities, are recorded from this date.

The Company recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument, and all significant rights and access to the benefits from the assets or liabilities, and the exposure to the risks inherent in those benefits, are transferred to the Company. The Company derecognises financial assets and financial liabilities when all such benefits and risks are transferred from the Company. Investment transactions are recorded on a trade date basis. Realised gains and losses are based on the high cost method for all Funds. Dividends and interest arising on the investments are recognised as income of the Company on an ex-dividend or interest date, and interest arising on deposits of the Company, are recognised on an accrual basis and effective interest basis, respectively.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statements of Comprehensive Income with other net changes in fair value of financial assets and liabilities at fair value through profit or loss in the financial period in which they arise.

(iii) Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

Listed investments

The Company utilises the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

Realised gains or losses on disposal of investments during the financial year and unrealised gains and losses on valuation of investments held at the financial year-end are included in the Statement of Comprehensive Income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

The fixed income securities on all Funds were priced at Evaluated Bid (with the exception of the Invesco Variable Rate Preferred Shares UCITS ETF and Invesco US Municipal Bond UCITS ETF which were priced at Evaluated Mid during the financial reporting period and bonds classified as "Other transferable" in the Schedule of Investments which have been fair valued by the Directors).

The Funds actively trade in debt securities, some of which are variable rate. As at 31 December 2025, the Funds did not hold any variable rate debt investments linked to Secured Overnight Financing Rate ("SOFR"). Such investments have the potential to transition to an alternative benchmark prior to being disposed of.

The impact of this transition, if any, will be captured in the change in fair value of these investments and is not expected to be material to the Funds.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract at the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and the forward price and is recognised in the Statement of comprehensive income.

Investment funds are valued based upon reference to the latest available net asset value per unit or share of the relevant fund.

(iv) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously. No such offsetting has occurred as at 31 December 2025 or 31 December 2024.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

1. Material Accounting Policies (continued)

D) Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. There were no estimates and assumptions that had a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities as of the financial year end date.

All of the Funds' financial assets and financial liabilities were held for the purpose of being traded at fair value through profit or loss.

The application of IFRS 9 and the classification of the financial assets at FVTPL is a key judgement applied by management.

Debt Securities

The fair value of debt securities are based on evaluated bid prices at the Statement of Financial Position date. Variable Rate Preferred Shares UCITS ETF and US Municipal Bond UCITS ETF fixed income securities are priced at Evaluated Mid prices. The market prices are obtained from reputable pricing sources. The Company would exercise judgement on the quantity and quality of pricing sources used. Where no market price is available the Company will determine the fair value using valuation techniques. These valuation techniques include the use of comparable recent transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and other valuation techniques used by market participants. There were no debt securities valued using such valuation techniques at current or prior year end.

E) Fees and expenses

In accordance with the Prospectus, the management fees were charged to the Statement of Comprehensive Income on an accruals basis. Other than the management fees, all fees and expenses incurred by the Funds including those payable to the Investment Manager, the Depositary, the Administrator, the Auditor and the Directors were paid by the Manager.

F) Cash and cash equivalents

As at 31 December 2025 and 31 December 2024, cash in all Funds was held on deposit with The Bank of New York Mellon SA/NV, Dublin Branch. Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts. Cash and Cash Equivalents are shown in current assets in the statement of financial positions. Bank overdrafts are shown in current liabilities in the statement of financial position. The Funds are allowed to have an overdraft facility in place which is in line with both the Depositary Agreement (under Depositary Duties) and UCITS regulations. Overdrawn balances are continuously monitored. Per the UCITS regulations, overdrafts are permitted within the set out limits. Intraday credit is provided to support the Funds' efficient portfolio management, as the Depositary cannot prevent overdrafts from occurring. As at 31 December 2025 and 31 December 2024, Margin cash is held with the broker Merrill Lynch International, details of which are disclosed in the Schedule of Investments of the relevant sub-funds.

G) Redeemable shares

Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities. Any distributions on these shares are recognised in the Statement of Comprehensive Income as finance costs.

H) Fair value of net assets attributable to redeemable shareholders

In accordance with the provisions of the Prospectus and Supplements, investments are valued in line with the valuation policy detailed in Note 1 C) (iii) "Valuation of Investments", on the valuation day for the purpose of determining the net asset value per share for subscriptions and redemptions and for various fee calculations.

I) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocating resources and assessing the performance of the operating segments has been identified as the Board of Directors. The Board of Directors make the strategic resource allocations on behalf of the Company. The Company is managed as one operating segment which invest in equity instruments, debt instruments and related derivatives.

J) Distribution

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Articles, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other Funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement.

The Company total distributions figure should not be read in isolation, it is merely a consolidation of the Funds. Distributions should be viewed on a Fund level. There has not been an over distribution at Company level.

K) Dividend income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-reclaimable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

L) Transaction costs

Transaction costs are expensed as incurred. They include fees and commissions paid to agents, advisers, brokers or dealers.

M) Interest Income and Interest from financial assets at FVTPL/Interest Income receivable and Interest from financial assets at FVTPL receivable

Interest income is recognised on a time-proportionate basis using the effective interest method. Interest income includes interest from cash and cash equivalents.

Interest from financial assets at FVTPL is accrued on an effective yield basis and recognised in the Statement of Comprehensive Income. Interest on securities includes interest and discount earned (net of premium), which is the difference between the face value and the original cost, including original issue discount.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

1. Material Accounting Policies (continued)

M) Interest Income and Interest from financial assets at FVTPL/Interest Income receivable and Interest from financial assets at FVTPL receivable (continued)

Interest earned whilst holding investment securities is reported as Interest from financial assets at FVTPL in the Statement of Comprehensive Income, whilst interest due to the Funds is reported as Interest from financial assets at FVTPL receivable in the Statement of Financial Position.

N) Balances due to/from brokers

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered or settled as at period end.

O) Set up costs

The cost of establishing the Company and the Funds (including fees in connection with the incorporation and registration of the Company, listing the Funds on the relevant stock exchanges and registering the Funds for sale in other jurisdictions) will be paid by Invesco Investment Management Limited (the "Manager"). The cost of establishing subsequent Funds will also be paid by the Manager unless otherwise provided in the Supplement for the relevant Fund.

P) Forward foreign currency contracts

A forward agreement is a customised, bilateral agreement to exchange an asset or cash flows at a specified future settlement date at a forward price agreed on the trade date. One party to the forward is the buyer (long), who agrees to pay the forward price on the settlement date; the other is the seller (short), who agrees to receive the forward price. Forward currency contracts could be used to hedge against currency risk that has resulted from assets held by the Funds that are not in the Base Currency. A Fund, may, for example, use forward currency contracts by selling forward a foreign currency against the Base Currency to protect the Funds from foreign exchange rate risk that has risen from holding assets in that currency. Investments in forward currency contracts are classified as Level 2 as they are valued at the close-of-business rates as reported by the pricing vendors utilised by the Administrator of the Fund.

The unrealised gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract and is disclosed in the Statement of Financial Position. Realised gains or losses and changes in unrealised appreciation/depreciation include net results on contracts which have been settled or offset on other contracts and are recorded in the Statement of Comprehensive Income.

Q) Open Exchange Traded Futures contracts

Open exchange traded futures contracts ('futures') are fair valued at the official exchange traded price at the close of business on the valuation day to approximate fair value. The fair value, less purchase price, represents the net unrealised gain or loss attributable to these open positions, and is included in the Statement of Financial Position. The difference in the unrealised gain or loss between the current year and the prior year represents the net change in unrealised gain or loss and is included in the Statement of Comprehensive Income.

Margin Cash in relation to the futures is identified in the Schedules of Investments as Margin Cash and is included as a component of cash and cash equivalents on the Statement of Financial Position. As at 31 December 2025, Margin cash is held with the broker Merrill Lynch International for the Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco GBP Corporate Bond Screened & Tilted UCITS ETF, Invesco GBP Corporate Bond UCITS ETF, Invesco Global High Yield Corporate Bond ESG Climate Transition UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF, Invesco MDAX® UCITS ETF, Invesco CoinShares Global Blockchain UCITS ETF, Invesco MSCI USA Universal Screened UCITS ETF, Invesco MSCI Japan Universal Screened UCITS ETF, Invesco FTSE All-World UCITS ETF, Invesco FTSE All Share Screened & Tilted UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF, Invesco NASDAQ-100 ESG UCITS ETF, Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF, Invesco MSCI World Equal Weight UCITS ETF. As at 31 December 2024, Margin cash is held with the broker Merrill Lynch International for the Invesco EUR IG Corporate Bond ESG Climate Transition UCITS ETF, Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Euro Corporate Hybrid Bond UCITS ETF, Invesco GBP Corporate Bond ESG UCITS ETF, Invesco GBP Corporate Bond Screened & Tilted UCITS ETF, Invesco Global High Yield Corporate Bond ESG Climate Transition UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF and Invesco USD High Yield Corporate Bond ESG UCITS ETF.

R) Withholding Tax

The Funds currently incur withholding tax imposed by certain countries on investment income and capital gains. Such income or gains are reported gross of withholding tax and the withholding tax is shown separately in the Statement of Comprehensive Income.

S) Capital shares receivable/Capital shares payable

Capital shares receivable and Capital shares payable redeemed represent amounts that have been contracted for but not yet settled or delivered on the Statement of Financial Position date.

T) Securities Lending

A Fund may enter into securities lending agreements if consistent with the investment objective of the Fund and for the purposes of efficient portfolio management, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risk, in accordance with the requirements and subject to any relevant regulations of the Central Bank. Any Fund that seeks to engage in securities lending should ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered. A Fund may engage in a securities lending programme through the Investment Manager. In order to mitigate the credit risk exposure to the counterparties to any securities lending contract, the lending of a Fund's securities must be covered by high quality and liquid collateral received by a Fund under a title transfer arrangement with a market value at all times at least equivalent to the market value of a Fund's securities lent plus a premium. A Fund's securities can be lent to counterparties over a period of time. The Manager will, at least annually, review and/or confirm the arrangements for securities lending and associated fees invoiced to the relevant Fund, if any. All the revenues arising from efficient portfolio management techniques shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees shall include fees and expenses payable to securities lending agents engaged by the Company. Details of the Funds' revenues arising and attendant direct and indirect operational costs and fees as well as the identity of any specific securities lending agents engaged by the Company are detailed in Note 15 Securities Lending and Collateral. Income earned from securities lending is reported as Securities lending income in the Statement of Comprehensive Income.

1. Material Accounting Policies (continued)

U) Capital Gains Tax

In September 2016, Brazil's Department of Federal Revenue updated Ireland's status for Brazilian tax purposes and included Ireland on their list of countries classified as low tax jurisdictions. This resulted in the asset and wealth management industry having to consider whether funds should accrue for potential Brazilian capital gains tax exposures ("CGT") on unrealised gains on their holdings. Three Funds in Invesco Markets II plc had exposure to Brazilian investments as at 31 December 2025 – Invesco MSCI Emerging Markets Universal Screened UCITS ETF, Invesco FTSE All-World UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Gains arising from the sale of Brazilian securities are subject to CGT in Brazil.

Two Funds in Invesco Markets II plc had exposure to Indian investments as at 31 December 2025 - Invesco MSCI Emerging Markets Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Gains arising from the sale of Indian securities are subject to CGT in India.

As at 31 December 2025, Invesco MSCI Emerging Markets Universal Screened UCITS ETF, Invesco FTSE All-World UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF have made a provision of the potential CGT using the applicable tax rates enacted during the financial year. Please refer to the Statement of Financial Position.

Two Funds in Invesco Markets II plc had exposure to Brazilian investments as at 31 December 2024 - Invesco MSCI Emerging Markets Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF.

Two Funds in Invesco Markets II plc had exposure to Indian investments as at 31 December 2024 - Invesco MSCI Emerging Markets Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Gains arising from sale of Indian securities are subject to CGT in India. As at 31 December 2024, Invesco MSCI Emerging Markets Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF have made a provision of the potential CGT using the applicable tax rates enacted during the financial year. Please refer to the Statement of Financial Position.

2. Financial risks

As defined by IFRS 7 'Financial Instrument Disclosures', risk arising on financial instruments can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk.

Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the Directors of the Company.

The main risks arising from the Funds' financial instruments are market risk, credit risk and liquidity risk. The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of the respective benchmarks.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed below:

A) General

The risk monitoring process is the responsibility of the Company which has delegated this responsibility to the Manager and the Investment Manager.

The Company's investment objective is that each Fund will seek to provide shareholders with a target performance linked to the performance of a reference index or reference asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that reference index or reference asset.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk of each Fund's portfolio at any given time.

The Investment Manager will report in writing at least monthly to the named Designated Person confirming compliance with the guidelines laid down in the Risk Management Policy document and the Prospectus. The Investment Manager will also report at minimum quarterly to the Board of Directors in respect of same.

The risk management technique applying to the Funds is the Commitment Approach. The commitment is calculated in line with ESMA Guidelines 10 788. This ratio merely reflects the usage of all financial derivative instruments of the relevant Fund and is calculated using the sum of notionals of all financial derivative instruments, netting and hedging arrangements being considered to reduce exposure. A sensitivity analysis is presented in Note (iii) Market Price Risk to reflect the Commitment Approach which represents the interest rate risk maturity profile for the Funds. Each Fund's global exposure measured in accordance with the "commitment approach" under the Central Bank Guidance entitled UCITS Financial Derivative Instruments and Efficient Portfolio Management, relating to FDI must not exceed its total net asset value.

B) Market risk

Market risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following type of risk:

- interest rate risk;
- currency risk; and
- market price risk;

(i) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates which would cause the fair value of the assets and liabilities and the future cash flows to fluctuate accordingly. The value of debt securities is likely to decline in times of rising interest rates. Conversely, when rates fall, the value of these investments is likely to rise. The longer the time to maturity the greater are such variations. As the majority of the Funds' assets are interest-bearing, it is exposed to this risk.

As the Company may invest in fixed income securities, any change to the relevant interest rates for particular securities may result in the Investment Manager being unable to secure similar returns on the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of the fixed income securities will decline. A decline in interest rates will, in general, have the opposite effect.

2. Financial risks (continued)

B) Market risk (continued)

(i) Interest rate risk (continued)

The following tables summarise the exposure to interest rate risk for the financial year ended 31 December 2025. It includes the Funds' assets and trading liabilities at fair values categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities.

A reasonable approximate increase in the net assets attributable to holders of redeemable participating shares due to a 1% (1% is considered to be a reasonable possible change in interest rates) increase/decrease in market interest rates as at 31 December 2025 and 31 December 2024 is also detailed below.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and non-monetary liabilities to be a component of market price risk not foreign currency risk.

Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Non-monetary items are any other assets and liabilities other than monetary ones.

The Funds, in line with the securities comprising their underlying indices, are exposed to the currency risk of the respective reference index/strategy. The Investment Manager monitors the Funds' currency risk to ensure that it replicates that of the securities comprising the underlying index.

There was no currency risk on the following Funds as the Funds did not hold assets and liabilities denominated in a currency other than the Functional Currency of each Fund at 31 December 2025:

Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Government and Related Green Bond Weighted UCITS ETF, Invesco US Municipal Bond UCITS ETF, Invesco NASDAQ Next Generation 100 UCITS ETF, Invesco NASDAQ-100 Equal Weight UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF, Invesco S&P 500 Low Volatility UCITS ETF, Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF, Invesco Dow Jones US Insurance UCITS ETF, Invesco S&P 500 CTB Net Zero Pathway ESG UCITS ETF, Invesco S&P 500 Quality UCITS ETF, Invesco US Enhanced Equity UCITS ETF and Invesco EURO STOXX 50 Equal Weight UCITS ETF.

There was no currency risk on the following Funds as the Funds did not hold assets and liabilities denominated in a currency other than the Functional Currency of each Fund at 31 December 2024:

Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Variable Rate Preferred Shares UCITS ETF, Invesco MSCI EMU ESG Universal Screened UCITS ETF, Invesco EUR Government and Related Green Bond Weighted UCITS ETF, Invesco US Municipal Bond UCITS ETF, Invesco NASDAQ Next Generation 100 UCITS ETF, Invesco NASDAQ-100 Equal Weight UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF, Invesco S&P 500 Low Volatility UCITS ETF, Invesco USD High Yield Corporate Bond ESG UCITS ETF, Invesco NASDAQ-100 ESG UCITS ETF, Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF, Invesco Dow Jones US Insurance UCITS ETF, Invesco BulletShares 2026 EUR Corporate Bond UCITS ETF, Invesco BulletShares 2027 EUR Corporate Bond UCITS ETF, Invesco BulletShares 2028 EUR Corporate Bond UCITS ETF, Invesco BulletShares 2029 EUR Corporate Bond UCITS ETF and Invesco BulletShares 2030 EUR Corporate Bond UCITS ETF.

The foreign currency sensitivity analysis overleaf is based on a change in one variable while holding all other variables constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated – for example, changes in interest rates. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature. At 31 December 2025 the sensitivity movement used is 10% (2024: 10%) of all monetary assets held in the exposure currency.

At 31 December 2025, had the Euro/ US Dollar/ Pound Sterling strengthened/ (weakened) by 10% in relation to the major currencies listed in the tables overleaf, assuming no hedging of this position, the net assets attributable to redeemable participating Shareholders and the change in net assets attributable to holders of redeemable participating Shares per the Statement of Comprehensive Income of the Funds would have decreased/(increased) by the amounts shown overleaf The currency exposure of the monetary (cash, forward currency contracts, receivables and payables) and non-monetary assets (securities) at 31 December 2025 is as follow overleaf.

A Fund can use forward currency contracts by selling forward a foreign currency against the Base Currency to protect a Fund from foreign exchange rate risk that has risen from holding assets in that currency.

As at 31 December 2025 and 31 December 2024, certain funds were exposed to currency risk through the use of forward currency contracts.

As at 31 December 2025 the Funds which held forward currency contracts were Invesco Preferred Shares UCITS ETF, Invesco USD IG Corporate Bond ESG Climate Transition UCITS ETF, Invesco Global High Yield Corporate Bond ESG Climate Transition UCITS ETF, Invesco AT1 Capital Bond UCITS ETF, Invesco US Treasury Bond UCITS ETF, Invesco US Treasury Bond 0-1 Year UCITS ETF, Invesco US Treasury Bond 1-3 Year UCITS ETF, Invesco US Treasury Bond 3-7 Year UCITS ETF, Invesco US Treasury Bond 7-10 Year UCITS ETF, Invesco US Treasury Bond 10+ Year UCITS ETF, Invesco MSCI USA Universal Screened UCITS ETF, Invesco Global Active ESG Equity UCITS ETF, Invesco Global Active Defensive ESG Equity UCITS ETF, Invesco Euro Government Bond 7-10 Year UCITS ETF, Invesco FTSE All-World UCITS ETF, Invesco NASDAQ-100 ESG UCITS ETF, Invesco Global Corporate Bond ESG Climate Transition UCITS ETF, Invesco BulletShares 2026 USD Corporate Bond UCITS ETF, Invesco BulletShares 2027 USD Corporate Bond UCITS ETF, Invesco BulletShares 2028 USD Corporate Bond UCITS ETF, Invesco BulletShares 2029 USD Corporate Bond UCITS ETF, Invesco BulletShares 2030 USD Corporate Bond UCITS ETF, Invesco EUR AAA CLO UCITS ETF, Invesco USD AAA CLO UCITS ETF and Invesco Global Enhanced Equity UCITS ETF as detailed in the Schedules of Investments.

(iii) Market price risk

Market price risk is the risk that the value of investments will fluctuate as a result of changes in market price (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or similar financial instruments traded in the market. For each Fund this risk is in line with the risk of the reference index.

The sensitivity analysis for the Funds assumes a change in the market price of the investments while holding all other variables constant. In practice this is unlikely to occur and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature. The reasonably possible decrease in the benchmark index is based on the movement over the financial year ended 31 December 2025. These movements may be different from the long term volatility of the index.

The following tables set forth a sensitivity analysis showing gains and losses that are associated with a fluctuation in market prices of 5% as 31 December 2025:

Fund	Investments	Currency	Fair Value	Change in rate	Effect on NAV
Invesco Preferred Shares UCITS ETF	Equities	USD	136,810,453	+/-5%	+/- 6,840,523

C) Credit risk

Credit risk is the risk that one party to a financial instrument or other obligation will cause a financial loss for the other party by failing to discharge an obligation.

The Investment Manager monitors each Fund's credit position on a daily basis.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. In accordance with Fund policy, the Investment Manager monitors each Fund credit position on a daily basis; the Board of Directors reviews it on a quarterly basis.

The Funds' Depositary is The Bank of New York Mellon, SA/NV, Dublin Branch (the "Depositary").

As at 31 December 2025 and 31 December 2024, all of the cash assets are held with The Bank of New York Mellon, SA/NV, Dublin Branch. Please refer to the Statement of Financial Position for cash assets held with The Bank of New York Mellon, SA/NV, Dublin Branch.

As at 31 December 2025 and 31 December 2024, Margin cash is held with the broker Merrill Lynch International, details of which are disclosed in the Schedule of Investments of the relevant sub-funds.

Accordingly, in accordance with usual banking practice, the Depositary liability to the Funds in respect of such cash deposits shall be that of debtor and the Funds will rank as a general creditor of BNYM (Bank of New York Mellon).

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

2. Financial risks (continued)

C) Credit risk (continued)

The financial instruments held in custody are held with the Depositary except for the futures contracts which are held with Merrill Lynch International. These assets are held distinct and separately from the proprietary assets of the Depositary. Securities are clearly recorded to ensure they are held on behalf of the Funds. As at 31 December 2025, the Merrill Lynch International had a long term rating from Standard & Poor's of A+ (31 December 2025: A+).

Both The Bank of New York Mellon SA/NV, Dublin Branch (Ireland) Limited and sub-custodian are wholly owned subsidiaries of The Bank of New York Mellon Corporation. As at 31 December 2025 The Bank of New York Mellon Corporation had a long term rating from Standard & Poor's of A (31 December 2024: A). For details in relation to the sub-custodians please refer to Appendix V of the Prospectus.

Risk is managed by monitoring the credit quality and financial positions of the Depositary the Funds use.

The Funds are exposed to credit risk through the use of a Depositary or sub-custodian. The bankruptcy or insolvency of any of these parties may cause the Funds' rights with respect to its assets held by these entities to be delayed or limited.

To mitigate the risks the Funds are exposed to from the use of the Counterparty, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Funds. The Funds only transacts with Counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit rating agencies. In addition, the Funds' non-cash assets are maintained by the Depositary in segregated accounts. Thus, in the event of insolvency or bankruptcy of the Depositary the Funds' non-cash assets are segregated and protected and this further reduces counterparty risk. The Funds will, however, be exposed to the credit risk of the Depositary or counterparty/sub-custodian used by the Depositary, in relation to the Funds' Cash at Bank held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Funds will be treated as a general creditor of the Depositary in relation to cash holdings of the Funds.

D) Liquidity risk

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Funds did not withhold any redemptions or did not suspend the NAV during the financial year ended 31 December 2025 and 31 December 2024.

Liquidity risk exists when a particular instrument is difficult to purchase or sell.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed. The Fund have therefore limited exposure to liquidity risk.

Redeemable Shares are redeemed on demand at the Shareholder's option.

In accordance with the Funds' policy, the Investment Manager monitors the Funds' liquidity position on a daily basis; the Board of Directors reviews it on a quarterly basis.

The Company has the discretion in circumstances set out in the Prospectus to temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares.

The following tables analyse the Funds' financial liabilities into relevant maturity groupings based on the remaining financial year at the statement of financial position date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant. All amounts are stated in the Funds' currency. The contractual cashflows of the forward currency contracts are disclosed within the Schedule of Investments for each Fund.

2. Financial risks (continued)

E) Secondary market trading risk

Even though the Shares may be listed on one or more relevant stock exchanges, there can be no certainty that there will be liquidity in the Shares on any relevant stock exchange or that the market price at which the Shares may be traded on a relevant stock exchange will be the same as or approximately equal to the Net Asset Value per Share.

As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a relevant stock exchange they will remain listed or that the conditions of listing will not change. Trading in Shares on a relevant stock exchange may be halted or suspended due to market conditions or for the reason that, in the relevant stock exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the relevant stock exchange's rules. If trading on a relevant stock exchange is halted, investors may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Funds to redeem Shares in accordance with the provisions set out in the Prospectus.

F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares could change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

G) Fair value information

IFRS 13 Fair Value Measurement requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statement of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial year-end date.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions.

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of cash and cash equivalents, other receivables and payables are assumed to approximate their fair value.

As at 31 December 2025 and 31 December 2024 such financial assets include cash and cash equivalents, balances due from brokers, dividend income receivable, capital shares receivable, interest from financial assets at fair value through profit and loss receivable and accrued income and other receivables. The financial liabilities include bank overdraft, balances due to brokers, capital shares payable, Variation margin payable and creditors (amounts falling due within one year). Level 2 is deemed to be the most appropriate categorisation for such assets and liabilities.

Investments, whose values are based on quoted market prices in active markets and therefore classified within Level 1.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Schedule of investments shows the investments split by country of origin.

The following tables analyse within the fair value hierarchy the Funds' financial assets and liabilities (by class) measured at fair value. Amounts are stated in US Dollars, Euro and Sterling.

4. Management fees

The Management Fee, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Funds to the Manager. The Management Fee accrued on each day and was calculated on each Dealing Day and paid monthly in arrears. The Manager paid out of its fees (and not out of the assets of the Funds) the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Funds that include set up costs and other administrative expenses as described in the Prospectus. There were no change in rates year on year unless otherwise stated.

The fees in the following table are expressed as a percentage per annum of the Funds' net asset value.

5. Related party transactions

Manager

The Company has appointed Invesco Investment Management Limited to act as Manager to the Company and each Fund. The Manager forms part of the Invesco group of companies, the parent of which is Invesco Limited, a US publicly traded company listed on the New York Stock Exchange with ticker IVZ.

Management fees charged during the year ended 31 December 2025 was EUR 43,192,341 (31 December 2024 : EUR 29,314,395); of which EUR 4,523,906 was outstanding at 31 December 2025 (31 December 2024 : EUR 3,027,238) are disclosed within Operating Expenses and Creditors in the Statement of Comprehensive Income and Statement of Financial Position.

Directors

The Manager is responsible for discharging out of its fees, amounts payable to the Directors entitled to a Directors fee. The Directors who are also employees of the Invesco Group are not entitled to receive Directors' fees. Please see details above of fee paid to the Manager.

Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of the Invesco UK Services Limited. Sarah (Katy Walton) Jones is a Director of the Company and is Head of Legal for Invesco EMEA ETP business. Lisa Martensson is a Director of the Company and also a Director of the Manager. Deirdre Gormley is a Director of the Company and the Manager.

The Directors' fees charged during the year ended was EUR 52,500 (inclusive of PAYE) (31 December 2024: EUR 46,250 (inclusive of PAYE)).

Investments in Short-Term Investment Funds and ETFs

For details in relation to the Funds' Investment in Invesco short-term investment Funds and Invesco ETFs please refer to "Investment Funds" in the Schedule of Investments. These positions are related to the Manager and Investment Manager of the Funds.

Investment Manager

Invesco Capital Management LLC is the Investment Manager to the Funds. The Funds paid no fees directly to the Investment Manager and all other expenses were paid by the Manager on behalf of the Funds.

Seed capital

There were no seed capital holdings on any of the Funds at 31 December 2025.

As at 31 December 2024, Invesco Capital Management LLC held the following Redeemable Participating Shares in the below fund:

For the period from 1 January 2024 to 31 December 2024	Opening Balance	Acquired in the period	Redeemed in the period	Closing Balance	% of Net Assets
Invesco USD High Yield Corporate Bond ESG UCITS ETF	169,629	-	(169,629)	-	0.00%

Significant agreements

Authorised Participants

The complete list of Authorised Participants is shown in the General Information section.

Brokerage fees were not paid to the Authorised Participants during the financial year ended 31 December 2025 (31 December 2024 : Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Funds. There was no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

6. Auditors' remuneration

As required under Section 322 of the Companies Act 2014 (as amended), the remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	Year Ended 31 December 2025 EUR	Year Ended 31 December 2024 EUR
Statutory audit of company accounts	628,560	554,636
PwC Ireland non audit services	99,400	78,091
PwC Network non audit services	454,753	388,756
	1,182,713	**1,021,483**

All non audit services relate to Tax services with the exception of €3,200 (31 December 2024: €3,291) from PwC Ireland which relates to Swiss Reporting. This is an "other assurance" service.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

7. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year period beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

a) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct;

b) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; or

c) Any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Pillar II
Invesco has assessed the applicability of the OECD's Pillar II model rules and concluded that these rules do not apply to the Invesco Markets II plc for the financial year ended 31 December 2025. Invesco Markets II plc meets the definition of an Investment Entity as provided for in S111A TCA 1997. Each fund meets the definition of an Investment Entity and therefore should be equally excluded from the definition of a qualifying entity. In accordance with IAS 12, the Fund has not recognized any current or deferred tax liabilities related to Pillar II.

8. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

Details of the number of shares issued and redeemed during the financial year per Fund are contained overleaf:

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

10. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current financial year (31 December 2024: none).

11. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended), the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund.

While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

12. Operating Segment

IFRS 8 Operating Segments ("IFRS 8") requires a "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. The Board of Directors are charged with the overall governance of the Company in accordance with the Prospectus and Constitution. Management have determined the Chief Operating Decision Maker ("CODM") as the Board of Directors for the purposes of IFRS 8.

For Management purposes, the Company is organised into one main operating segment, which invests in equity instruments, debt instruments and related derivatives. All the Company's activities are interrelated and each activity is dependent on the others. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

12. Operating Segment (continued)

The Funds have no assets classified as non-current assets.

The Funds have highly diversified portfolios of investments and no single investment accounts for a significant portion of the Company's income.

Products and Services
As of the Company's revenues are derived from one product grouping, namely the portfolio securities and derivative instruments invested in by the Funds in order to track the performance of their respective indices.

Geographical areas
The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major Customers
As the Company is an investment company, its distinct major customers are from institutional investors who make the primary market for the Funds' shares. The investments are allocated across 48 distinct Funds which each have a separate Schedule of Investments.

13. Transaction Costs

In order to achieve its investment objective, the Company incurs transaction costs in relation to trading activity on its portfolios.

The transaction costs below were incurred by the Funds during the financial year ended 31 December 2025 and are included within the net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss figures in the Statement of Comprehensive Income:

14. Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down, by the Central Bank of Ireland, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes a list of which are set out in the relevant Supplement for each Fund. Transactions for the purposes of efficient portfolio management maybe undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Funds as described in this Prospectus and the relevant Supplement and the risk diversification rules set out in the Central Bank Regulations. Subject to the Regulations and to the conditions within the limits laid down by the Central Bank, the Company, on behalf of a Fund may invest in FDIs dealt on a regulated market and/or OTCs which will be used for investment purposes, hedging and/or efficient portfolio management purposes.

The FDIs in which a Fund may invest are spot and forward currency contracts, options on securities, indices and currencies, credit default swaps, futures and options on futures and when issued and forward commitment securities further details of which will be set out in the relevant Supplement. Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank of Ireland. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques and instruments.

The Funds may also enter into securities lending for the purpose of efficient portfolio management and this may reduce the Minimum Equity Ratio of the Funds. However, the qualifying Fund will ensure that they maintain a minimum continuous investment of more than 50% of their net asset value into equities.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

Details of forward foreign exchange contracts and futures transactions are reflected within the Schedule of Investments of each fund where held.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

15. Securities Lending and Collateral

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements if consistent with the investment objective of the Funds and for the purposes of efficient portfolio management, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risk, in accordance with the requirements and subject to any relevant regulations of the Central Bank. A maximum of 90% of an individual security held by a Fund will be subject to securities lending, with the exception of Invesco CoinShares Global Blockchain UCITS ETF, which increased the maximum rate from 90% to 99% effective 14 August 2025. Effective to 13 October 2025, the proportion of assets per Fund that may be subject to securities lending was up to a maximum of 50% for all Government Bond Funds, Effective from 13 October 2025, (with the exception of Invesco EUR Government and Related Green Bond Weighted UCITS ETF which has a maximum of 50%), the proportion of assets per Fund that may be subject to securities lending will be up to a maximum of 90% for all Government Bond Funds, for all other Fixed Income Funds a maximum of 30%.

The maximum proportion of a Fund's assets that may be subject to securities lending is 100% and the expected proportion of a Fund's assets that may be subject to securities lending are between 0% and 30% for Equity and Bond Funds, with the exception of Invesco CoinShares Global Blockchain UCITS ETF which expected proportion of assets that may be subject to securities lending increased from 30% to 50% effective 14 August 2025.

The securities lending agent appointed pursuant to the Securities Lending Authorisation Deed is The Bank of New York Mellon SA/NV (the “Bank”).

At 31 December 2025, there was securities lending on Funds listed in the tables below and overleaf. These tables show the securities lending income earned. This securities lending income earned is net of the lending agent fee.

As per the Securities Lending Authorisation Deed, the Bank is authorised and directed to invest and re-invest all or substantially all of the collateral received in any approved investments as specified to be "No Cash Collateral other than for the purposes set out in Schedule 1" of the Securities Lending Authorisation Deed. All approved investments shall be for the account and risk of the lender. To the extent any loss arising out of approved investments results in a deficiency in the amount of collateral available to return to a borrower, the lender agrees to pay the Bank on demand cash in amount equal to such deficiency. As at 31 December 2025 and 31 December 2024, there was no collateral re-invested.

As at 31 December 2025 and 31 December 2024, there was no cash collateral held by the Funds.

The amount of collateral obtained under a securities lending arrangement must be of at least 100% of the daily marked to market value of the stocks on loan.

As per the Securities Lending Authorisation Deed, the non-cash collateral can consist of Debt obligations and securities issued by a government where such government is a ratified member of the Organization for Economic Co Operation and Development, or by the government of Singapore.

The value of securities on loan by counterparty and the value and type of collateral held by the Company in respect of those securities as at 31 December 2025 are detailed as below:

Fund	Counterparty	Country of Incorporation	Collateral Type	Aggregate value of securities on loan at 31 December 2025	Aggregate value of collateral held at 31 December 2025	Value of collateral as % of securities on loan at 31 December 2025

On 5 April 2025 President Trump imposed trade tariffs which caused adverse market conditions and uncertainty on the political and economic front. The impact on the economies, markets and industries continues to evolve. The Directors are monitoring the situation during this period of uncertainty to assess any impact the situation may have on Invesco funds.

Effective 3 June 2025, the Administrator, Registrar, Transfer Agent and Depositary changed their registered address to The Shipping Office, 20-26 Sir John Rogerson's Quay, Dublin 2, D02 Y049, Ireland.

Effective on the 26 June 2025 the management fee was reduced from 0.19% to 0.15% on the following funds:
- Invesco MSCI Japan Universal Screened UCITS ETF
- Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF

Effective on the 24 July 2025 the management fee was reduced from 0.35% to 0.25% on the following funds:

- Invesco EUR AAA CLO UCITS ETF
- Invesco USD AAA CLO UCITS ETF

Effective 11 July 2025 a new Prospectus and Supplements for the Funds was issued.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

18. Significant events during the financial year (continued)

Increase in expected exposure to securities lending

Effective 14 August 2025, for Invesco CoinShares Global Blockchain UCITS ETF, there was an increase to the expected proportion of the Fund's assets that may be subject to securities lending. Previously, the maximum proportion of the Fund's assets that may be subject to securities lending was 100%, with the supplement for the Fund disclosing the expected proportion as 30%. The expected proportion of assets that may be subject to securities lending increased from 30% to 50%, remaining below the permitted maximum disclosed in the supplement for the Fund. In addition, the maximum amount of any single security that can be loaned will increased from 90% to 99%.

Effective 13 October 2025, for all Government, Gilts and Treasury funds, with the exception of Invesco EUR Government and Related Green Bond Weighted UCITS ETF, there was an increase to the expected proportion of the Fund's assets that may be subject to securities lending. Previously, the maximum proportion of the Fund's assets that may be subject to securities lending was 100%, with the supplement for the Fund disclosing the expected proportion as 50%. The expected proportion of assets that may be subject to securities lending increased from 50% to 90%, remaining below the permitted maximum disclosed in the supplement for the Funds.

Credit Suisse AT1 Bonds

As previously advised, following the write down of the Credit Suisse AT1s on 19 March 2023, the Fund and Management Company boards continue to review the fund's position in respect of the write down of its interest in such holding and a claim was filed on behalf of the Fund to preserve its position. To date there has been no material updates in the litigation relating to Credit Suisse AT1's. Subsequently, a private market for the acquisition of Credit Suisse AT1 claims has emerged that may provide a mechanism for some realisation of value for the legacy Credit Suisse AT1 position being achieved.

This market for Credit Suisse AT1 claims is still evolving, but due to its OTC nature and the variation of terms that may be involved in any sale, the likelihood of realizing value and corresponding ability to ascribe a valuation to the claim is, at this time, uncertain. Consequently, the boards have determined that, consistent with the approach adopted since [19 March 2023], no value can currently be attributed to the legacy AT1 position for inclusion in the NAV. If this position clarifies such that the ability to realise value becomes more certain, then a value may in the future be attributed and included in the NAV, however, that may not be until such time as a sale of the claim, if any, were to materialise. There can be no guarantee that the fund will be able to realise any value in respect of these claims in future and the board reserves the ability to deal with the claims as it deems appropriate in future, including without limitation, by accessing an OTC market.

Investment policy change and Benchmark name change

Effective, 30 September 2025, there was a change to the investment policy of Invesco EUR AAA CLO UCITS ETF to incorporate ESG criteria and that the Fund will promote environmental and social characteristics and will be categorised as an Article 8 fund under the Sustainable Finance Disclosure Regulation (EU) 2019/2088 (SFDR).

As a result of Regulation (EU) 2025/914 of the European Parliament (the EU Benchmarks regulation), the benchmark administrators of the benchmarks referenced by the Funds updated the benchmark names to include either 'Climate Transition Benchmark' or 'Paris Aligned Benchmark' signifiers, specifically 'CTB' or 'PAB' respectively (the "Change"). These Changes and their effective dates are set out below.

Fund name	Benchmark name	New benchmark name	Effective Date

19. Significant events since the financial year (continued)

Fund/Class Name	Distribution Rate	Currency	Distribution
Invesco S&P 500 Quality UCITS ETF - Class B Dist	0.0160	USD	2,459
Invesco UK Gilt 15+ Year UCITS ETF - Class A Dist	0.0599	GBP	4,003,563

The following Funds and shareclasses have launched:

Invesco Nasdaq-100 Income Advantage UCITS ETF launched on 27 January 2026.

Invesco MSCI ACWI Islamic ETF launched on 10 February 2026.

Invesco USD IG Corporate Bond Yield Plus UCITS ETF Acc launched on 3 March 2026.

Effective 21 January 2026, the Invesco AT1 Capital Bond UCITS ETF changed name to Invesco USD AT1 CoCo Bond UCITS ETF. The strategy of the Fund was not impacted by this change and the Funds supplement was amended to reflect the name change.

On 28 February 2026, US and Israel launched coordinated strikes against Iranian leadership and key strategic assets, resulting in a significant escalation of regional hostilities. Iran responded with widespread missile and drone attacks, further heightening geopolitical instability across the Middle East.

This escalation has contributed to increased market volatility, disruptions to global energy supply routes, and elevated sanctions-related compliance risks relevant to the Group's operating environment. Invesco continue to monitor developments closely during this period of heightened uncertainty and are actively assessing any potential implications for our Funds.

There were no other significant events since the financial year end.

20. Reconciliation to the published NAV

There was no adjustment made to the published NAV, in accordance with accounting standards for reporting purposes as at 31 December 2025.

As at 31 December 2024, the published NAV was adjusted for subscriptions receivable in excess of 50bps of the NAV which have a value date of the last NAV of the Fund in the accounting year, in accordance with accounting standards for reporting purposes:

	Invesco Global Active ESG Equity UCITS ETF	Invesco MSCI China All Shares Stock Connect UCITS ETF
31 December 2024	**USD**	**USD**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Effective from 01 May 2025, the Fund name changed from Invesco Global High Yield Corporate Bond ESG UCITS ETF to Invesco Global High Yield Corporate Bond ESG Climate Transition UCITS ETF.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Effective from 03 February 2025, the Fund name changed from Invesco MSCI Pacific Ex Japan ESG Universal Screened UCITS ETF to Invesco MSCI Pacific Ex Japan Universal Screened UCITS ETF.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Effective from 07 April 2025, the Fund name changed from Invesco EUR Government and Related Green Transition UCITS ETF to Invesco EUR Government and Related Green Bond Weighted UCITS ETF.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Fund launched on the 19 May 2025.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Fund launched on the 07 October 2025.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Remuneration Disclosure (Unaudited) – Invesco Investment Management Limited

Invesco Investment Management Limited (the "Management Company") has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy was revised in 2024, to include specificities for some Invesco EU regulated Management Companies. The Management Company was not impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company's compliance with its duty to act in the best interests of the UCITS it manages. The Management Company's summary remuneration policy is available on our website (www.invescomanagementcompany.ie). The Management Company's full remuneration policy is available for free from the registered office (see address page 10) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group's remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2025 (1st January 2025 to 31st December 2025) is EUR 10.70m of which EUR 8.69m is fixed remuneration and EUR 2.01m is variable remuneration. The number of beneficiaries is 68.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2025 (1st January 2025 to 31st December 2025) is EUR 7.40m of which EUR 5.02m is paid to Senior Management and EUR 2.38m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.

Securities Financing Transactions Regulation (continued)

The collaterals are held in the name of the Lending Agent Lender to the order of its clients; the actual segregation to underlying client level is done with the Lending Agent's books and records. The collaterals are held on account at the tri-party agent, who acts as a settlement and collection service for securities and collateral between the lender and the borrower. The tri-party agents used but not limited to, The Bank of New York Mellon SA/NV, London Branch, JPMorgan Chase Bank N.A and Euroclear Bank. For bilateral transactions, the collaterals are held on account at the Agent Lender.

The following tables provide an analysis of the amounts held at each collateral agent as non-cash collateral received in respect of securities lending transactions as at 31 December 2025:

Securities Financing Transactions Regulation (continued)

The type and quality of collateral obtained in respect of securities lending transactions are as follows:

(1) Debt obligations and securities issued by a government where such government is a ratified member of the Organization for Economic Co-Operation and Development, or by the government of Singapore. Debt obligations and securities issued by agencies and instrumentalities of these same governments are also acceptable. In each case, the issuer of the debt obligation or security shall be rated (i) A or better by Standard & Poor's, or (ii) A or better by Fitch, or (iii) A2 or better by Moody's, or (iv) A or better by DBRS.

(2) Debt obligations issued by the following supranational issuers, where such issuer has a rating of (i) AA or better by Standard & Poor's, or (ii) AA or better by Fitch, or (iii) Aa2 or better by Moody's, or (iv) AA or better by DBRS.**: European Bank for Reconstruction and Development; European Investment Bank; European Union; European Stability Mechanism, Inter-American Development Bank; International Bank for Reconstruction and Development; International Finance Corporation; European Financial Stability Facility; Eurofima; Council of Europe Development Bank; Eutelsat; Organisation for Economic Co-operation and Development; African Development Bank; Asian Development Bank; Bank of International Settlements; Euratom; European Coal and Steel Community; International Development Association; International Monetary Fund; Nordic Investment Bank;

(3) equity securities from the following indices: AEX 25 (Netherlands), CAC 40 (France), DAX 30 (Germany), Euro 50 (Eurozone), FTSE 100 (United Kingdom), Nikkei 225 (Japan), SMI 20 (Switzerland), S&P 500 (United States of America);

(4) FTSE100 DBV (Class F10) as define in the Crest Reference Manual; and

(5) unstripped British Government Stock (Class UBG) as defined in the CREST Reference Manual.

The following tables provide an analysis of the type and quality of non-cash collateral received in respect of securities lending transactions as at 31 December 2025:

Securities Financing Transactions Regulation (continued)

The following tables provide an analysis of the maturity tenor of securities lending transactions and the associated collateral received as at 31 December 2025:

The maturity tenor analysis is based on the contractual maturity date of the securities on loan and, in case of non-cash collateral, the contractual maturity date of the security received as collateral.

Fund	Less than 1 day	1 day to 1 week	1 week to 1 month	1 month to 3 months	3 months to 1 year	Above 1 year	Open transactions	Total

The following sub-funds are classified as financial products with a sustainable investment objective as described in Article 9 of SFDR (the "Article 9 Funds" and each, an "Article 9 Fund"):

Invesco Global Clean Energy UCITS ETF
Invesco Wind Energy UCITS ETF
Invesco Hydrogen Economy UCITS ETF
Invesco MSCI Europe ESG Climate Paris Aligned UCITS ETF
Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF
Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF
Invesco MSCI World ESG Climate Paris Aligned UCITS ETF
Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF

Article 11(1) of SFDR requires certain information to be disclosed in the audited financial statements where a sub-fund is classified as an Article 8 Fund or an Article 9 Fund within the meaning of SFDR. This information is required to be presented in the form of the template set out in the SFDR Annexes to the financial statements for Article 8 and Article 9 Funds of Commission Delegated Regulation (EU) 2023/363 of 31 October 2022 amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 supplementing SFDR. Further information on the environmental and/or social characteristics promoted by the Article 8 Funds and the sustainable investment objectives of the Article 9 Funds during the year can be found in the annexes to these financial statements.

The data used to complete the disclosures set out in the SFDR Annexes to these financial statements for the Article 8 Funds and Article 9 Funds is provided by the relevant index provider and other third-party sources. The data used is the data available as at the date at which the disclosures were produced and is based on backward-looking analysis. The analysis is dependent on companies disclosing relevant data and the availability of this data can be limited. Data may also be incomplete, inaccurate and/or contain errors that may not be detected by the Manager and the relevant index provider. It has been observed that the availability and accuracy of data, from the relevant index provider, third party data providers and underlying investee companies, continues to be challenging in some respects. Additionally, the regulations are still relatively new and best practice may change over time. The disclosures included in the Annexes to these financial statements should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Manager, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance, market practice and the availability of relevant third party and investee companies' data in this regard.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Invesco USD IG Corporate Bond ESG Climate Transition UCITS ETF

Legal entity identifier: 63540083DFQPKM6KHS64

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ **Yes**	☒ **No**
☐ It made **sustainable investments with an environmental objective:** _____ %	☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 98.15 % of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** _____ %	☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies, whilst also reducing the Fund's overall exposure to risks arising from a transition to a lower-carbon economy by lowering exposure to carbon intensive issuers or industries.

The Fund achieved the environmental and social characteristics by tracking the Bloomberg MSCI USD Liquid Corporate Climate Transition ESG Bond Index (CTB) ("**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

Further information on the attainment of the environmental and/or social characteristics promoted by the Fund are set out below. Reported data was sourced from external ESG data vendors including ISS ESG, Sustainalytics, Clarity AI and MSCI.

*Please note that pursuant to a change to the Reference Index, whereby the methodology of the Reference Index was amended by the index provider to incorporate the minimum standards for an EU Climate Transition Benchmark, including targeting a reduction of greenhouse gas (absolute GHG emissions) by at least 7% per annum (the "**Decarbonisation Target**"), the environmental and social characteristics promoted by the Fund and the sustainable investment approach of the Fund was changed on 1 May 2025.*

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2025, the data is representative of

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

the reference period:

Sustainability Indicator	Indicator Performance
Absolute GHG emissions (Scope 1+2+3) relative to the Bloomberg Euro Corporate Index (the "**Parent Index**")	41.0% reduction
Absolute GHG emissions (Scope 1+2+3) relative to the decarbonisation trajectory anchor date	10% reduction per annum*
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	9.7% improvement

**The Fund measures its attainment of the Decarbonisation Target once per year on the date of the incorporation of the decarbonisation target for the Reference Index, and subsequent anniversaries of this date.*

…and compared to previous periods?

Compared to last period the MSCI ESG Score improvement (8.0%) for the Fund was higher. The previous CO2 emissions intensity reduction (74.0%) was based on Scope 1+2/Revenue, so is not comparable to the reduction referenced above. The Fund continues to avoid companies excluded by the Reference Index.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sustainable investments made by the Fund contributed to the objective of reducing exposure to risks arising from a transition to a lower-carbon economy by lowering exposure to carbon intensive companies or industries (such risks include increased cost of doing business, regulatory actions, such as carbon taxes and changes in market preferences, such as consumers shifting purchases towards low carbon products).

The Fund achieved those objectives by investing in constituents of the Reference Index, which is constructed to meet the minimum requirements of an EU Climate Transition Benchmarks as based on the commitments laid down in the Paris Agreement in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the index also addressed a number of other adverse indicators. The index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact, this set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the United Nations Global Compact, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Coverage	Metric
Greenhouse gas emissions	1.GHG emissions	433.40	91.45	Scope 1 fund financed emissions (tonnes of CO2 equivalent)
		135.82	91.45	Scope 2 fund financed emissions (tonnes of CO2 equivalent)
		7,659.36	91.45	Scope 3 fund financed emissions (tonnes of CO2 equivalent)
		8,228.59	91.45	Total financed emissions (Scope 1 + Scope 2 + Scope 3) (tonnes of CO2 equivalent)
	2. Carbon footprint	295.48	91.45	Fund level carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR invested)
	3. GHG Intensity of investee companies	1,187.95	99.71	Fund level total emission intensity-Scope 1+2+3 (Per Million EUR revenue)
	4. Exposure to companies active in the fossil fuel sector	2.27	99.89	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	56.43	79.03	Adjusted weighted average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	21.56	41.18	
	6. Energy consumption intensity per high impact climate sector			Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, forestry & fishing	0.00	0.00	
	Construction	0.20	0.04	
	Electricity, gas, steam & air conditioning supply	1.84	3.73	
	Manufacturing	0.16	21.59	
	Mining & quarrying	1.31	0.85	
	Real Estate activities	0.57	1.08	
	Transportation & storage	2.21	4.02	
	Water supply, sewerage, waste management & remediation activities	0.41	0.41	
	Wholesale & Retail	0.05	4.35
