General Information (Unaudited)

Invesco Markets II plc (the "Company") is an open-ended variable capital company with segregated liability between Funds of the Company (each a "Fund" and collectively the "Funds"). The Company was incorporated on 11 September 2015. It is organised under the laws of Republic of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella investment company and comprises separate Funds which may be established from time to time by the Directors with the prior approval of the Central Bank of Ireland (the “Central Bank”).

A Fund is defined as a separate portfolio of assets which is invested in accordance with the investment objective and policies set out in the relevant Supplement and to which all liabilities, income and expenditure attributable or allocated to such portfolio shall be applied and charged.

The particulars of each Fund are set out in a separate Supplement. Any such Supplement lists all of the existing Funds. Redeemable Shares/Shares (these terms are used interchangeably throughout the Financial Statements) of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with the Prospectus. On the introduction of any new Class of Shares, the Company prepares and the Directors will issue documentation setting out the relevant details of each such Class of Shares. A separate portfolio of assets is maintained for each Fund and investments are made in accordance with the investment objective applicable to each Fund.

There are 90 active Funds in existence as at 31 December 2025.

Investment Managers Report (Unaudited)

Despite the angst about tariffs, 2025 was a good year for most global assets, especially metals and equities.

A year ago, we were expecting central bank easing and more economic growth, which led to our optimism about market outcomes. Central banks did ease but economic growth disappointed. Nevertheless, asset returns were healthy.

The best performing assets in 2025 were metals and equities. The only assets to generate negative returns in USD were Japanese bonds, energy and agriculture. The 7.8% USD total return on our neutral portfolio in 2024 (11.0% in local currency) was followed by 16.9% in 2025 (13.4% in local currency), the highest since 2019. The neutral portfolio is a static mix of global cash, fixed income, equity, real estate and commodity assets.

As usual, bad news sells, and the majority of the most-read stories were on the negative side. Most came in the days following the 2 April Liberation Day tariff announcement.

I think the positive market outcomes owe much to the resilience of the global economy and the ongoing easing by most central banks. Tariffs and other geopolitical factors brought only temporary volatility. Major idiosyncratic themes have been AI and gold, based on conversations with investors around the world. Bonds may have lagged equities, but the returns were respectable, in my opinion, especially when measured in US dollars. Strong returns were seen in US bonds but were bettered by emerging markets and Europe (in USD).

As is often the case, emerging markets dominate both ends of the spectrum, though Japanese government bonds appear in the bottom three for the third year in a row. Venezuela topped the equity league table, on both a local and a common currency basis (China was the best performing big stock market). Otherwise, positive returns on Argentinian stocks turned negative when measured in USD. Despite stabilising during Q4, the Argentine peso fell nearly 30% during 2025 (versus USD) and the Turkish Lira was likewise penalised by a high inflation rate. After a strong year, the Russian Ruble is close to pre-war levels.

In a repeat of what happened in 2024, markets had to wait until September for the first Fed rate cut of the year (the European Central Bank “ECB” cut rates four times in the first half of the year). However, once Fed easing started, it went quickly with three 25 basis point (bp) cuts at successive meetings. The latest presidential appointee to the Fed (Stephen Miran) has voted for 50bp cuts at each of those three meetings. With Chair Powell’s term due to end on 15 May 2026, and President Trump about to announce his replacement, it will be interesting to see how Fed dynamics change (if at all) during 2026.

Elsewhere, the future path of central bank rates appears less clear cut, with the ECB easing cycle close to an end (in my opinion), while in Australia the Reserve Bank of Australia is now expected to tighten, rather than ease, and the Bank of Japan is gradually normalising rates upward.

Central bank decision making has been complicated by the flattening of inflation. However, the US avoided the 4.0% inflation rate.

We continue to believe the main driver of returns will be economic and policy cycles. We expect the global economy to accelerate on recent and future central bank easing (and some fiscal impulse).

Investment Objectives and Policies (Unaudited)

The Articles provide that the investment objective and policies for each Fund be formulated by the Directors at the time of the creation of the Funds.

The investment objective of each Fund is to seek to provide Redeemable Shareholders/Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by directly or indirectly purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset.

Each passively managed Fund will seek to achieve its objective by pursuing a policy which will seek to track the performance of a Reference Index or Reference Asset and will generally use either a Replication Strategy, Sampling Strategy or Master Feeder Strategy, with the aim of minimising as far as possible the difference in performance between the Funds and the relevant Reference Index or Reference Asset. The Investment Manager determines whether a Replication Strategy, Sampling Strategy or Master Feeder Strategy is most appropriate for a Fund. The Relevant Supplement will specify and describe the strategy the applicable Fund intends to use.

The following is a summary description of each of the Replication Strategy, Sampling Strategy and Master Feeder Strategy.

- Replication Strategy - this strategy seeks to hold all of the securities of a particular Reference Index or Reference Asset, with the approximate weightings of that Reference Index or Reference Asset, so that the portfolio of such Fund is a near mirror-image of the components of the relevant Reference Index or Reference Asset.
- Sampling Strategy - this strategy seeks to build a representative portfolio that provides a return comparable to that of a Reference Index or Reference Asset. This strategy is used for tracking certain equity or fixed income indices which are too broad to replicate (i.e. the Reference Index or Reference Asset contains too many securities for the Fund to be able to purchase them all efficiently) contain securities which are currently unavailable or difficult to purchase in the open markets or an announcement has been made that certain securities will shortly be included as components of the Reference Index or Reference Asset. Consequently, a Fund using this strategy will typically hold only a subset of the securities which comprise the relevant Reference Index or Reference Asset.
- Master Feeder Strategy - this strategy seeks to achieve the investment objective of the relevant Fund by investing substantially all (and in any event no less than 85%) of the assets of the relevant Fund in another eligible UCITS CIS in accordance with the requirements of the Central Bank.

A passively managed Fund may also on occasion hold securities which were not comprised in the relevant Reference Index or Reference Asset where the Investment Manager believes this to be appropriate in light of the investment objective and investment restrictions of the Fund,or other factors such as market conditions. The potential for any such proposed investment by a Fund will be disclosed in the relevant Supplement.

In limited circumstances and only where disclosed in the Supplement a passively managed fund may also use the Swap Strategy.

- Swap Strategy - this strategy uses financial derivative instruments and transactions and/or OTC derivatives to achieve the Target Performance by exchanging the performance of a basket of global equity securities and equity related securities in return for the performance/return of the Reference Index.

Each actively managed Fund will seek to achieve its objective by investing in an actively-managed portfolio of securities, which applies the security selection and portfolio construction process of the Investment Manager on a discretionary basis.

In each case, information in relation to the types of instruments or securities in which the relevant Fund will invest, including details in relation to the exchanges or markets on which the Fund's investments will be listed or traded, will be set out in the Supplement of the relevant Fund.

There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The individual Fund's investment objectives and policies are detailed on pages 14 to 54.

Invesco Preferred Shares UCITS ETF

The investment objective of the Invesco Preferred Shares UCITS ETF (the "Fund") is to achieve the total return performance of the ICE BofA Diversified Core Plus Fixed Rate Preferred Securities Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the net total return performance of fixed rate US Dollar denominated preferred securities issued in the US domestic market. The index includes preference shares (perpetual preferred securities) stock and senior and subordinated debt issued in USD25, USD50 or USD100 par/liquidation increments. Securities comprising the Reference Index must be rated at least B3 (based on an average of Moody's, S&P and Fitch) and must have an investment grade rated country of risk (based on an average of Moody's, S&P and Fitch foreign currency long-term sovereign debt ratings). The Reference Index is rebalanced monthly. In order to achieve the investment objective, the Fund will employ a replication method that looks to invest predominately in securities that as closely as possible match the constituents of the Reference Index.

Invesco USD IG Corporate Bond ESG Climate Transition UCITS ETF (formerly Invesco USD IG Corporate Bond ESG UCITS ETF)

The investment objective of the Invesco USD IG Corporate Bond ESG Climate Transition UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg MSCI Euro Liquid Corporate Climate Transition ESG Bond Index (CTB) Index (formerly Bloomberg MSCI USD Liquid Corporate Climate Transition ESG Bond Index) (the "Reference Index"), less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of USD Dollar denominated investment grade, fixed-rate, taxable debt securities issued by US and non-US corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The Reference Index includes publicly issued securities by industrial, utility and financial institution issuers in global and regional markets.

Sector: Corporate (industrial, utility and financial institutions) issuers only.

Eligible currencies: Principal and interest must be denominated in USD.

Quality: Securities must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used.

Amount outstanding: Utilities:

- USD500mn minimum par amount outstanding.
- Industrial: USD1bn minimum par amount outstanding.
- Financial Institutions: USD1bn minimum par amount outstanding.

Coupon:

- Fixed-rate coupon.
- Callable fixed-to-floating rate bonds are eligible during their fixed-rate term only.

Invesco GBP Corporate Bond Screened & Tilted UCITS ETF (formerly Invesco GBP Corporate Bond ESG UCITS ETF)

The investment objective of the Invesco GBP Corporate Bond Screened & Tilted UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg MSCI Sterling Liquid Corporate Screened & Tilted Index (formerly Bloomberg MSCI Sterling Liquid Corporate ESG Weighted SRI Index) (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"), which includes the use of quantitative analysis, to select securities from the Reference Index using factors such as the index weighted average duration and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk and return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus. The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of sterling-denominated investment grade, fixed-rate, taxable securities issued by corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The Index includes publicly issued securities by industrial, utility and financial institution issuers.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 “Investment Objective and Policies” of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund’s investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco Emerging Markets USD Bond UCITS ETF

The investment objective of the Invesco Emerging Markets USD Bond UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Emerging Markets USD Sovereign Index (the "Reference Index"), less fees, expenses and transaction costs.

The Reference Index is designed to measure fixed and floating-rate US dollar-denominated debt issued by Emerging Markets governments.

Sector: Sovereign issues only.

Amount outstanding: At the security level, USD 500mn minimum par amount outstanding.

Country inclusion: The Index Provider uses a fixed list of emerging market countries that is reviewed annually to define country eligibility in dedicated emerging markets hard currency, local currency, and inflation-linked benchmarks. Criteria for inclusion in the emerging markets country list are rules-based and include:

- Countries that meet one of the following two criteria: World Bank Income group classifications of low/middle income or International Monetary Fund (IMF) classification as a non-advanced country.
- Additional countries that bond investors classify as emerging market due to factors such as investability concerns, the presence of capital controls, and/or geographic considerations may also be included on the list and are also reviewed on an annual basis. As of April 2014, 4 additional markets are included in the Bloomberg EM country list: Czech Republic, Israel, South Korea, and Taiwan.

Issue rating: Investment grade, high yield and unrated securities are permitted. Unrated bonds may use an implied issuer rating when not rated by a credit rating agency (Moody’s, S&P, and Fitch).

Invesco MSCI Europe Catholic Principles UCITS ETF (formerly Invesco MSCI Europe ESG Leaders Catholic Principles UCITS ETF)

The investment objective of the Invesco MSCI Europe Catholic Principles UCITS ETF (the "Fund") is to achieve the performance of the MSCI Europe Select Catholic Principles Selection 10/40 Index (formerly MSCI Europe Select Catholic Principles ESG Leaders 10/40 Index) (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer. Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards, spot foreign exchange transactions and contracts for difference. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

In order to be included in the Reference Index, securities must have between 1 and 5 years remaining to maturity, securities' principal and interest must be denominated in GBP and securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality.

To be eligible for inclusion in the Reference Index, bonds must have GBP 200mn minimum par amount outstanding. Gilts held by the Bank of England are eligible in the Reference Index. Both fixed-rate coupon and original zero-coupon issues are included in the Reference Index.

Invesco UK Gilts UCITS ETF

The investment objective of the Invesco UK Gilts UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Sterling Gilt Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of the GBP-denominated, fixed-rate, investment grade public obligations issued by the government of the United Kingdom.

The Reference Index tracks nominal gilt issues only and inflation linked bonds are not eligible for inclusion. The Reference Index is a component of the Sterling Aggregate, Pan-European Aggregate, Global Aggregate and Global Treasury Indices.

In order to be included in the Reference Index, securities must have at least one year to final maturity regardless of optionality, securities' principal and interest must be denominated in GBP and securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have GBP 200mn minimum par amount outstanding. Gilts held by the Bank of England are eligible in the Reference Index. Both fixed-rate coupon and original zero-coupon issues are included in the Reference Index.

Invesco MSCI World Universal Screened UCITS ETF (formerly Invesco MSCI World ESG Universal Screened UCITS ETF)

The investment objective of the Invesco MSCI World Universal Screened UCITS ETF (the "Fund") is to achieve the performance of the MSCI World Universal Select Business Screens Index (formerly MSCI World ESG Universal Select Business Screens Index) (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards, spot foreign exchange transactions and contracts for difference. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments and Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the country weights, industry sectors and liquidity.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk, return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Invesco EUR Government and Related Green Bond Weighted UCITS ETF (formerly Invesco EUR Government and Related Green Transition UCITS ETF)

The investment objective of the Invesco EUR Government and Related Green Bond Weighted UCITS ETF (the "Fund") is to provide the performance of the European government bond market by investing in an actively managed portfolio of government and government-related bonds that also factors certain environmental, social, and corporate governance ("ESG") criteria into the portfolio construction and maximises exposure to Green Bonds subject to exposure and liquidity considerations.

In order to achieve its investment objective, the Fund will generally invest in a portfolio of euro denominated government and government-related bonds predominantly issued by European issuers with an investment grade credit rating.

Securities are selected by the Investment Manager based on three criteria:

- compliance with the Fund's ESG policy (the "ESG Policy");
- maximising exposure to Green Bonds subject to specific exposure and liquidity considerations; and
- the overall ability of the Fund's portfolio to meet the targets set out in the "Benchmark" section of the Supplement to the Prospectus.

To qualify as eligible for investment by the Fund, a bond must be classified as treasury or government related at a Bloomberg BCLASS Classification Level 1 and must have an investment grade rating by the rating agencies S&P, Fitch or Moody's. Investment grade securities are those rated BBB- or higher by Standard and Poor's or Fitch and Baa3 or higher by Moody's. If the rating for a specific bond is unavailable, the rating of the issuer is to be used instead. Otherwise, unrated securities are eligible if they are determined by the Investment Manager to be of comparable quality to the above based on internal assessment of issuer credit quality. If the ratings of a bond differ between agencies, the middle rating is used to determine a bond's credit quality. If only two agencies rate a bond, the more conservative (lower) rating is used. If only one agency rates a bond, that single rating is used. If the credit rating of any security held by the Fund is downgraded below these respective ratings, the Investment Manager will liquidate this position at the earliest optimal opportunity, within 90 days of the downgrade, taking due account of the interests of its Shareholders.

Fixed and floating rate bonds are eligible for inclusion. The Fund may invest up to 10% of its assets in floating rate bonds.

The Fund will not invest in bonds that are in default at the time of investment. If a bond defaults subsequent to purchase by the Fund, the Investment Manager will determine in its discretion whether to hold or dispose of such security, taking due account of the interests of its Shareholders.

The Fund may invest up to 30% of its assets in bonds denominated in currencies other than euro. Exposure to exchange-rate fluctuations resulting from these investments will be hedged back to euro at the Investment Manager's discretion. The Fund will only invest in bonds from developed market issuers, unless an issuer is from the European Economic Area (EEA) in which case an emerging market issuer is eligible; it is not expected that the Fund would invest more than 10% of its assets in securities from emerging market issuers. The Fund may invest up to 30% of its assets in issuers not from the EEA.

Invesco MSCI China All Shares Stock Connect UCITS ETF

The investment objective of the Invesco MSCI China All Shares Stock Connect UCITS ETF (the "Fund") is to achieve the net total return of the MSCI China All Shares Stock Connect Select Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of large and mid-capitalisation stocks of the Chinese equity market across China A shares, China B shares, China H shares, Red chips, P chips and foreign listings (e.g. American Depositary Receipts ("ADRs")). The Reference Index aims to represent the performance of the opportunity set of China share classes listed in Hong Kong, Shanghai, Shenzhen and outside of China. It is based on the concept of the integrated MSCI China equity universe with Stock Connect eligible China A shares included.

The Reference Index is designed to reflect the performance of large and mid-capitalisation technology stocks of the Chinese equity market across China A shares, China B shares, China H shares, Red chips, P chips and foreign listings (e.g. American Depositary Receipts (“ADRs”)). The Reference index aims to represent the performance of a set of companies that are expected to derive significant revenue (as explained below) from the development of new products and services from technology innovations leading to breakthroughs in areas such as internet and digitisation, mobility, autonomous technology, industrial automation and digital healthcare. The Reference Index includes large and mid-cap A shares accessible through the Stock Connect program.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco FTSE All-World UCITS ETF

The investment objective of the Invesco FTSE All-World UCITS ETF (the "Fund") is to achieve the net total return of the FTSE All-World Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index” in the Supplement to the Prospectus.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"). In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the country weights, industry sector weights and liquidity.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 “Investment Objective & Policies” and section 5 “Investment Restrictions and Permitted Investments” of the Prospectus. The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use Of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus. The Fund may invest in China A shares via Stock Connect.

Further information relevant to the Fund’s investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Information on the Fund’s approach to sustainability risks in accordance with Article 6 of SFDR is set out in the Prospectus. The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment. Given the investment strategy of the Fund and its risk profile, the likely impact of sustainability risks on the Fund’s returns is expected to be low.

Invesco FTSE All Share Screened & Tilted UCITS ETF

The investment objective of the Invesco FTSE All Share Screened & Tilted UCITS ETF (the "Fund") is to achieve the net total return performance of the FTSE All Share ex Investment Trusts ESG Climate Select Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders’ interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards, spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments and Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on the generation and use of cleaner energy, conservation, efficiency and the advancement of renewable energy. It is mainly composed of companies focused in wind, solar, biofuels, hydro, wave, tidal, geothermal and other relevant renewable energy businesses, as well as energy conversion, storage, conservation, efficiency, materials relating to those activities, carbon and greenhouse gas reduction, pollution control, emerging hydrogen and fuel cells.

Invesco Wind Energy UCITS ETF

The investment objective of the Invesco Wind Energy UCITS ETF (the "Fund") is to achieve the net total return performance of the WilderHill Wind Energy Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to invest in companies whose innovative technologies focus on advancing wind energy and enabling its use, hence facilitating a transition to a lower carbon economy.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on advancing wind energy and helping to enable its use. The Reference Index comprises companies whose innovative technologies focus on advancing wind energy and enabling its use, facilitating a transition to a lower carbon economy through improving wind turbines and blades, providing materials used in wind energy, modernizing the grid and through innovations facilitating greater wind deployment or expanding its use. The Reference Index also comprises companies involved in onshore and offshore wind energy.

Invesco Hydrogen Economy UCITS ETF

The investment objective of the Invesco Hydrogen Economy UCITS ETF (the "Fund") is to achieve the net total return performance of the WilderHill Hydrogen Economy Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to invest in companies whose innovative technologies focus on advancing the use of hydrogen, fuel cells and the potential hydrogen economy, hence facilitating a transition to a lower carbon economy.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on advancing the use of hydrogen, fuel cells and the potential hydrogen economy. The Reference Index comprises companies involved in renewable green hydrogen activities which includes improvements in hydrogen generation, storage, conversion, uses in transportation, innovation, and advancement of fuel cells.

Invesco US Municipal Bond UCITS ETF

The investment objective of the Invesco US Municipal Bond UCITS ETF (the "Fund") is to achieve the total return performance of the ICE BofA US Taxable Municipal Securities Plus Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy").

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index with the goal of matching key characteristics of the Reference Index such as the weighted average duration, industry weights, issuer types, regional exposures and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy, the Fund may also hold securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition is expected to improve the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated.

Whilst the level of sampling will vary over the life of the Fund depending on asset levels of the Fund, market structure and other factors, including liquidity, degree of correlation across different subsets of the taxable municipal market, the volume of issuances in the taxable municipal bond market and the diversity of different types of issuing entities, it is generally expected that the Fund will hold a total number of securities that is significantly less that the number in the Reference Index– frequently less than 10% – though this may change and the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. The Fund will hold municipal securities (being debt securities issued by state and local governments in the United States, which are generally used to finance public projects), corporate bonds and other types of securities that may comprise the Reference Index.

The reason the Investment Manager expects to hold a significantly fewer securities than what is found in the Reference Index is that the issuance of municipal securities is frequently done in multiple, smaller issuances rather than in the less frequent, larger issues that are common in, for example, the investment grade corporate bond markets. As a result, the Reference Index has a very large number of individual securities with highly similar characteristics. It is these characteristics that the Investment Manager looks to replicate with the Sampling Strategy.

Invesco US Municipal Bond UCITS ETF (continued)

In addition, while the Investment Manager expects to manage the majority of inflows and outflows from the fund through purchase and sale of securities in the secondary market, the Investment Manager will participate significantly in the primary market as newly issued securities frequently exhibit attractive pricing and secondary market liquidity. These securities may not yet be included in the Reference Index and there is no guarantee that they will be included.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 “Investment Objective and Policies” of the Prospectus.

The Reference Index is designed to reflect the performance of US dollar denominated taxable municipal debt publicly issued by US states and territories, and their political subdivisions, in the US domestic market.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco S&P 500 Low Volatility UCITS ETF (continued)

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 “Investment Objective and Policies” and section 5 “Investment Restrictions and Permitted Investments” of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable until such time as the circumstances are addressed.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use Of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco S&P World Energy Targeted & Screened UCITS ETF (formerly Invesco S&P World Energy ESG UCITS ETF)

The investment objective of the Invesco S&P World Energy Targeted & Screened UCITS ETF (the "Fund") is to achieve the net total return of the S&P World Energy Targeted & Screened Index (formerly S&P World ESG Enhanced Energy Index) (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer. Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

Invesco Global Corporate Bond ESG Climate Transition UCITS ETF (formerly Invesco Global Corporate Bond ESG UCITS ETF)

The investment objective of the Invesco Global Corporate Bond ESG Climate Transition UCITS ETF (the "Fund) is to provide exposure to the performance of global investment grade ("IG") corporate bonds, whilst seeking to increase exposure to issuers that demonstrate a robust ESG profile.

In order to achieve the investment objective, the Fund will seek to track the total return performance of the Bloomberg MSCI Global Liquid Corporate Climate Transition ESG Bond Index (CTB) (formerly Bloomberg MSCI Global Liquid Corporate Climate Transition ESG Bond Index) (the "Reference Index"), less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy ("Sampling Strategy"), which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the index weighted average duration, industry sectors and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk, return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. Invesco ChiNext 50 UCITS ETF

The investment objective of the Invesco ChiNext 50 UCITS ETF (the "Fund") is to provide exposure to the performance of the most liquid companies listed on the ChiNext market of the Shenzhen Stock Exchange in China.

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the ChiNext 50 Capped Index (the "Reference Index"), less fees, expenses and transaction costs. Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

The Fund will generally seek to employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. When employing a replication method, the Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index.
There are circumstances, however, where gaining access to the components of the Reference Index may be prohibited by applicable legal, regulatory or similar reasons, may not otherwise be in Shareholders' interest or may not otherwise be possible or practicable. Such circumstances may include, but are not limited to, a suspension of trading or insufficient liquidity of the underlying securities comprising the Reference Index. Where employing a replication method is not reasonably possible, the Sub-Fund will employ a sampling strategy ("Sampling Strategy") to select securities from the Reference Index using factors such as the industry sectors and liquidity. Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy, the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated.

Invesco BulletShares 2030 USD Corporate Bond UCITS ETF

The investment objective of Invesco BulletShares 2030 USD Corporate Bond UCITS ETF (the "Fund") is to provide exposure to the performance of USD denominated investment grade ("IG") corporate bonds each with an Effective Maturity in 2030.

In order to achieve the investment objective, the Fund will seek to track the total return performance of the Bloomberg 2030 Maturity USD Corporate Bond Screened Index (the "Reference Index"), less fees, expenses and transaction costs.

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy ("Sampling Strategy"), which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the index weighted average duration, industry sectors and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy, the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk, return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

The Fund may invest up to 10% of its Net Asset Value in the corporate bonds of any one issuer.

The Fund has a fixed term and will terminate on the Maturity Date. Throughout the lifetime of the Fund, as the corporate bonds held by the Fund reach maturity, the cash received by the Fund will increase proportionately and will be invested in short maturity USD denominated debt issued by the US Treasury ("Treasury Securities") in a similar manner to the Reference Index. During the Maturity Year, as the corporate bonds continue to mature, the level of investment in Treasury Securities will increase and may constitute up to 35% of the Fund's Net Asset Value in a single Treasury Security or the Fund may invest up to 100% of its Net Asset Value in Treasury Securities provided that the Fund holds a minimum of six different Treasury Securities and no one security exceeds 30% of the Fund's Net Asset Value.

The Company will provide reasonable notice prior to the Maturity Date confirming the Maturity Date and providing further details on the fund termination process. On the Maturity Date the Fund will be redeemed by reference to the Net Asset Value of the respective Share Class of the Fund. Repurchase proceeds less fees, expenses and transaction costs will be paid in the relevant Share Class currency to Shareholders. The Fund will not distribute a predetermined or guaranteed return.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investment".

Invesco S&P 500 CTB Net Zero Pathway ESG UCITS ETF

The investment objective of Invesco S&P 500 CTB Net Zero Pathway ESG UCITS ETF (the “Fund”) is to provide exposure to large capitalisation listed US companies, whilst seeking to reduce exposure to risks arising from a transition to a lower carbon economy by tracking an index that adheres to the standards for EU Climate Transition Benchmarks as based on the commitments laid down in the Paris Agreement

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the S&P 500 CTB Base Pathway-Aligned ESG Index (formerly S&P 500 Climate Transition Base Pathway-Aligned ESG Index) (the “Reference Index”), less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index". The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index.

The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders’ interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank. Invesco EUR AAA CLO UCITS ETF

The investment objective of Invesco EUR AAA CLO UCITS ETF (the “Fund”) is to seek to provide consistent income and capital preservation over the long term.

In order to achieve the investment objective, the Fund will primarily invest in AAA-rated (or equivalently rated by a nationally recognised statistical rating organisation) tranches of Euro denominated floating rate debt securities issued by collateralised loan obligations ("CLOs”).

A CLO is a structure that issues fixed- or floating-rate debt securities that are collateralised by a pool of loans and bonds, which primarily include senior secured loans, broadly syndicated loans (i.e., loans with offering sizes that are typically greater than EUR250 million), floating rate notes, high yield bonds and subordinated corporate loans, including loans and bonds that may be rated below investment grade or equivalent unrated loans or bonds. The underlying loans and bonds in a CLO are selected by the CLO’s manager.

The Fund will invest in floating rate debt tranches of CLOs ("CLO Debt Securities"). The Fund will not invest in fixed rate debt tranches or equity tranches. The Fund may also invest in floating rate debt tranches of static CLOs which, unlike a typical CLO Debt Security, does not allow for active management of the underlying loan portfolio, meaning that once the loans and/or bonds are selected and placed in the CLO Debt Securities, there is no ability for the CLO manager to buy or sell loans and/or bonds except in very limited circumstances.

The Fund may invest in CLO Debt Securities of any maturity and tranche size.

The Fund may invest up to 10% of its net assets in securities that are denominated in currencies other than Euro. Exposure to exchange-rate fluctuations resulting from these investments will be hedged back to Euro at the Investment Manager’s discretion.

The Fund is subject to risk retention requirements under the European Securitisation Regulation (EU 2017/2402) such that the Fund may only invest in CLOs if the originator, sponsor or original lender of the CLO has disclosed that it retains, at issuance and on an on-going basis, a material net economic interest in the CLO of at least 5%. If the originator, sponsor or original lender of the CLO ceases to retain the requisite material net economic interest and that position will not be imminently rectified, the Investment Manager will arrange for disinvestment of the relevant CLO as soon as reasonably practicable, having due regard to the best interests of the Shareholders.

At least 80% of the CLO Debt Securities in which the Fund will invest will be AAA-rated (as rated by at least one rating agency) CLO Debt Securities. Up to 20% of CLO Debt Securities in which the Fund will invest may be below AAA-rated subject to such CLO Debt Securities being rated investment grade and predominantly comprising AA-rated CLO Debt Securities. If a security is downgraded subsequent to its purchase by the Fund, the Investment Manager will take such action as required as soon as reasonably practicable, taking due account of the interests of its Shareholders.

The majority of CLO Debt Securities that the Fund will invest in will be classified as 144A and/or RegS securities.

The Fund will not invest in CLO Debt Securities where Invesco, or a subsidiary, is acting as the CLO manager.

The Fund may also invest a portion of its assets in cash or other short-term instruments, such as money market instruments (Euro-denominated government bonds and short-dated government bonds) or, money market funds, for the purpose of liquidity management purposes and managing redemptions.

Invesco USD AAA CLO UCITS ETF

The investment objective of Invesco USD AAA CLO UCITS ETF (the “Fund”) is to seek to provide consistent income and capital preservation over the long term.

In order to achieve the investment objective, the Fund will primarily invest in AAA-rated (or equivalently rated by a nationally recognised statistical rating organisation) tranches of US Dollar denominated floating rate debt securities issued by collateralised loan obligations ("CLOs”).

The Fund may invest in fixed rate tranches of CLO Debt Securities up to a maximum of 15% of its net assets. The Fund may also invest in "middle-market CLOs", which are CLO Debt Securities whose underlying loan collateral are substantially comprised of middle-market loans (i.e. loans with offering sizes generally below USD$250million). The Fund may invest up to 15% of its net assets in middle market CLO Debt Securities.

The Fund may invest in CLO Debt Securities of any maturity and tranche size.

The Fund may invest up to 20% of its net assets in securities that are denominated in currencies other than US Dollar. Exposure to exchange-rate fluctuations resulting from these investments will be hedged back to US Dollar at the Investment Manager's discretion.

Invesco MSCI Europe Equal Weight UCITS ETF

The investment objective of Invesco MSCI Europe Equal Weight UCITS ETF (the "Fund") is to provide exposure to the performance of equally weighted large and mid-capitalisation companies in European developed markets.

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the MSCI Europe Equal Weighted Index (the "Reference Index"), less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index".

The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. Further information in relation to how the Fund will seek to replicate the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco S&P 500 Quality UCITS ETF

The investment objective of Invesco S&P 500 Quality UCITS ETF (the "Fund") provide exposure to the performance of large capitalisation listed US companies displaying high quality characteristics as assessed by quality score.

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the S&P 500 Quality Index (the "Reference Index") less fees, expenses and transaction costs.

The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. Invesco UK Gilt 15+ Year UCITS ETF

The investment objective of the Fund is to provide exposure to the performance of GBP denominated, fixed rate, investment grade ("IG") government debt issued by the United Kingdom with at least 15 years remaining to maturity.

In order to achieve the investment objective, the Fund will seek to track the total return performance of the Bloomberg UK Gilt 15+ Index (the "Reference Index"), less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index".

In tracking the Reference Index, the Investment Manager applies a sampling strategy ("Sampling Strategy") which includes the use of quantitative analysis, to select securities from the Reference Index using factors such as the index weighted average duration and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank. The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Invesco Europe Enhanced Equity UCITS ETF

The investment objective of the Fund is to achieve a long-term return in excess of the Benchmark by investing in an actively-managed portfolio of European equities.

In order to achieve the investment objective, the Fund will invest primarily in a portfolio of equity and equity-related securities including warrants (received only as a result of corporate actions), tracking stocks (i.e. a special stock offering issued by a company which tracks the financial performance of a particular segment or division of that company) and depositary receipts of companies from Europe. Securities are selected based on three criteria: 1) attractiveness determined in accordance with the Sub-Investment Manager's quantitative investment model; 2) consistency between the portfolio's expected risk characteristics and the Fund's investment objective, and 3) compliance with the Fund's ESG Policy.

The Investment Manager is responsible for the oversight of the Fund's portfolio and its risk management and delegates responsibility for defining the investment universe and the optimisation approach used in the portfolio construction to the Sub-Investment Manager.

Initial Investment Universe
The initial step in the investment process entails the Sub-Investment Manager defining a proprietary universe of European equity securities (the "Initial Investment Universe"). The Initial Investment Universe comprises approximately 500 companies selected by the Sub-Investment Manager based on their liquidity and free- float adjusted market capitalisation such that the Initial Investment Universe comprises the most liquid European equity securities which are classified as large- and mid-cap in terms of free-float adjusted market capitalisation.

ESG Policy
Screening will be employed to exclude from the Initial Investment Universe securities issued by issuers which derive or generate a predetermined level of revenue or turnover from activities such as (but not limited to), production of tobacco, activities related to coal (specifically production and distribution of hard coal and lignite) and any activities related to controversial weapons. All issuers considered for investment will be excluded if they are engaged in very severe controversies, they will also be screened for compliance with, and excluded if they do not meet, UN Global Compact principles, based on third-party data. For more information on the ESG Policy and the criteria detailed therein, please refer to the website etf.invesco.com and to the annex to this Supplement.

The Fund's compliance with the ESG Policy will be reviewed on an ongoing basis by the Sub-Investment Manager. Where a previously eligible security subsequently ceases to meet the Fund's ESG Policy or where the Fund acquires a security as a result of a corporate action and such security does not meet the Fund's ESG Policy, the Sub-Investment Manager will ensure disinvestment when it next rebalances the portfolio, having due regard to the best interests of the Shareholders and subject to liquidity and regulatory factors.

Portfolio Construction Approach
Following the application of the ESG Policy to the Initial Investment Universe, the Sub-Investment Manager applies an optimisation process based on three major factors: Value, Quality and Momentum. The Sub-Investment Manager uses factor definitions developed by the Sub-Investment Manager that are designed to deliver superior investment results relative to standard publicly available factor definitions used by, among others, the leading index providers in the market. The factors can be broadly described as follows:

i Value: This investment factor aims to capture the potential outperformance of companies that are perceived to be "inexpensive" relative to sector or market averages, where such determination is based primarily on various financial ratios such as cashflow yield and price to earnings ratio.

ii Quality: This investment factor aims to capture the potential outperformance of stocks that demonstrate a stronger balance sheet (e.g. lower levels of debt, higher profit margins) relative to sector or market averages.

iii Momentum: This investment factor aims to capture the potential continued outperformance of those stocks whose historical share price performance or earnings growth have exceeded sector or market averages.

The Sub-Investment Manager uses its proprietary model to rank all stocks in the Initial Investment Universe according to its attractiveness with respect to each of the above-mentioned factors.

Rankings are conducted within industry groups to ensure comparability. The optimisation then looks to maximize the exposure of the Fund to the above-mentioned factors. This optimisation explicitly includes a consideration of the transaction costs.

Whilst the Fund will hold a number of constituents of the Benchmark, the Fund may also hold securities that are not constituents of the Benchmark, and the number of securities held by the Fund will generally be significantly less than the number of constituents of the Benchmark. Therefore, it is expected that the composition of the Fund will vary significantly from that of the Benchmark. However, the Investment Manager will seek to manage the Fund's risk profile relative to that of the Benchmark and so will consider the relative composition of the portfolio against the Benchmark and seek to optimise the Fund at the regular rebalancing such that in normal market conditions:
i.the Fund's exposure to individual countries weights is within a +/-1.5% range relative to the Benchmark;

ii.the Fund's exposure to issuers that are also constituents of the Benchmark will have weights that do not exceed +1% relative to the Benchmark, while the Fund's exposure to issuers that are not constituents of the Benchmark will not exceed a security weight of 1%;

iii.the Fund's exposure to individual industries and sectors weights is within +/- 2% range relative to the Benchmark;

iv.the beta of the Fund compared to the Benchmark is within the range of 0.99-1.01; and

v.the target (ex-ante) annualized tracking error of the Fund and the Benchmark is approximately 1% and shall not exceed 2%.

This entire ranking, risk modelling and portfolio construction process is repeated each month, following which the Fund's holdings are rebalanced by the Investment Manager in line with the new target portfolio holdings provided by the Sub-Investment Manager.

The target (ex-ante) tracking error of the Fund referred to in (v), above, is the result of the optimisation while applying these constraints to manage the Fund's risk profile. The purpose of measuring the ex-ante tracking error is to assist in ensuring that the risk profile of the Fund remains comparable to that of the Benchmark, not to represent how closely the Fund will resemble the Benchmark or how the Fund will perform compared to the Benchmark.
While the Fund does not have a targeted absolute return due to the changing volatility and return characteristics of equity markets, the Fund generally expects to achieve a return in excess of the Benchmark in normal market conditions while offering a comparable risk profile as the Benchmark. There is potential that the Fund may not outperform the Benchmark or that it may only generate relatively low net returns in excess of the Benchmark.

The Sub-Investment Manager uses its proprietary model to rank all stocks in the Initial Investment Universe according to its attractiveness with respect to each of the above-mentioned factors.

Rankings are conducted within industry groups in each region to ensure comparability. The optimisation then looks to maximize the exposure of the Fund to the above-mentioned factors. This optimisation explicitly includes a consideration of the transaction costs.

Securities are selected based on two criteria: 1) attractiveness determined in accordance with the Sub-Investment Manager's quantitative investment model; and 2) consistency between the portfolio's expected risk characteristics and the Fund's investment objective.

The Investment Manager is responsible for the oversight of the Fund's portfolio and its risk management and delegates responsibility for defining the investment universe and the optimisation approach used in the portfolio construction to the Sub-Investment Manager.

Initial Investment Universe
The initial step in the investment process entails the Sub-Investment Manager defining a proprietary universe of US equity securities (the "Initial Investment Universe"). The Initial Investment Universe comprises approximately 650 companies selected by the Sub-Investment Manager based on their liquidity and free-float adjusted market capitalisation such that the Initial Investment Universe comprises the most liquid US equity securities which are classified as large- and mid-cap in terms of free-float adjusted market capitalisation. 4

Portfolio Construction Approach

Following the definition of the Initial Investment Universe, the Sub-Investment Manager applies an optimisation process based on three major factors: Value, Quality and Momentum. The Sub-Investment Manager uses factor definitions developed by the Sub-Investment Manager that are designed to deliver superior investment results relative to standard publicly available factor definitions used by, among others, the leading index providers in the market. The factors can be broadly described as follows:

i Value: This investment factor aims to capture the potential outperformance of companies that are perceived to be "inexpensive" relative to sector or market averages, where such determination is based primarily on various financial ratios such as cashflow yield and price to earnings ratio.

ii Quality: This investment factor aims to capture the potential outperformance of stocks that demonstrate a stronger balance sheet (e.g. lower levels of debt, higher profit margins) relative to sector or market averages.

iii Momentum: This investment factor aims to capture the potential continued outperformance of those stocks whose historical share price performance or earnings growth have exceeded sector or market averages.

The Sub-Investment Manager uses its proprietary model to rank all stocks in the Initial Investment Universe according to its attractiveness with respect to each of the above-mentioned factors.

Rankings are conducted within industry groups to ensure comparability. The optimisation then looks to maximize the exposure of the Fund to the above-mentioned factors. This optimisation explicitly includes a consideration of the transaction costs.

Whilst the Fund will hold a number of constituents of the Benchmark, the Fund may also hold securities that are not constituents of the Benchmark, and the number of securities held by the Fund will generally be significantly less than the number of constituents of the Benchmark. Therefore, it is expected that the composition of the Fund will vary significantly from that of the Benchmark. However, the Investment Manager will seek to manage the Fund's risk profile relative to that of the Benchmark and so will consider the relative composition of the portfolio against the Benchmark and seek to optimise the Fund at the regular rebalancing such that in normal market conditions:

i. the Fund's exposure to issuers that are also constituents of the Benchmark will have weights that do not exceed +1% relative to the Benchmark, while the Fund's exposure to issuers that are not constituents of the Benchmark will not exceed a security weight of 1%;

ii. the Fund's exposure to individual industries and sectors weights is within +/- 2% range relative to the Benchmark;

iii. the beta of the Fund compared to the Benchmark is within the range of 0.99-1.01; and

iv. the target (ex-ante) annualized tracking error of the Fund and the Benchmark is approximately 1% and shall not exceed 2%.

This entire ranking, risk modelling and portfolio construction process is repeated each month, following which the Fund's holdings are rebalanced by the Investment Manager in line with the new target portfolio holdings provided by the Sub-Investment Manager.

The target (ex-ante) tracking error of the Fund referred to in (iv), above, is the result of the optimisation while applying these constraints to manage the Fund's risk profile. The purpose of measuring the ex-ante tracking error is to assist in ensuring that the risk profile of the Fund remains comparable to that of the Benchmark, not to represent how closely the Fund will resemble the Benchmark or how the Fund will perform compared to the Benchmark.

Invesco US Enhanced Equity UCITS ETF (continued)

While the Fund does not have a targeted absolute return due to the changing volatility and return characteristics of equity markets, the Fund generally expects to achieve a return in excess of the Benchmark in normal market conditions while offering a comparable risk profile as the Benchmark. There is potential that the Fund may not outperform the Benchmark or that it may only generate relatively low net returns in excess of the Benchmark

Other Investments

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes.

The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, and non-deliverable forwards.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco EURO STOXX 50 Equal Weight UCITS ETF

The investment objective of the Fund is to provide exposure to the performance of equally weighted large capitalisation companies in the Eurozone.

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the EURO STOXX 50 Equal Weight Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index".

The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to replicate the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments and Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS, open ended CIS or closed ended collective investment funds that meet the requirements of the Central Bank (and, in the case of closed ended collective investment funds, that qualify as transferable securities.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Directors' Report (Unaudited)

The Directors present herewith the Annual Report and Audited Financial Statements for the financial year ended 31 December 2025.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the audited Financial Statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union, the Companies Act 2014 (as amended) and the applicable regulations.

Irish company law requires the Directors to prepare Financial Statements for each financial year. Under the law, the Directors have elected to prepare the Company's Financial Statements in accordance with IFRS as adopted by the European Union. Under company law, the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the company for the financial year and otherwise comply with the Companies Act 2014 (as amended).

In preparing those Financial Statements, the Directors are required to:

- select suitable accounting policies for the Company Financial Statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the Financial Statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the Financial Statements. These Financial Statements have been prepared on a going concern basis. Please see liquidity risks outlined in note 2(d).

The Directors are responsible for keeping adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy and which enable them to ensure that the Financial Statements are prepared in accordance with IFRS as adopted by the European Union and comply with the provisions of the Companies Act 2014 (as amended), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (the "Central Bank UCITS Regulations"), the Listing Rules of the various stock exchanges and enable the Financial Statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In this regard, BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") has been appointed for the purpose of maintaining adequate accounting records and The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") have been appointed for the purpose of safeguarding the assets of the Company. The accounting records are maintained at the Administrator's registered offices at The Shipping Office, 20-26 Sir John Rogerson's Quay, Dublin 2, Ireland.

The Financial Statements are published on the etf.invesco.com website. The Directors are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

Principal activities

The investment objective of each Fund is to seek to provide Redeemable Shareholders/Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by directly or indirectly purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. Please refer to pages 14 to 54 for the Investment Objectives of each Fund.

Results for the financial year

The results of operations for the financial year are set out in the Statement of Comprehensive Income.

Corporate governance statement

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

On 8 December 2015, the Board of Directors formally adopted the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. This publication is available from the IF website (www.irishfunds.ie).

The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

Corporate governance statement (continued)

As at 31 December 2025, the Company is in compliance with the IF Code. The Company is also subject to corporate governance practices imposed by:

(i) The Companies Act 2014 (as amended) which is available for inspection at the registered office of the Company and may also be obtained at: www.irishstatutebook.ie;
(ii) The Constitutional Documents of the Company which are available for inspection at the registered office of the Company at Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
(iii) The Central Bank of Ireland in the Central Bank UCITS Regulations which can be obtained from the website at: www.centralbank.ie;
(iv) Deutsche Börse through the trading model of XETRA for shares (including ETFs) which can be obtained from the Deutsche Börse website at: www.deutscheboerse.com; and
(v) The Irish Stock Exchange ("ISE") trading as Euronext Dublin continuing obligations requirements for open-ended Funds which can be obtained from the ISE website at: www.ise.ie;
(vi) The Swiss Stock Exchange ("SIX") continuing obligations requirements for investment Funds which can be obtained from the SIX website at: www.six-group.com; and
(vii) The Euronext Amsterdam and Milan Exchanges through their Rules and Regulations which can be obtained from the Euronext website at: https://www.euronext.com.
(viii) The Bolsa Mexicana de Valores ("BMV") continuing obligations requirements for investment Funds which can be obtained from the BMV website at www.bmv.com.mx.
(ix) The Bolsa Institucional de Valores ("BIVA") listing guide which can be obtained at https://www.biva.mx/.
(x) The Tel Aviv Stock Exchange through the TASE Regulations which can be obtained at https://www.tase.co.il/en.

By virtue of the listing on the ISE, certain Funds are admitted to trading on the London Stock Exchange ("LSE") on a "cross listing" basis. In the context, however, of corporate governance, the Funds are not subject to the listing requirements of the London Stock Exchange but instead comply with those of the ISE. In respect of Funds admitted to trading on Xetra or SIX, the Funds are listed directly with the exchanges and are required to comply with the listing requirements of the local jurisdiction. Please refer to listing details on pages 16 and 17.

Board Diversity

The Board considers that diversity in its membership is beneficial and therefore seeks to ensure that the Board's size, structure and composition, including skills, knowledge, experience and diversity is sufficient for the effective direction and control of the Company. However, as the Board is committed to appointing the most appropriate candidates as Directors of the Company, it has not set any measurable objectives in respect of this policy.

Internal control and risk management systems

The Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process.

The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and semi-annual Financial Statements. The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") as its administrator consistent with the regulatory framework applicable to investment Fund companies such as the Company.

The Administrator has functional responsibility for the preparation of the Company's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator, the Board of Directors (the "Board") noted that it is regulated by the Central Bank of Ireland and, in the Board's opinion, has significant experience as an administrator.

The Board also noted the independence of the Administrator from the Company's Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the Financial Statements prior to their approval, though it should be noted that such review does not include verification of information in the Financial Statements to underlying documents. The annual Financial Statements are subject to independent audit by PricewaterhouseCoopers (the "Auditor") and the Board receives and considers a report from the Auditor as to the audit process.

This report includes observations as to the extent to which (i) the annual Financial Statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide Financial Statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditor during the audit process. The Auditor presents this report at the board meeting at which the Financial Statements are presented to the Board for approval. The Board also invites the Auditor to attend the board meeting prior to the commencement of the audit, at which the Auditor presents the audit plan to the Board.

Shareholders' meetings

The convening and conduct of Shareholders' meetings are governed by the constitutional documents of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a Shareholders' meeting.

Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the Auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two Shareholders present either in person or by proxy constitutes a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote and the holders of Subscriber shares shall have one vote in respect of all of the Subscriber shares in issue. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him.

Docusign Envelope ID: 38B14D9B-7016-8347-823D-5C9D3BB49723

Shareholders' meetings (continued)

The chairperson of a general meeting of the Company or at least two Shareholders present in person or by proxy having the right to vote at the meeting or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. An ordinary resolution of the Company or of the Shareholders of a particular Fund or Class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Fund or Class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the constitutional documents of the Company.

Composition of the Board of Directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board is composed of four Directors.

The business of the Company is managed by the Directors.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairperson has a casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The Board has not appointed, nor does it intend to appoint, a Director from the Company's Investment Manager as recommended in section 4.2 of the Corporate Governance Code. This decision is consistent with the Investment Manager's policy not to have a representative on the board of any entities for which it provides Investment Management services and is intended to ensure the independence of each such board.

The Directors of the Company are described below:

Gary Buxton – *Non-Executive Director*

Mr. Gary Buxton, Head of EMEA ETFs for Invesco is responsible for Product and Sales Strategy, Product Implementation and Capital Markets in EMEA, having joined Invesco in August 2017 on its acquisition of Source.

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS

For the period from 1st January 2025 to 31st December 2025 (the "**Period**")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "**us**", "**we**", or "**our**"), has enquired into the conduct of Invesco Markets II plc (the "Company") for the Period, in its capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as Depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as Depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and

(ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

Independent auditors' report to the members of Invesco Markets II plc

Report on the audit of the financial statements

Opinion

In our opinion, Invesco Markets II plc's financial statements:

- give a true and fair view of the company's and funds' assets, liabilities and financial position as at 31 December 2025 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements (the "Annual Report"), which comprise:

- the Statement of Financial Position as at 31 December 2025;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flow for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2025; and
- the notes to the financial statements, which include a description of the accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided.

Other than those disclosed in note 6 to the financial statements, we have provided no non-audit services to the company in the period under audit.

Our audit approach

Overview

Audit scope

- The Company is an open-ended investment Company with variable capital and engages Invesco Investment Management Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting

processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.

Key audit matters

- Valuation of financial assets and financial liabilities at fair value through profit or loss
- Existence of financial assets and financial liabilities at fair value through profit or loss

Materiality

- Overall materiality: 50 basis points (2024: 50 basis points) of Net Assets Value ("NAV") at 31 December 2025 (2024: 31 December 2024) for each of the company's funds.
- Performance materiality: 75% (2024: 75%) of overall materiality.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
Valuation of financial assets and financial liabilities at fair value through profit or loss	
Refer to the individual schedule of investments, material accounting policies - Note 1(c) and (d)), and financial risks - Note 2 . The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each Fund at 31 December 2025 are valued at fair value in line with IFRS as adopted by the European Union. This is considered a key audit matter as it represents a principal element of the financial statements.	As of 31 December 2025, the Funds held a range of securities, including equities, bonds, debt securities, investment funds, futures contracts and forward exchange contracts. We reviewed the controls surrounding the valuation of investments detailed in the administrator's controls report. We tested the valuation of the financial assets and financial liabilities at fair value through profit or loss by independently obtaining price quotations from third party vendor sources (where available) for the investments of each Fund included within the financial statements. In the absence of third party vendor sources being available, we considered the appropriateness of Management's valuation by considering the specific circumstances of the investments and by reviewing the relevant supporting documentation. No material misstatements were identified as a result of the procedures performed.

Existence of financial assets and financial liabilities at fair value through profit or loss	
Refer to the individual schedule of investments, material accounting policies - Note 1(c) and (d)), and financial risks - Note 2 . The financial assets and liabilities at fair value through profit or loss as at 31 December 2025 are comprised primarily of equities, bonds, debt securities and investment funds held by the depositary. The forward foreign exchange contracts and future contracts are held with counterparties. This is considered a key audit matter as it represents a principal element of the financial statements.	We reviewed the controls surrounding the safe-keeping and reconciliation of investment positions detailed in the administrator's controls report. We obtained independent confirmation from the Depositary and counterparties for the investments held at 31 December 2025, agreeing the amounts held to the accounting records of each Fund and evaluated any material differences identified. We took a risk based approach to the confirmation of forward currency contracts whereby we obtained a counterparty confirmation of all forward contracts with a fair value on a sub fund basis greater than performance materiality. Where an independent confirmation could not be obtained, liquidation procedures were performed. No material misstatements were identified as a result of the procedures performed.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2025 there are 90 Funds under audit. The Company's Statement of Financial Position, Statement of Comprehensive Income, Statement of Cash Flow and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the Funds. The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to Invesco Capital Management LLC (the 'Investment Manager') and to BNY Mellon Fund Services (Ireland) DAC (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the funds as follows:

Overall materiality and how we determined it	50 basis points (2024: 50 basis points) of Net Assets Value ("NAV") at 31 December 2025 (2024: 31 December 2024) for each of the company's funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns..

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance

materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2024: 75%) of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2024: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the ability of the company and the funds to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the nature of the Company and the Funds
- Obtaining management's assessment of going concern which included the key indicators that are monitored with response to the going concern assumption and management's future plans for the Company and the Funds over the going concern period (being 12 months from the date of approval of the financial statements)
- Consideration of post period end capital activity
- Reviewing the liquidity profile of the liabilities as detailed in note 2 (D) Liquidity Risk. as recorded in the underlying accounting records
- Enquiring of management with respect to any plans to terminate any of the Funds
- Agreeing the liquidity risk management techniques which are available to the Company and its Funds (as per note 2 (D) Liquidity Risk to legal documents; and

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ability of the company and the funds to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the ability of the company and the funds to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Directors' Report.
- In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2) of the Companies Act 2014.
- Based on our knowledge and understanding of the company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 and regulation 6 of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 is contained in the Corporate Governance Statement.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 62, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the ability of the company and the funds to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of

override of controls), and determined that the principal risks were related to Risk of Management Override of Control.. Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations
- Identifying and testing year end journal entries that met our specific risk based criteria
- Testing material accounting estimates and judgements and considered potential for management bias
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing
- Reviewing minutes of the meetings of the Board of Directors; and
- Reviewing financial statement disclosures and agreeing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at: https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Other exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 14 November 2016 to audit the financial statements for the year ended 31 December 2016 and subsequent financial periods. The period of total uninterrupted engagement is 10 years, covering the years ended 31 December 2016 to 31 December 2025.
