

Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Xtrackers Portfolio Income UCITS ETF

Share class: 1D, ISIN: IE00B3Y8D011, Security code: A1C1G8, Currency: EUR

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy is to achieve a positive mid- to long-term investment performance through exposure to a balanced and diversified portfolio comprised primarily of exchange-traded funds (ETFs) linked to equities, fixed income and/or commodities and issued by Xtrackers, Xtrackers II and Xtrackers (IE) plc; the fund may also invest from time to time directly in transferable securities, money market instruments or other collective investment schemes (Invested Assets). The composition of the Invested Assets will be based on the primary aim of creating a total return strategy which seeks to benefit from capital appreciation and income generated by the exposures of the Invested Assets, while limiting volatility. In seeking to achieve the objective, the investment manager, DWS Investments GmbH, will provide the composition of the Invested Assets to the sub-portfolio manager, DWS Investments UK Limited, on a scheduled quarterly basis (each a quarterly asset selection date) and at such other

times as the investment manager may in its discretion determine, based on which the sub-portfolio manager will perform the day-to-day management of the portfolio. Such proposed composition is subject to the following weighting restrictions, as at each quarterly asset selection date: (i) the weighting of the ETFs that have equities as an asset class can be between 15% and 30%, (ii) the weighting of the ETFs that have fixed income as an asset class can be between 60% and 85%, and (iii) the weighting of the ETFs that have commodities as an asset class can be up to 10%. The fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the fund. Certain information (including the latest share prices of the fund, indicative net asset values and full disclosure on the composition of the fund's portfolio) is available on your local DWS website or at www.Xtrackers.com. The currency of the fund is EUR. The fund distributes semi-annually. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 4 because its share price fluctuates and the likelihood of both losses and gains may therefore be relatively high. The following risks could be of particular significance for the fund: The fund may invest in ETFs which may enter into a derivative with a counterparty. If the counterparty fails to make payments (for example, it becomes insolvent) this may result in your investment

suffering a loss. The fund may invest in ETFs which are exposed to less economically developed economies (known as emerging markets) which involve greater risks than well developed economies. Political unrest and economic downturn may be more likely and will affect the value of such an ETF and your investment. DWS entities and related companies may act in several roles in relation to the fund such as distributor, management company, investment manager and sub-portfolio manager which may involve conflicts of interest. The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. The fund relies upon the performance of the investment manager, sub-portfolio manager, and/or the ETFs selected. If the investment manager, sub-portfolio manager and/or the ETFs selected perform poorly the value of your investment is likely to be adversely affected.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.44 %
Charges taken from the fund under certain specific conditions	
Performance fee	None
Securities lending fees	0.00 %

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2022. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

To the extent the fund undertakes securities lending to generate revenue, the fund will ultimately be allocated 70% of the associated revenue, the securities lending agent, which will be a DWS entity or other Deutsche Bank entity, will be allocated 15% and the remaining 15% will be allocated to the DWS entity which monitors such activities, as set out in the sales prospectus. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the ongoing charges.
