Objectives

Investment objective The objective of the Fund is to track the performance of the UK Government bond (Gilt) market for securities with a maturity of over 15 years.

The Fund seeks to track the performance of the Bloomberg Sterling 15+ Year Aggregate Gilts Bond Index (the "Index") as closely as possible.

The Fund is an index tracking fund (also known as a passively managed fund).

Investment policies The Fund invests primarily in securities included in the Index. These securities will include public (government) obligations of the United Kingdom with a maturity of over 15 years. The Fund seeks to hold all the securities of the Index with the approximate weightings as in that Index. The Fund will use a replication strategy to create a near mirror-image of the Index. Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be paid to shareholders in respect of the shares.

The Shares of the GBP Class are issued in Pound Sterling.
