iSHARES V PLC

BACKGROUND

iShares V public limited company (the “Entity”) is an open-ended investment company with variable capital. The Entity was incorporated in Ireland on 2 December 2009 with limited liability and segregated liability between its funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland (“CBI”) as a public limited company pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Entity is structured as an umbrella fund and comprises of separate funds (“Fund”) of the Entity. The shares of each Fund may be grouped into different classes of shares (each a “share class”). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes.

The term “Fund” or “Financial Product” shall be deemed to mean either a Fund or Funds of the Entity, or if the context so requires, the Manager or its delegate acting for the accounts of the relevant Fund. The term “BlackRock” and “Investment Manager” are used to represent BlackRock Advisors (UK) Limited as appropriate. All references to “redeemable shares” shall be deemed to mean redeemable participating shares when Fund shares are classified as financial liabilities. The term “Directors” means the directors of the Entity.

Further details, including the investment objectives and minimum subscription requirements, are set out in the Entity’s prospectus.

Fund details

The Entity had 35 Funds approved in Switzerland for sale to unqualified investors as at 31 May 2023.

These Funds are Exchange Traded Funds (“ETFs”), which provide the flexibility of a share with the diversification of a Fund, can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

Changes to the Entity during the financial period

On 19 December 2022, an updated prospectus was issued to reflect a change in the Board of Directors, updates for German taxation and a change in classification for iShares Agribusiness UCITS ETF to an Article 8 Fund under Sustainable Finance Disclosure Regulation (“SFDR”).

On 29 December 2022, an updated prospectus was issued to include Schedule VII with pre-contractual disclosures for Funds which promote environmental or social characteristics.

On 16 January 2023, Sanne Corporate Administration Services (Ireland) Limited, Secretary of the Manager, was renamed Apex Group Corporate Administration Services Ireland Limited.

On 16 March 2023, Jessica Irschick resigned as non-executive Director.

On 9 May 2023, an updated prospectus was issued by the Entity to reflect the name change of the Secretary and a change in the Board of Directors.

The following share classes were launched during the financial period:

Fund name	Share class	Launch date
iShares Italy Govt Bond UCITS ETF	EUR (Acc)	23 May 2023

Further information on the index investment strategies used is detailed below:

For physically replicating funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index over a defined period of time.

For non-replicating funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the benchmark index net of transaction costs and gross of fees and other cost.

Performance summary and tracking error

The following table compares the realised Fund performance against the performance of the relevant benchmark index during the financial period ended 31 May 2023. It also discloses the anticipated tracking error of the Fund (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Funds as at 31 May 2023.

Further information on these performance measures and calculation methodologies used is detailed below:

- Fund returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. The primary share class represents the class of share invested in by the majority of investors in the Fund and also takes into account other relevant factors such as the Fund's base currency. The returns disclosed for the comparative are in the same currency as the primary share class, unless otherwise stated. Performance returns for any other share class can be made available on request.
- For Funds that commenced trading and/or fully redeemed during the financial period, returns are shown from the date the Fund commenced trading and/or to the date the Fund fully redeemed, and the total expense ratio ("TER") is the effective TER from the date the Fund commenced trading and/or to the date the Fund fully redeemed.
- Fund returns are based on the NAV calculated in accordance with the prospectus for the financial period under review with any dividends reinvested. Returns less than 0.005% are rounded down to zero. Where, due to a public holiday or market closure, a date relevant to determination of the fund returns would not be a dealing day (such that a NAV would not otherwise be calculated on that day), a NAV may nevertheless be determined and calculated in accordance with the prospectus for the purposes of these disclosures. Additionally, due to Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus.

INVESTMENT MANAGER'S REPORT (continued)

Performance summary and tracking error (continued)

- Anticipated tracking error is based on the expected volatility of differences between the returns of a fund and the returns of its benchmark index.
- Realised tracking error is the annualised standard deviation of the difference in monthly returns between a fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Net income difference and tax may also impact tracking error due to withholding tax suffered by the Fund on any income received from its investments. The level and quantum of tracking error arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Fund with various tax authorities, any benefits obtained by the Fund under a tax treaty or any securities lending activities carried out by the Fund. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

INVESTMENT MANAGER'S REPORT (continued)

Global economic overview

Global equities, as represented by the MSCI All Country World Index ("ACWI"), returned 3.44% (in US dollar terms) for the six months ended 31 May 2023. Equities recovered from pessimism induced by high inflation (rate of increase in the prices of goods and services) and rising interest rates, as inflation rates began to slow in some regions. While investors remained focused on the possibility of a global economic downturn, some indicators of continued resilience, such as consumer spending and the labour market, tempered their concerns.

The US economy grew at a modest pace in the fourth quarter of 2022 and the first quarter of 2023 as both consumer and government spending rose. The US job market showed continued strength, and unemployment declined to the lowest level in over 50 years. In Japan, the economy grew in the first quarter of 2023, helped by rising private consumption. The UK economy grew marginally in the fourth quarter of 2022 and the first quarter of 2023 amid weakness in both consumer spending and public expenditure. Growth was nearly flat in the Eurozone as consumer demand was tempered by inflation and increased borrowing costs.

Economic growth was generally slow among emerging market nations as the global economy cooled. The Chinese economy continued to grow at a slow pace relative to the country's historical growth rate, but a relaxation of strict COVID-19 protocols drove investor optimism for an economic rebound. However, on an annual basis, the Indian economy picked up in the first quarter of 2023, as private spending and manufacturing grew.

Amid elevated global inflation, the world's largest central banks continued to implement measures aimed at monetary tightening, although the pace of tightening slowed in some regions. The US Federal Reserve ("the Fed") raised interest rates at each of its four meetings, but twice stepped down the pace of its increases. The Fed also continued to reduce some of the accumulated bond holdings on its balance sheet.

The Bank of England ("BoE") raised interest rates four times, as inflation remained high despite showing some signs of easing. The European Central Bank ("ECB") also increased interest rates at each of its four meetings in an effort to control rising prices in the Eurozone. Furthermore, the ECB began to reduce the size of its balance sheet in March 2023 by allowing some of its outstanding bonds to mature without reinvestment.

Global equity performance was positive overall, as inflationary pressure eased somewhat. European stocks performed particularly well as new energy supplies and warm winter weather allayed concerns surrounding the disruption of Russian gas supplies. Meanwhile, Asian stocks gained as Japan's economy picked up and investor interest in semiconductor companies surged, while US stocks were buoyed by decelerating Fed tightening. Equities in emerging markets were nearly flat, as bank failures in the US and Europe drove increased investor caution.

Global bond prices rose overall, as moderating inflation led investors to anticipate an end to the current monetary tightening cycle. US Treasury prices rose, buoyed by the changing economic environment, as well as the failure of two US banks and subsequent government intervention. UK gilt prices declined, as new leadership stabilised the market for gilts but large borrowing requirements raised concerns among investors. European government bond yields (which move inversely to prices) were also down, and the Japanese government raised its yield cap for 10-year government bond yields. This led to a sharp increase in the yields for those bonds before substantial purchases from the Bank of Japan drove fluctuating prices. Global corporate bonds varied, as continued resilience in the global economy led to nearly flat returns overall for high-yield corporate bonds, while investment-grade bonds declined slightly.

In commodities, Brent crude oil prices declined due to moderating demand amid slowing global growth. Both US and European natural gas prices declined substantially, as markets continued to adjust to the disruption caused by Russia's invasion of Ukraine. Gold prices rose notably amid recession concerns and the slowing pace of Fed interest rate increases.

On the foreign exchange markets, the US Dollar was mixed against other global currencies. The Euro and Sterling appreciated relative to the US Dollar, while the Japanese Yen and Chinese Yuan were nearly flat.

NOTES TO THE FINANCIAL STATEMENTS

1. General information

The Entity is an open-ended investment company domiciled and incorporated under the laws of Ireland as a public limited company. The Entity is authorised by the CBI and is governed by the provisions of the UCITS Regulations with its registered office at J.P Morgan, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Entity are prepared in accordance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the United Kingdom and Republic of Ireland. The principal accounting policies and estimation techniques are consistent with those applied to the previous annual financial statements.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

3. Financial risks

Each Fund's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The risks are substantially consistent with those disclosed in the previous annual financial statements with the exception of those outlined below.

3.1 Market risk arising from price risk

Price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, such as the COVID-19 pandemic, recessions, or other events could have a significant impact on each Fund and the market price of its investments.

4. Fair value hierarchy

Each Fund classifies financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the Entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly. This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability. This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation. This category also includes instruments that are valued based on quoted prices for similar instruments where significant Entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

Specific valuation techniques used to value financial instruments classified as level 2 and level 3 include:

- (i) for debt and equity instruments, the use of quoted market prices or dealer quotes for similar instruments;
- (ii) for investments which are a share of participation in an investee collective investment scheme ("CIS") and investments in ETFs where the Fund typically trades the units held at the latest NAV for that ETF, are valued at the unaudited NAV, and where available the independently audited NAV, on the valuation date of such unit of participation as calculated by the administrator of the investee CIS and ETF and in accordance with the requirements of the scheme of which the relevant investment is a share of participation. The unaudited NAV of the

underlying investee CIS and ETF is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS and ETF. The unaudited NAV of the underlying investee CIS and ETF may be subject to adjustments upon issuance of their respective independently audited financial statements and such adjustments may be material to the Fund's financial statements;

- (iii) for foreign equities, using independent fair value adjustment factors to reflect the difference between the last market close and the valuation point of each Fund;
- (iv) for defaulted debt instruments, the use of recent transactions and/or defaulted equity instruments for which market data is unavailable;
- (v) for interest rate swaps, the present value of the estimated future cash flows based on observable yield curves;
- (vi) for total return swaps, the value of the estimated cash flows based on the market value of the underlying reference assets or index at the balance sheet date;
- (vii) for inflation swaps, the present value of the estimated future cash flows based on observable yield curves. Certain zero coupon inflation swaps may be valued using a single quote from the swap counterparty, where the model and inputs are not market observable;
- (viii) for foreign currency forwards, present value of future cash flows based on the forward exchange rates at the balance sheet date;
- (ix) for foreign currency options, option pricing models; and
- (x) for other financial instruments, discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities, a contingent consideration receivable and certain derivative contracts, where the fair values have been determined based on present values and the discount rates used were either not market observable or adjusted for counterparty or own credit risk, or certain CISs which have gates or redemption restrictions imposed or that can't be redeemed within 90 days, are included in level 3.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' inputs requires significant judgement. The Directors consider observable inputs to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

5. Operating expenses

The Entity employs an “all in one” fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by each Fund to that share class. The TER is calculated in accordance with the European Securities and Markets Authority (“ESMA”) guidelines on the methodology for calculation of the ongoing charges figure in the KIID or the product page of the website at www.ishares.com.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs. In the event a Fund’s costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

Management fees (inclusive of investment management fees)

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 May 2023:

¹ Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

² This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

³ As this Fund/share class launched during the financial period, the fees, operating costs and expenses used to calculate the TER have been annualised.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of each Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Entity in connection with the issue or sale of any capital of the Entity.

NOTES TO THE FINANCIAL STATEMENTS (continued)

7. Taxation (continued)

Irish tax

Under current law and practice, the Entity qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Entity in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Entity; or the Entity has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Entity with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Entity will be held in CREST or another recognised clearing system.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Entity may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Entity or its shareholders.

For financial reporting purposes, and in accordance with FRS 104, the Entity must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

NOTES TO THE FINANCIAL STATEMENTS (continued)

8. Share capital

Authorised

The authorised share capital of the Entity is 2 subscriber shares of a par value of GBP1.00 each and 500,000,000,000 participating shares of no par value.

Subscriber shares

2 subscriber shares are currently in issue and are held by the Manager or by nominees of the Manager at 31 May 2023 and 30 November 2022. They do not form part of the NAV of the Entity. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Entity's investment business.

Voting rights

The holders of the subscriber shares and redeemable shares shall, on a poll, be entitled to one vote per share.

The Investment Manager will arrange for the fees and expenses of the Sub-Investment Managers to be paid out of the Investment Manager's own fees.

Fees paid to the Manager and Investment Manager during the financial period, the nature of these transactions and balances outstanding at the financial period end are disclosed in note 5.

The Directors as at 31 May 2023 are presented in the table below:

Director	Employee of the BlackRock Group	Director of BlackRock affiliates and/or other funds managed by BlackRock
William McKechnie	No	Yes
Padraig Kenny	No	Yes
Ros O'Shea	No	Yes
Deirdre Somers	No	Yes
Peter Vivian	Yes	Yes

Directors' fees are disclosed in the statutory information note to the financial statements. The aggregate emolument of the Directors relates to services provided as directors. The Directors who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

Holdings in other funds managed by BlackRock/BlackRock affiliates

Investments in funds managed by BlackRock, Inc. and investments that are BlackRock affiliates are listed below and marked on the relevant Funds' schedules of investments. For underlying funds which are subject to investment management fees, these have been rebated back to the Fund.

The Entity invested in the following funds which are also managed by the Manager. For income earned on these related party funds please refer to the operating income. Further information on the fees charged from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

Investments	Fee paid by Fund

Significant investors

As at 31 May 2023 and 30 November 2022, each Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositories ("ICSDs") in which the shares of the Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depository to the ICSDs and onwards to the participants of the ICSDs.

Securities lending

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share.

The table below details the securities lending income earned for the financial period ended:

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

TRANSACTIONS WITH CONNECTED PERSONS

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between each Fund and the Manager or Depositary to a Fund, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and in the best interests of the shareholders.

The Directors are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Persons and that transactions with Connected Persons entered into during the financial period complied with this obligation.

SOFT COMMISSIONS

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Funds during the financial period ended 31 May 2023.

CROSS INVESTMENTS

As at 31 May 2023, there were no cross-umbrella investments held by any Fund within the Entity.

EFFICIENT PORTFOLIO MANAGEMENT AND SECURITIES FINANCING TRANSACTIONS

Efficient portfolio management techniques

The Entity may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Entity and the Entity (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the CBI.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund's schedule of investments.

Securities lending

All securities lending transactions entered into by each Fund are subject to a written legal agreement between each Fund and the securities lending agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the securities lending agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of each Fund. Collateral received is segregated from the assets belonging to each Fund's Depositary or the securities lending agent.

The following table details the value of securities on loan as a proportion of each Fund's total lendable assets and NAV, as at 31 May 2023. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Reuse of collateral received

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending cannot be sold, re-invested or pledged.
