Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and Investment Policy

- The Fund is a passively managed Exchange-Traded Fund (ETF), which aims to track the Total Return performance of the Bloomberg Euro Treasury Majors Bond Index (the "Index")¹, less fees, expenses and transaction costs.
- To achieve the investment objective, the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to index weighted average duration, industry sectors, country weights, liquidity and credit quality. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is EUR.
- **Dividend Policy:** This Share Class declares and distributes a dividend on a quarterly basis.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the Trans-European Real-time Gross Settlement Express Transfer (TARGET-2) system is open. Please refer to the prospectus for further information.
- **The Index:** The Index is designed to measure the performance of EUR-denominated, fixed-rate government debt. The securities which comprise the Index must be denominated in EUR. To enter the Index, securities must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch, have a minimum par amount outstanding of EUR 300mn, and at least one year until final maturity, regardless of optionality. To remain in the Index securities must be rated B3/B-/B- or higher, after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long term local currency sovereign rating from Moody's, S&P and Fitch. The Index rebalances monthly.

Risk and Reward Profile

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **General Investment Risk:** The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- **Credit risk:** The creditworthiness of the debt the Fund is exposed to may weaken and result in fluctuations in the value of the Fund. There is no guarantee the issuers of debt will repay the interest and capital on the redemption date. The risk is higher when the Fund is exposed to high yield debt securities.
- **Interest Rate Risk:** Changes in interest rates will result in fluctuations in the value of the Fund.
- **Securities lending:** The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the borrower defaults.
- For more information on risks, please see the Fund prospectus under "Risk Factors", which is available at etf.invesco.com (select your country and navigate to Product/Prospectus).
