OSSIAM US MINIMUM VARIANCE ESG NR UCITS ETF 1A (EUR)

STRATEGY DESCRIPTION

The Minimum Variance strategy is an investment approach that aims at reducing volatility compared to market cap weighted equity benchmarks, while maintaining a high level of diversification.

The strategy uses estimates of individual stocks risks and correlations to construct a long only portfolio with defensive properties.

The optimization process is applied to a universe of stocks filtered according to ESG criteria (keeping 70% of the best rated stocks according to these criteria for each sub-sector, and excluding highly controversial stocks according to Sustainalytics rating scales).

This approach is suitable for buy-and-hold investors with a multi-year time horizon seeking an ESG-compliant equity exposure with significantly lower volatility.

- Key benefits:
- Exposure to the equity risk premium consistent with an ESG approach
 - Volatility reduction objective
 - Benefit from the low volatility anomaly

IMPORTANT INFORMATION: Performances are net of charges. The value of the investment and the income from it will vary and your initial investment amount cannot be guaranteed. ETFs trade on exchanges like stocks and are bought and sold at market prices which may be different from the net asset values of the ETFs. **Past performance does not predict future returns.**

Risk Consideration: Please note that the fund is subject to specific risks such as index risk, ESG investment and geographic concentration risks, in addition to common market risk. To know more about these risks, please refer to the Key Information Document and Prospectus prior to investing.

*The funds switched of name, Index and benchmark: Previously Ossiam US Minimum Variance NR UCITS ETF is now Ossiam US Minimum Variance ESG NR UCITS ETF ; The Reference Index (resp. the investment universe) was Ossiam US Minimum Variance NR (resp. S&P 500 Index NR) until June 16th 2017 and is now US ESG Minimum Variance NR Index (resp. Solactive US Large Cap NR Index). Ossiam US Minimum Variance ESG NR UCITS ETF, a sub-fund of Ossiam IRL ICAV, has been created on the 24th of April 2020 by the merger-absorption of Ossiam US Minimum Variance ESG NR, a sub fund of Ossiam Lux SICAV, with a ratio of 1 for 1. Data presented before April 24th 2020 are relative to the Luxembourg sub-fund and presented for information. Please note that if the currency of the fund/share class is different from the currency of your area, any losses or gains generated by the fund/share class may be affected by exchange rate fluctuations (both upward and downward).

RISK INDICATOR

The Share Class is ranked 4 on the synthetic risk indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience important volatility, as expressed by the rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free". You could lose all or part of your investment.

ESG Investing Methodological Limits : ESG Investing Methodological Limits : By using ESG criteria in the investment policy, the relevant Fund’s objective would in particular be to better manage sustainability risk. ESG criteria may be generated using Ossiam’s proprietary models, third party models and data or a combination of both. The assessment criteria may change over time or vary depending on the sector or industry in which the relevant issuer operates. Applying ESG criteria to the investment process may lead Ossiam to invest in or exclude securities for non-financial reasons, irrespective of market opportunities available. ESG data received from third parties may be incomplete, inaccurate, or unavailable from time to time. As a result, there is a risk that Ossiam may incorrectly assess a security or issuer, resulting in the incorrect direct or indirect inclusion or exclusion of a security in the portfolio of a Fund.

Sustainability risk : The Fund is subject to sustainability risks as defined in the Regulation 2019/2088 (article 2(22)) by environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. More information on the framework related to the incorporation of Sustainability can be found on the website of the Management Company.

The proxy voting and engagement policy is available on our website www.ossiam.com.
