Name of fund initiator: Ossiam
ISIN: IE00BHNGHX58

Contact: www.ossiam.com
Call +33 1 84 79 42 70 for further information
The Central Bank of Ireland is responsible for supervising Ossiam with regard to this key information document.
Ossiam is registered in France under n°GP-10000016 and regulated by the AMF.
Date of production: 31/12/2024

1. What is this product?

Product Type: The Fund is an actively managed Undertakings for Collective Investments in Transferable Securities (UCITS) ETF under Irish law in the form of a sub-fund of an Irish Collective Asset-management Vehicle (ICAV).
Maturity: This product has no specific maturity date. However, this product may be dissolved or merged, in which case you will be informed by any appropriate means provided for by the regulations.
Objectives: The OSSIAM US MINIMUM VARIANCE ESG NR UCITS ETF aims to replicate, before the Fund's fees and expenses, the performance of the US ESG Minimum Variance Index NR (the "Index"). The Fund is passively managed. The Index is a total return index (net dividends reinvested) expressed in USD, calculated and published by Solactive AG (the "Index Provider"). The Index reflects the performance of a dynamic selection of stocks which satisfy ESG (Environment, Social and Governance) criteria among the most liquid stocks from the Solactive US Large Cap Index (the "Base Index"). The Base Index tracks the performance of about 500 leading large capitalisation companies in major industries in the United States of America. An ESG (Environment, Social, and Governance) filter is applied to selected stocks from the Base Index using ESG data. The model applies a "Best-In-Class" ESG filter, which consists of selecting the 70% of stocks with the highest ESG ratings for each industry sub-sector, based on the ESG exclusion criteria defined in the Index Methodology (e.g., serious and severe controversies, involvement in the controversial arms industry). Constituents of the Index will be selected on a monthly basis and weighted according to an optimisation procedure. As such, sector exposures and companies in the Index will differ from those of the Base Index. The anticipated level of tracking error in normal conditions is 0.50%. For a detailed description of the Index, see section "Description of the Index" in the supplement of the Fund.
Investment Policy: In order to achieve its investment objective, the Fund will primarily invest, through physical replication, in all or part of the equity securities comprised in the Index, with weightings almost identical to those of the Index. The Fund shall be permanently invested for a minimum of 60% in equities or rights issued by companies having their registered office in OECD countries.
Allocation of distributable amounts: Capitalization.
Intended Investors: Investors who understand the Fund's risks and plan to invest for the long term (minimum 5 years). The Fund is aimed at investors who : (i) are looking for a growth-oriented investment with a sustainable investment approach, (ii) are interested in exposure to US equity markets, either as a core investment or for diversification purposes, (iii) have a high risk profile and can withstand significant losses. The shares of this Fund have not been registered under the "US Securities Act of 1933" and may not be offered or sold directly or indirectly for the account or benefit of a "U.S. Person" as defined by US "Regulation S" and/or the "Foreign Account Tax Compliance Act".
In view of the provisions of EU Regulation No. 833/2014 and EU Regulation 2022/398 the subscription of shares in this Fund is prohibited to any Russian or Belarusian national, any natural person residing in Russia or Belarus or any legal person, entity or body established in Russia or Belarus except nationals of a Member State and natural persons holding a temporary or permanent residence permit in a Member State.
Depositary: The Bank of New York Mellon SA/NV, Dublin Branch.
Additional information: The Fund's regulations and annual and semi-annual reports are available on the management company's website and free of charge on written request to info@ossiam.com. The net asset value is available on the management company's website. www.ossiam.com

2. What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you hold this product **for 5 years.** The real risk may be very different if you opt to exit before maturity, and you may get less in return. The risk indicator allows you to assess the level of risk of this product compared with others. It indicates the probability of this product incurring losses in the event of market movements or our inability to pay you.

We have classified the Fund in risk class 4, which is a medium risk class. In other words, the potential losses linked to the product's future results are at a medium level, and if the situation were to deteriorate on the markets, it is possible that our ability to pay you could be affected.
The market liquidity risk could amplify the variation of product performances.

Beware of currency risk. If the sums paid to you are in another currency, your final profit will depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator.
In addition to the risks included in the risk indicator, other risks may influence the Fund's performance. Please refer to the Fund's prospectus.
As this Product does not provide protection against the vagaries of the market, you could lose all or part of your investment.

Performance Scenarios

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.
What you will receive from this product depends on future market performance. Future market trends are random and cannot be accurately predicted. The unfavorable, moderate and favorable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product over the last 10 years. Markets may evolve very differently in the future. The stress scenario shows what you could achieve in extreme market situations.

		1 year	5 years (recommended holding period)
Stress Scenario	**What you might get back after costs**	EUR 7 083	EUR 3 632
	Average annual return	-29.2%	-18.3%
Unfavorable Scenario	**What you might get back after costs**	EUR 8 984	EUR 11 366
	Average annual return	-10.2%	2.6%
Moderate Scenario	**What you might get back after costs**	EUR 10 428	EUR 15 510
	Average annual return	4.3%	9.2%
Favorable Scenario	**What you might get back after costs**	EUR 12 767	EUR 16 682
	Average annual return	27.7%	10.8%

Favorable Scenario: this type of scenario occurred for an investment between 31/07/2017 and 29/07/2022.

Moderate Scenario: this type of scenario occurred for an investment between 30/06/2017 and 30/06/2022.

Unfavorable Scenario: this type of scenario occurred for an investment between 31/03/2015 and 31/03/2020.

3. What happens if the Issuer is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of the latter's default, the product's assets held by the custodian will not be affected. In the event of the custodian's default, the risk of financial loss to the product is mitigated by the legal segregation of the custodian's assets from those of the product.

4. What are the costs?

The person selling or advising you on this Fund may ask you to pay additional costs. If this is the case, they will tell you about these costs and show you how they affect your investment.

Cost over time

	Total Cost	Impact on return (RIY) per year*
If you cash in after 1 year	EUR 72	0.72%
If you cash in at the end of the recommended holding period	EUR 543	0.69%

The tables show the amounts deducted from your investment to cover the various types of costs. These amounts depend on the amount you invest, the period of time you hold the product and the product's performance. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed :

• That in the first year you would get back the amount you invested (0% annual return). That for the remaining holding periods, the product evolves as indicated in the moderate scenario.

• EUR 10,000 invested

*This illustrates the extent to which costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per annum is expected to be 9.9% before deducting costs and 9.2% after deducting costs.

Composition of costs

This table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

			If you cash in after 1 year
One-off costs	**Entry costs***	Up to 0.00% of the amount you receive when you enter the investment.	EUR 0
	Exit costs*	Up to 0.00% of the amount you receive when you exit the investment.	EUR 0
Ongoing costs	**Portfolio transaction costs**	0.04% of the value of your investment per year.	EUR 4
	Other ongoing costs	0.65% of the value of your investment per year.	EUR 65
Incidental costs	**Performance fees**	There is no performance fee for this product.	---
	Carried interests	There is no carried interest for this product.	---

* Secondary Market: because the Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.
Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

5. How long should I hold it and can I take my money out earlier?

Recommended holding Period : 5 Years.

This product has no required minimum Recommended Holding Period (RHP) but is designed for long term investment. Any investment should be considered according to your specific investment needs and appetite for risk. Ossiam does not consider the suitability or appropriateness of this investment for your personal situation. If you are in any doubt about the suitability of this product to your needs, you should seek professional advice. You can buy or sell your ETF securities daily on the secondary market through an intermediary on Stock exchange(s) on which the ETF securities are traded.

Processing requests:

Subscription and redemption orders are received no later than 3:00 p.m. (Dublin time) on each Trading Day. The 1A (EUR) Shares are listed for trading on one or more Stock exchange(s) and investors may buy or sell shares through their usual broker on any trading day of the relevant Stock exchange(s) which is also a Dealing Day in Ireland or, through a fund distribution platform. For further information, please refer to the Prospectus and/or contact your broker.

6. How can I complain?

You may make a complaint about the product or the conduct of (i) the Management Company (ii) a person who provides advice about the product, or (iii) a person who sells the product by sending an e-mail or a letter to the following persons, as appropriate :

• If your complaint concerns the product itself or the conduct of the Management Company : please contact the Management Company, by post, at 36 rue Brunel 75017 Paris (France) for the attention of OSSIAM - Compliance or by e-mail at info@ossiam.com. A complaints handling procedure is available on the management company's website www.ossiam.com

• If your complaint concerns a person who advises on or offers the product, please contact that person directly.
