

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Terms not defined herein are as defined in the Prospectus.

SPDR STOXX Europe 600 SRI UCITS ETF (the "Fund"), a sub-fund of SSGA SPDR ETFs Europe II plc (a UCITS compliant Exchange Traded Fund). This Fund is managed by State Street Global Advisors Europe Limited.
Share Class: SPDR STOXX Europe 600 SRI UCITS ETF (Acc) (ISIN IE00BK5H8015)

Objectives and Investment Policy

Investment Objective The investment objective of the Fund is to track the performance of European equities.

Investment Policy The Fund seeks to track the performance of the STOXX Europe 600 SRI Index (the "Index") as closely as possible.

The Fund is an index tracking fund (also known as a passively managed fund).

The Fund invests primarily in securities included in the Index. These securities include companies that are eligible for the STOXX Europe 600 Index, (the "Standard Index"), while excluding securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities, and based on the level of their emission intensities as outlined in the Index methodology. The adoption of these screens within the Index correspond to the environmental and social factors which the Fund promotes, as further described in the "ESG Screening" and "ESG Best in Class Investing" subsection of the "ESG Investing" section of the Prospectus. Companies deemed by the Index provider to adhere to international norms and principles are considered to exhibit good governance.

At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the index provider applies ESG Ratings on all of the Index constituents. The index excludes at least 20% of the least well rated securities compared to the Standard Index universe. The Environmental, Social and Governance factors are simultaneously taken into account in the investment process. The Fund does not benefit from the SRI/ISR Label in France.

There may be potential inconsistencies, inaccuracy or lack of availability of the ESG data, particularly when issued by external data providers. There may also be potential inconsistencies with the ESG screening methodology of the Index (criteria, approaches, constraints). Details about the limits are described in the Supplement.

Although the Index is generally well diversified, because of the market it reflects it may, depending on market conditions, contain constituents issued by the same body that may represent more than 10% of the Index. In order for the Fund to track the Index accurately, the Fund will make use of the increased diversification limits available under Regulation 71 of the UCITS

Regulations. These limits permit the Fund to hold positions in individual constituents of the Index issued by the same body of up to 20%.

The Fund seeks to hold all the securities of the Index with the approximate weightings as in that Index. The Fund will use a replication strategy to create a near mirror-image of the Index. In limited circumstances the Fund may purchase securities that are not included in the Index.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. However, shares of the Fund may be purchased or sold through brokers on one or more stock exchanges. The Fund trades on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund.

The Fund does not currently engage in securities lending.

The Fund's shares are issued in Euro.

Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

Please refer to the Prospectus for more information.

Index Source: The STOXX Europe 600 SRI Index and the trademarks used in the Index name are the intellectual property of STOXX Limited, Zurich, Switzerland and/or its licensors. The Index is used under license from STOXX. The securities [or financial instruments, or options or other technical terms] based on the Index are in no way sponsored, endorsed, sold or promoted by STOXX and/or its licensors and neither STOXX nor its licensors shall have any liability with respect thereto.

Risk and Reward Profile

Risk Disclaimer The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.

For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.

The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.

As the Fund's risk category has been calculated using historical simulated proxy data, it may not be a reliable indication of the Fund's future risk profile.

The Fund's risk category shown is not guaranteed and may change in the future.

Why is this Fund in this category? The Fund is in risk category 6 as its return has experienced very high rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.

Concentration Risk: When the Fund focuses its investments in a particular way, the issues affecting the investments will have a greater effect than if the Fund was more diversified. This concentration may also limit the Fund's liquidity.

Index Tracking Risk: The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.

Liquidity Risk & ETF Liquidity Risk: Lack of a ready market or resale restrictions may limit the Fund's ability to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount and may affect the ability to meet redemptions on a timely basis. Where the Fund invests in illiquid securities or does not trade in large volumes, the bid offer spreads may widen, the Fund may be exposed to increased valuation risk and reduced ability to trade. Shares in the Fund may also trade at prices materially different to the last available NAV.

Screening Risk: There is a risk that the index provider may make errors, such as incorrect assessment of the screen criteria and/or include incorrect/exclude correct constituents in the screening process.

SFDR - Fund Classification Risk: The SFDR has phased implementation from 10 March 2021 and imposes new disclosure obligations on financial market participants. As at the date of the Prospectus, the implementing Regulatory Technical Standards (Level 2) for SFDR have been enacted by the European Commission and will apply from 1 January 2023, but certain concepts introduced by SFDR are not currently the subject of centralised implementing standards, local guidance or established market practice. The Fund has been assessed and classified in good faith based on the relevant information currently available. As these standards and guidance develop, the SFDR related disclosures and the Article 8 classification indicated in the Supplement and on the Website are subject to change and may no longer apply.

Please refer to the Prospectus for full details about the risks associated with this Fund.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).

Charges taken from the Fund over a year

Ongoing charge	0.12%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor or distributor.

Entry and exit charges are not applicable to investors buying/selling shares of the Fund on stock exchanges, but these investors will do so at market prices and may be subject to broker fees and/or other charges.

The ongoing charges figure shown here is based on expenses for the year ending December 2022. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund

For more information about charges please refer to the "Fees and Expenses" section of the prospectus and the Fund supplement.

Past Performance

- SPDR STOXX Europe 600 SRI UCITS ETF (Acc) (IE00BK5H8015)
- STOXX Europe 600 SRI Index

A The past performance displayed relates to the STOXX Europe 600 ESG-X Index (the previous index the Fund tracked up to 30th November 2021).

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Fund was launched in September 2019.

The Class Acc Shares were launched in September 2019.

Past performance has been calculated in Euro and is expressed as a percentage change in the Fund's net asset value at each year end.

The Index of the Fund changed from STOXX Europe 600 ESG-X Index to STOXX Europe 600 SRI Index on 30th November 2021.
