

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

JPM Global High Yield Corporate Bond Multi-Factor UCITS ETF - USD (acc)
IEO0BKCKJ46

a share class of JPMorgan ETFs (Ireland) ICAV – Global High Yield Corporate Bond Multi-Factor UCITS ETF

a sub-fund of JPMorgan ETFs (Ireland) ICAV

For more information on this product, please refer to www.jpmorganassetmanagement.lu or call +(352) 3410 3060

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising the manufacturer, JPMorgan Asset Management (Europe) S.à.r.l., (a member of JPMorgan Chase & Co.) in relation to this Key Information Document.

The Sub-Fund is authorised in Ireland and regulated by the Central Bank of Ireland ("CBI").

THIS DOCUMENT WAS PRODUCED ON 1 JANUARY 2023

What is this product?

Type

This product is a UCITS exchange traded fund or "UCITS ETF". It is a sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between its sub-funds and authorised by the CBI pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Objectives, Process and Policies

Objective The Sub-Fund seeks to provide returns that correspond to those of its Index.

Share Class Benchmark JP Morgan Asset Management Global High Yield Multi-Factor Index

Investment Policy The Sub-Fund pursues a passively managed (indextracking) strategy.

The Sub-Fund aims to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

A dedicated function within the Investment Manager, an affiliate of the Management Company, serves as Index Provider. The Index is independently managed from the management of the Sub-Fund and is calculated and published by the Index Calculation Agent.

The Index is comprised of below investment grade, fixed rate corporate debt securities, such as bonds and notes, of varying maturity, issued globally ("Index Securities"). The components of the Index are selected from the components of the ICE BofAML Global High Yield Index (the "Parent Index") in accordance with the Index's rules-based methodology as explained below. The constituents of the Index and geographical exposure of Index Securities may be subject to change over time. The Index rebalances on a monthly basis as referred to under "Index Tracking Risk" in the Prospectus. The Index methodology is available at <https://am.jpmorgan.com/gi/getdoc/1383650038646>. Further details on the Index and the Parent Index, including their components and performance, are available at <https://indices.theice.com>.

The Index is designed to capture the performance of below investment grade corporate debt securities globally which display certain factor characteristics more strongly when compared to their peer group (i.e. other corporate bonds in the same market sector, denominated in the same currency and with similar creditworthiness). Factors are characteristics that describe the risk and return profile of securities from which investors expect to achieve above average returns over time, through assuming a particular risk or taking advantage of a behavioural bias.

The Index uses a two-step rules-based process. First, the Index selects securities according to the currency weights of the Parent Index. Where, however, the Parent Index does not contain sufficient securities in a certain currency to apply the investment process, such currency will not be represented in the Index. The Index then applies a quantitative security selection process that uses multiple factors, referred to as "multi-factor". This process involves selecting below investment grade corporate debt securities issued globally according to an overall multi-factor score derived from equally weighting the three factors described below:

- Value. The tendency of securities trading at a wider spread relative to their fundamental characteristics (such as default probability) to generate more attractive returns over the long term.
- Momentum. The tendency of securities which have exhibited higher returns to continue to exhibit more attractive returns relative to their volatility.
- Quality. The tendency of securities of financially-stable entities (based on measures of their solvency or profitability) to generate more attractive returns relative to their volatility over the long term.

The Sub-Fund may invest in assets denominated in any currency and currency exposure will not typically be hedged.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

USD is the base currency of the Sub-Fund.

It is currently anticipated that the tracking error of the Sub-Fund will be up to 200 bps under normal market conditions. The causes of tracking error can include but are not limited to the following: holdings/size of the Sub-Fund, cash flows, such as any delays in investing subscription proceeds into the Sub-Fund or realising investments to meet redemptions, fees and the frequency of rebalancing against the Index.

The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on www.jpmorganassetmanagement.lu.

Redemption and Dealing Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Distribution Policy This Share Class does not pay dividends. Earned income is retained in the Net Asset Value.

SFDR Classification Article 6

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years.

- Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Sub-Fund objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. The Sub-Fund is not intended as a complete investment plan.
- Typical investors in the Sub-Fund are expected to be those who seek exposure to the market covered by the Index and want access to the multi-factor based process of the Index.

Term This product does not have a fixed maturity date and may be liquidated in certain circumstances, as further detailed in the Prospectus.

Practical information

Depository The fund depository is Brown Brothers Harriman Trustee Services (Ireland) Limited.

Legal Information JPMorgan Asset Management (Europe) S.à.r.l. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

All data is sourced by J.P. Morgan Asset Management and is correct as at the date of this commentary unless otherwise stated.

The Sub-Fund is sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle with segregated liability between sub-funds. JPMorgan ETFs (Ireland) ICAV consists of separate sub-funds, each of which issues one or more Share Classes. This document is prepared for a specific Share Class. The Prospectus and annual and semi-annual financial reports are prepared for JPMorgan ETFs (Ireland) ICAV.

Switching Switching of Shares from one Sub-Fund into Shares in another Sub-Fund is not permitted. Switching of Shares from one Share Class into another Share Class within the same Sub-Fund is also not permitted to investors trading on stock exchanges but may be available to the Authorised Participants. Further information can be found in the Prospectus.

What are the risks and what could I get in return?

Risks

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the relevant supplement, available free of charge at www.jpmorganassetmanagement.lu.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2021 and 2022.

Moderate: this type of scenario occurred for an investment between 2014 and 2019.

Favourable: this type of scenario occurred for an investment between 2016 and 2021.

Recommended holding period		5 years	
Example Investment		\$ 10,000	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum return	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	\$ 5,590 -44.1%	\$ 5,840 -10.2%
Unfavourable	What you might get back after costs Average return each year	\$ 8,510 -14.9%	\$ 8,870 -2.4%
Moderate	What you might get back after costs Average return each year	\$ 10,520 5.2%	\$ 13,150 5.6%
Favourable	What you might get back after costs Average return each year	\$ 12,500 25.0%	\$ 15,090 8.6%

What happens if JPMorgan Asset Management (Europe) S.à.r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à.r.l. is responsible for administration and management of the Sub-Fund and does not hold assets of the Sub-Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). JPMorgan Asset Management (Europe) S.à.r.l., as

the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- \$ 10,000 is invested.

Example Investment \$ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	\$ 121	\$ 770
Annual cost impact*	1.2%	1.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 5.6% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 USD
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year.	35 USD
Transaction costs	0.86% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	86 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This product is designed for longer term investments due to the potential volatility of its performance; you should be prepared to stay invested for at least 5 years. You can redeem your investment without

penalty at any time during this period however your return may be negatively impacted by the volatility of its performance. Redemptions are possible on every Dealing Day, with proceeds settled within 2 business days.

How can I complain?

If you have a complaint about the Sub-Fund, you can contact us by calling +(352) 3410 3060 or by writing to fundinfo@jpmorgan.com or JPMorgan Asset Management (Europe) S.à r.l., 6 route de Trèves, L-2633 Senningerberg, Grand Duchy of Luxembourg

You can find more details about how to complain and the Management Company's complaint handling policy in the Contact Us section of the website at: www.jpmorganassetmanagement.com. If you have a complaint about the person who advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

Further information Further information on the Sub-Fund, including its sustainable characteristics, may be found in the Prospectus, relevant supplement and on www.jpmorganassetmanagement.lu.
