This Fund is managed by UBS Fund Management (Luxembourg) S.A., a part of UBS AG.

### Objectives and investment policy

The **Fund** is passively managed and seeks to track performance of the S&P 500 ESG ELITE Index hedged to EUR (Net Return) (the "**Index**"). The Index is an equity index calculated, maintained and published by international index supplier S&P Indices and is denominated in USD. It tracks the movements of the 500 leading companies listed on markets in the USA but available to investors globally. The S&P 500 ESG ELITE Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the S&P 500. In seeking to implement its investment objective of tracking the performance of the Index, the Fund may also in exceptional circumstances hold securities which are not comprised in its Index, including, for example, securities in respect of which there has been an announcement or it is expected that they will shortly be included in the Index. The Fund may, for the purpose of reducing risk, reducing costs or generating additional capital or income, use derivative instruments. The use of derivative instruments may multiply the gains or losses made by the Fund on given investment or on its investments generally.

Currency hedged share classes may also be available in the Fund.

Investors other than authorized participants may not subscribe for shares directly with UBS (Irl) ETF plc, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website [www.ubs.com/etf](http://www.ubs.com/etf). In exceptional circumstances, direct redemptions with UBS (Irl) ETF plc, are however possible on each dealing day (as set out in the relevant supplement to the prospectus). Authorized participants may subscribe and redeem shares with the UBS (Irl) ETF plc under the conditions detailed in the relevant authorized participant

agreement.

Fund income is not paid out, but instead will be reinvested.

This Fund promotes environmental and/or social characteristics and is categorised in accordance with article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector.

The impact of currency fluctuations between any foreign currency to the Index currency is reduced by selling foreign currency forwards at one month forward rate in line with the currency version of the Index. Hedging reduces the effect of the fluctuations in the exchange rate between the currencies of the equity securities (i.e. shares) that make up the Index and EUR, the currency of the Share Class.

The Fund will not enter into any securities lending.
