iShares MSCI World SRI UCITS ETF

A sub-fund of iShares IV plc

GBP Hedged (Dist) Share Class

ISIN: IE00BMZ17T93

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's investments, which reflect the return of the MSCI World SRI Select Reduced Fossil Fuel Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund, is passively managed and aims to invest so far as possible and practicable in equity securities (e.g. shares) that make up the Index.
- ▶ The Index measures the performance of a sub-set of equity securities (e.g. shares) within four regional indices: the MSCI Pacific Index, the MSCI Europe & Middle East Index, the MSCI Canada Index, and the MSCI USA Index ("Regional Indices") which are issued by global companies with higher environmental, social and governance ("ESG") ratings than other sector peers within the relevant Regional Indices, based on a series of exclusionary and ratings based criteria.
- ▶ Companies may be excluded from the Index if they are involved with controversial/conventional weapons, nuclear weapons/power, civilian firearms, tobacco, alcohol, gambling, adult entertainment, genetically modified organisms, thermal coal, oil sands, and unconventional/conventional oil and gas extraction / power generation, as further detailed in the "Benchmark Index" section of the Prospectus.
- ▶ The remaining companies are rated by the index provider based on their ability to manage their ESG risks and opportunities and are given a MSCI ESG rating . Companies that are involved in very severe controversies are also excluded based on an MSCI ESG controversy score.
- ▶ The Fund may obtain limited exposure to securities considered not to satisfy these ESG criteria.
- ▶ The Fund will adopt a best-in-class approach to sustainable investing, this means that it is expected that the Fund will invest in the best issuers from an ESG / socially responsible investment ("SRI") perspective (based on the ESG or SRI criteria of the Index) within each relevant sector of activities covered by the Index. The portfolio of the Fund is reduced by at least 20% compared to the Regional Indices. More than 90% of the issuers of securities the Fund invests in, excluding cash and money market funds, are ESG rated or have been analysed for ESG purposes.
- ▶ Eligible constituents within each Global Industry Classification Standard ("GICS") sector are ranked by the index provider and are weighted based on their free float adjusted market capitalisation. Free float-adjusted means that only shares available to international investors, rather than all of a company's issued shares, are used in calculating the Regional Indices. Free float-adjusted market capitalisation is the share price of the company multiplied by the number of shares available to international investors. The GICS sector weightings of each Regional Index are aggregated and reflected proportionately in the Index.
- ▶ The Regional Indices measure the performance of large and mid-capitalisation stocks across the developed global markets which comply with the index provider's size, liquidity and free-float criteria. The Index targets 5% issuer exposure capping. In order to reduce the risk of non-compliance with the 5% threshold due to market movements, the weight of each issuer is capped at 4.5% at the point of Index construction and at each rebalancing.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be distributing shares (i.e. income will be paid on the shares quarterly).
- ▶ The Fund's base currency is US Dollar. Shares for this Share Class are denominated in Sterling. The performance of your shares may be affected by this currency difference.
- ▶ Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the Fund's underlying portfolio currencies. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
