

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Ossiam Food for Biodiversity UCITS ETF (1A (EUR) ISIN IE00BN0YSK89) a sub-fund of OSSIAM IRL ICAV (the “ICAV”)

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective

The objective of Ossiam Food for Biodiversity UCITS ETF (“the Fund”) is to deliver the net total returns of a selection of listed equities, primarily from developed markets with a view to contributing to the reduction of biodiversity impact in the agricultural and food sectors.

The Fund is a financial product whose objective is, pursuant to Article 9 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector, sustainable investment.

The Fund is an actively managed UCITS ETF and its composition is not constrained by any index.

Investment strategy

The Fund will seek to achieve its investment objective by investing primarily in a selection of sustainable stocks which are (i) relevant to the agriculture and food sectors, including but not limited to food retailers and producers of agricultural products based on ESG providers (as defined below) classification and on analyses performed by the Management Company including on the basis of the investee company’s description and activities, and (ii) listed and traded in major exchanges, primarily in developed markets (“the Investment Universe”).

The Management Company first applies a “Liquidity and Size filter”. Only the most liquid and the largest stocks in terms of market capitalisation are kept in the selection.

In order to achieve its sustainable investment objective of reducing biodiversity impact, the Management Company uses its quantitative model which implements a thematic and impact rules-based exclusion approach.

Securities that pass the above filter go through a “Best-In-Class filter” which consists in identifying the 80% best ESG rated stocks from the Investment Universe for each sub-sector.

The model then applies a “Normative and Exclusion filter” on the selected securities to exclude securities that are not aligned with the E,S,G and human rights criteria of the Fund (e.g., not compliant with the UNGC, undergo controversy, etc.). The Management Company determines the weights of the equities of the Eligible Universe using an optimisation procedure which aims to

minimise the biodiversity impact of the portfolio (50% or less than of the Investment Universe), and deviations between the weights of the final portfolio and the market capitalisation weights of the Investment Universe.

In certain market conditions, the composition of the equities in the Eligible Universe may make it impossible to perform the weighting optimisation while complying exactly with the list of constraints. In such circumstances, the Management Company can rateably reduce some of the constraints until the market conditions allow the optimisation process to comply with all of the constraints.

The Management Company performs the rebalancing of the portfolio on an annual basis and performs quarterly review to control the consistency of ESG characteristics.

The 1A (EUR) Shares are listed for trading on one or more stock exchanges and investors may buy or sell Shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Ireland or, through a fund platform. Please contact your broker for additional information.

The 1A (EUR) Share Class is an accumulating share class therefore income derived from the Fund is reinvested.

The 1A (EUR) Share Class is not a Currency Hedged Share class.

The Reference Currency of the Fund is the US Dollar.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Risk and Reward Profile

Lower Risk

Higher Risk

Typically Lower Rewards				Typically Higher Rewards		
1	2	3	4	5	6	7

The Share Class is ranked 5 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Share Class may experience significant volatility, as expressed by its rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Share Class. The lowest category does not mean “risk free”.

The following risk is materially relevant to the Fund but is not adequately captured by the synthetic indicator:

Emerging Markets risk: The Fund may invest in emerging market securities. The price of these securities may be more volatile than those of securities in more developed markets. As a result, there may be a greater risk of price fluctuation or of the suspension of redemptions in the Fund, compared to funds investing

exclusively in more mature markets. In addition, in certain emerging markets, the ESG Providers may not provide complete data coverage at the level of the market as a whole in the agriculture and the food sectors. The Management Company will assess itself if a given emerging country should be part of the Investment Universe. Further information in this respect is set out in the “Risk Information” section of the Prospectus.

Please refer to the supplement (the “Supplement”) and to Ossiam IRL ICAV prospectus (the “Prospectus”) for additional details about risks.

Charges for this Share Class

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-Off charges taken before or after you invest

Entry Charge	Maximum Sales Charge 3.00% + duties and charges*
Exit Charge	Maximum Redemption Charge 3.00% + duties and charges*

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Share Class over a year

Ongoing Charges:	0.75% p.a.
------------------	------------

Charges taken from the Share Class under certain specific conditions

Performance Fee:	None
------------------	------

The **entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

*The investor will also pay duties and charges to the Fund to reflect the cost or estimated cost of buying and selling assets related to subscription or redemption as described in the Prospectus.

The **ongoing charges** figure is based on expenses for the year ending December 2023. This figure may vary from year to year. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the ICAV when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to sections “Purchase and Sale Information”, “Fees and Expenses” of the Prospectus and section “Key Information” of the Supplement, and to the ICAV annual reports which are available at www.ossiam.com.

Past Performance

Past performance is not a reliable indicator of future performance.

This bar chart shows the performance of the 1A (EUR) Share Class in its currency of quotation, net of ongoing charges and excluding entry or exit charges.

Launch date of Fund: 30 December 2020.

Launch date of the Share Class: 30 December 2020.

The Fund's performance is benchmarked against the following index but the Fund's composition is not constrained by it: Solactive GBS Developed Markets Large & Mid Cap USD Index NTR (the "Index").
