FIDELITY PACIFIC EX-JAPAN EQUITY RESEARCH ENHANCED UCITS ETF

a sub-fund of FIDELITY UCITS ICAV I

FIDELITY PACIFIC EX-JAPAN EQUITY RESEARCH ENHANCED UCITS ETF ACC

(ISIN: IE00BNGFMY78)

This fund is managed by FIL Investment Management (Luxembourg) S.A.R.L.

Objectives and investment policy

Objective: The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in developed market countries in the Pacific region excluding Japan.

Investment Policy: The fund invests primarily in equities of companies domiciled, or exercising the predominant part of their economic activity, in developed market countries in the Pacific region excluding Japan. The fund aims to outperform the Benchmark by a target of 1% annualised gross returns over a period of 5 years or more. The fund may use derivatives for efficient portfolio management and currency hedging purposes.

Investment Process: The fund is actively managed and references the Benchmark (as defined below) as part of its investment process. The fund uses a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. On an ongoing basis, the fund will consider a wide range of environmental and social characteristics such as carbon intensity, carbon emissions, energy efficiency, water and waste management, biodiversity, product safety, supply chain, health and safety and human rights. The fund aims to achieve an ESG score of its portfolio greater than that of its Benchmark. For more information, see "Sustainable Investing Policy and ESG Integration" and the Sustainability Annex sections of the Prospectus.

Base Currency USD

Distribution: As this is a non-distributing share class, dividends are re-invested.

Benchmark: MSCI Pacific ex-Japan (Net Total Return) Index (the "Benchmark"), an index that does not take into account ESG characteristics. Used for: investment selection, risk monitoring, performance and carbon footprint comparison. The fund has limited discretion in choosing investments relative to the Benchmark. It may invest in securities not included in the Benchmark and in different proportions to the Benchmark in order to take advantage of investment opportunities; however, the Benchmark constituents are generally representative of the fund's portfolio. This means that both the fund's portfolio and performance is unlikely to vary significantly from those of the Benchmark.

Risk and reward profile

Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment. The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other

than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high.

Additional risks: liquidity.

Recommended Holding Period: This product may appeal to investors who plan to hold their investment for a recommended holding period of at least 5 years.

Charges for the fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing Charge	0.20%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 31/01/2025. This figure may vary from year to year. It excludes: • performance fees (where applicable); • portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

*Authorised participants dealing directly with the fund may pay an entry charge up to 5% and an exit charge up to 3%. Although not charged directly to investors who are not authorised participants, these charges may have an impact on brokerage fees, transaction fees and / or the "bid-ask" spread.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.
