## Reference Index key features

The MSCI Japan Select ESG Screened Index aims to reflect the performance of the following market:

- Large and mid-cap Japanese equities
  - Securities issued by entities failing to meet the following ESG standards, amongst others, are excluded: are associated with controversial weapons, are assigned an MSCI ESG Rating of 'CCC' or are unrated, derive certain revenues from tobacco, conventional weapons, nuclear weapons, civilian firearms, thermal coal, unconventional and/or arctic oil and gas extraction, and palm oil; and any issuer with an MSCI Controversies Score of 0
  - Reduced greenhouse gas intensity relative to the parent index
  - Reviewed on a quarterly basis
- Additional information on the index, selection and weighting methodology is available at [www.msci.com](http://www.msci.com)

## Key Risks

- **The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.**
- The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.
- The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.
