What is this product?

Type
The Fund is an Exchange-Traded Fund ("**ETF**"), a sub-fund of the Umbrella Fund which is incorporated in Ireland and authorised by the Central Bank of Ireland as a limited liability umbrella type open ended UCITS investment company with variable capital and segregated liability between its sub-funds.

Term
The Fund has no maturity date. The Fund may be terminated unilaterally by the directors of the Umbrella Fund and there are circumstances in which the Fund can be terminated automatically, as further described in the prospectus.

Objectives

Investment objective:
The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg Ex-Agriculture and Livestock 20/30 Capped Index (the "**Index**"), less fees, expenses and transaction costs.

Investment approach:
The Fund is a passively managed ETF.
To achieve the objective the Fund will use unfunded swaps ("**Swaps**"). These Swaps are an agreement between the Fund and an approved counterparty to exchange one stream of cash flows, against another stream. The Fund will not purchase commodities that comprise the index. The Fund holds a diversified basket of US Treasury Bills. The performance of the Index is swapped to the Fund in exchange for an agreed rate of return reflective of US Treasury Bill market rates. The Fund may be required to provide or receive collateral for any difference in the performance of the Index to the return of the US Treasury Bills.
The Fund uses derivatives for investment purposes. The use of such instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund. The Fund's ability to track the Index performance is reliant on the counterparties to continuously deliver the performance of the Index in line with the swap agreements. The insolvency of any institutions acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
The Fund's base currency is USD.

The Index:
The Index is designed to be a highly liquid and diversified benchmark for nonagricultural commodities and is based on the Bloomberg Commodity Index (the "**Parent Index**"). 11 commodities in three groups (energy, industrial metals and precious metals) are eligible for inclusion and constituents are selected on four main principles: economic significance, diversification, continuity and liquidity. The Index provides broad based exposure to nonagricultural commodities and no single commodity dominates the Index.
The Index is rebalanced on an annual basis.
This document provides a summary of the principal features of the Index, the complete description of the Index (available from the Index provider) shall at all times prevail. Investors should note that the Index is the intellectual property of the Index provider. The Fund is not sponsored or endorsed by the index provider and a full disclaimer can be found in the Fund's supplement.

Dividend Policy:
This Fund does not pay a dividend.

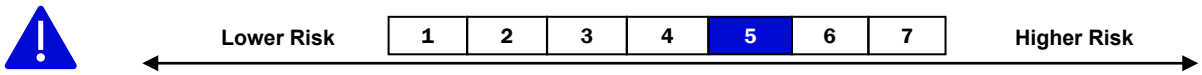

Redemption and Dealing of Shares:
The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from the Umbrella Fund in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
