

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

LOW CARBON 100 EUROPE PAB®, a Subfund of the SICAV BNP PARIBAS EASY

Class "UCITS ETF Capitalisation" - ISIN code LU1377382368

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group

Objectives and Investment Policy

The Fund is an index-tracking passively managed fund.

The Fund seeks to replicate (with a maximum tracking error* of 1%) the performance of the Low Carbon 100 Europe PAB® (NTR) index (the Index) by investing in shares issued by companies included in the Index, respecting the Index's weightings (full replication), or in a sample of shares issued by companies included in the index (optimised replication).

When investing in a sample of shares the sub-fund's tracking error may be higher.

The Index is composed of European companies selected on the basis of opportunities and risks associated with the climate transition while aiming to comply with the Paris Aligned Benchmark (PAB) targets of reducing carbon intensity by at least 50% relative to the initial investment universe and achieving an additional decarbonisation target of 7% each year. As a result, fossil-fuel activities are excluded from the Index.

The type of approach implemented here is Best-in-class (Best-in-class approach identifies leaders in each sector based on the best environmental, social and governance (ESG) practices, while avoiding those that present high levels of risk and do not comply with minimum ESG standards according to the index administrator and its specialized partners). The extra-financial strategy of the Index may comprise methodological limitations such as the risk related to ESG investment or the Index rebalancing. Further information on the index, its composition, calculation, methodology and the rules for periodic monitoring and rebalancing can be found on www.euronext.com.

*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its index.

Income are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Risk and Reward Profile

Lower risk Higher risk

←—————→

Typically lower reward Typically higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at www.bnpparibas-am.com.

Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00% (**)
Exit charge	3.00% (**)
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	0.30%
Charges taken from the fund under specific conditions	
Performance fee	No

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

The ongoing charges figure is based on past expenses determined as of 31 October 2020

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

(**) The **entry** and **exit charges** on the primary market are not applicable on the secondary market.

In addition, the investor's subscription, conversion or redemption order may be subject to an anti-dilution levy (maximum 0.3% for subscription or conversion in, and maximum 0.06% for redemption or conversion out) paid to the sub-fund in order to cover transaction costs.

Conversions not allowed.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at www.bnpparibas-am.com.

Past Performance

That year / these years the fund had different characteristics.

A: 10/2008-06/2017: Following a corporate action on 02/06/2017, the performances listed are the simulated past performance and fees of the BNP PARIBAS EASY LOW CARBON 100 EUROPE PAB UCITS ETF.

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence in 2017
- Past performance has been calculated in EUR
- Performance returns are based on the net asset value with distributable income reinvested.
