The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.
Date of production of the KID: 30/06/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS) qualifying as an exchange-traded fund (ETF). It is a sub-fund of BNP PARIBAS EASY, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.
BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Product is passively managed.
The Product seeks to replicate (with a maximum tracking error* of 1%) the performance of the Euronext Low Carbon 100 Europe PAB (NTR) index (Bloomberg: LC1NR index) (the Index), by investing in shares issued by companies included in the Index, respecting the Index's weightings (full replication), or in a sample of shares issued by companies included in the index (optimised replication). When investing in a sample of shares the sub-fund's tracking error may be higher.
The Index aims to provide investors with exposure to a basket of a target number of 100 European equities selected according to environmental, social and governance (ESG) criteria and based on the opportunities and risks associated with the climate transition including a minimum proportion of companies aligned with the Taxonomy Regulation, while aiming to comply with the Paris Aligned Benchmark (PAB) criteria.
The Index initial investment universe is composed of companies included in the Euronext Europe 500 Index (the "Parent Index").
To achieve its objective, the Index implements the following methodology:

- Reduction of at least 30% of the initial investment universe ("selectivity approach") by excluding companies based on ESG criteria such as "Social" and "Governance" scores, principles of the United Nations Global Compact, controversial and sectorial exclusions (e.g. tobacco, oil equipment & services, fossil-fuel, controversial weapons, etc.)
- The Index portfolio must be composed of:

o A first pocket composed of at least 5% and up to 10% of securities with a 20% alignment with some of the environmental objectives of the Taxonomy Regulation (e.g. climate change mitigation, climate change adaptation)
o A second pocket determined according to "temperature and/or climate scores" ranking
Optimization process aiming to minimize the sector weight deviation compared to the Parent Index, while taking into account the following criteria:
o A percentage of companies that are aligned with the Paris Agreement on climate change higher in the Index portfolio than in the Parent Index
o Reduction the Index portfolio greenhouse gas ("GHG") intensity relative to the Parent Index by at least 50%
o Annual decarbonisation target of at least 7%. It should be noted that this is at the Index level and not at the level of each underlying.

The Index provider uses company ratings provided by its ESG research and rating partners.
The ESG analysis is carried out on all the constituents composing the Index.
It cannot be guaranteed that all constituents will comply with the ESG criteria set out herein at all times. For example, between two Index rebalancing dates as set out above, if a constituent no longer complied with the extra-financial criteria applied in constructing the Index, that constituent may not be excluded until the next Index rebalancing date, following the Index provider rules.
The Index is a Net Total Return index (calculated with net dividends reinvested).
Further information on the index, its composition, calculation, methodology and the rules for periodic monitoring and rebalancing can be found on www.euronext.com.
*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its index.
Incomes are systematically reinvested.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

- Depositary: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS EASY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at https://www.bnpparibas-am.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Other risk materially relevant to the Product not included in the summary risk indicator:

- Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.
This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable,moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years Example Investment: EUR 10,000		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	**What you might get back after costs**	5,841.48 EUR	3,845.98 EUR
	Average return each year	-41.59%	-17.40%
Unfavourable	**What you might get back after costs**	8,856.9 EUR	10,661.8 EUR
	Average return each year	-11.43%	1.29%
Moderate	**What you might get back after costs**	10,755.98 EUR	14,649.88 EUR
	Average return each year	7.56%	7.94%
Favourable	**What you might get back after costs**	13,645.78 EUR	16,965.94 EUR
	Average return each year	36.46%	11.15%

The favorable scenario occurred for an investment between 2020 and 2025.
The moderate scenario occurred for an investment between 2020 and 2025.
The unfavorable scenario occurred for an investment between 2025 and 2026.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.
In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	43.6 EUR	322.15 EUR
Annual Cost Impact (*)	0.44%	0.47% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.41% before costs and 7.94% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs (*)	We do not charge an entry cost.	0 EUR
Exit costs (*)	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.30% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2025.	30 EUR
Transaction costs	0.13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards or downwards.	13.6 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

(*) We do not charge an entry or exit cost on the secondary market. Retail investors who are neither authorised participants nor authorised investors will indeed generally be able to buy or sell shares only on the secondary market where shares of the Product are traded with the assistance of an intermediary (e.g. a broker). In this case, those investors may incur fees and costs which are payable to the intermediary but not charged by the Product itself or its Manufacturer. You can find this out from your financial adviser. It shall be noted that the prospectus describes the maximum costs applicable on the primary market usually for authorised participants and authorised investors and/or in exceptional circumstances.

Conversions not allowed.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.
The RHP has been defined and based on the risk and reward profile of the Product.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.
Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product. The Product has a share redemption cap scheme that allows redemption requests to be postponed in exceptional circumstances and in accordance with the conditions set out in the Product's prospectus.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by sending an email to amlu.complaints@bnpparibas.com or by writing to BNPP AM Luxembourg - Client Services - 60, avenue John F. Kennedy L-1855 Luxembourg.
