What is this product?

Type: Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.
Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: This Sub-Fund is passively managed.
The objective of this Sub-Fund is to track the performance of JPX-Nikkei 400 Index, and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund.
The Index is a Net Total Return Index : dividends net of tax paid by the index constituents are included in the Index return.
JPX-Nikkei 400 Index is an equity index representative of the Japanese equities universe listed on the first two sections of the Tokyo Stock Exchange as well as on the "Mother" and JASDAQ markets.
More information about the composition of the index and its operating rules are available in the prospectus and at: Nikkei
The Index value is available via Bloomberg (JPNKNTR).
The Sub-Fund will apply an Indirect Replication methodology to get exposition to the Index. The Sub-Fund will invest into a total return swap (financial derivative instrument) delivering the performance of the Index against the performance of the assets held. Derivatives are integral to the Sub-Fund's investment strategies.
In order to hedge the currency of the share against the currency of the index, the Fund uses a hedging strategy which reduces the impact of changes between the currency of the Index and the currency of the share class.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Further details are provided in the Amundi Index Solutions prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.
