* Source : Amundi. The above cover complete periods of 12 months for each calendar year. **Past performance is no predictor of current and future results and does not guarantee future yield**. Any losses or gains do not take into consideration any costs, commissions and fees incurred by the investor in the issue and buyout of the shares (e.g. taxes, brokerage fees or other commissions deducted by the financial intermediary). If performance is calculated in a currency other than the euro, any losses or gains generated can thereby be affected by exchange rate fluctuations (both upward and downward). The discrepancy accounts for the performance difference between the portfolio and the index.
