The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.
Date of production of the KID: 30/06/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS) qualifying as an exchange-traded fund (ETF). It is a sub-fund of BNP PARIBAS EASY, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.
BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Product is passively managed.
The Product seeks to replicate (with a maximum tracking error* of 1%) the performance of the ECPI Global ESG Blue Economy (NR) Index (Bloomberg: GALPHBEN Index) (the « Index») by investing in the shares issued by companies included in the Index, respecting the Index's weightings (full replication), or in a sample of equities included in the Index (optimised replication). When investing in a sample of equities, the Product's tracking error may be higher.
The Index is an equally weighted equity index designed to offer investors exposure to companies in the Global developed market. The objective of the Index is to provide investors with exposure to companies that are best placed to seize the opportunities offered by the sustainable use of ocean resources. ECPI maintains a research universe of investable instruments built using a proprietary ESG screening methodology.
As a first step, from the research universe the Index selects securities related to the sustainable use of ocean resources with positive Environmental, Social and Corporate Governance (ESG) ratings such as but not limited to coastal livelihoods, energy and resources, fish and seafood, pollution reduction, shipping routes, human capital, corporate governance and based on their efforts to reduce their exposure to coal and unconventional fossil fuels (the "Thematic Universe"). From the Thematic Universe, the selection is then made based on market capitalisation criteria, geographic exposure and average daily traded value of the stock which form the Index Initial Universe.
As a result, companies involved in sectors with a potentially high negative ESG impact, i.e. that generate more than a certain percentage of their revenue from sectors such as tobacco, weapons and firearms, oil and gas and thermal coal power generation, those subject to significant violations of the international norms (such as UN Global Compact principles, UN Guiding Principles on Business and Human Rights, OECD Guidelines for Multinational Enterprises and ILO Conventions) and those involved in severe ESG-related controversies are excluded from the index. To be eligible for inclusion in the Index, securities must have a good ESG rating based on the ECPI ESG Rating Methodology - Companies. The eligible securities form the ESG Investable Universe.
The type of approach implemented here is thematic (the index is composed of companies that provide products and services proving concrete solutions to specific environmental and/or social challenges, seeking to benefit from future growth anticipated in these areas while contributing capital to the transition towards a low-carbon, inclusive economy).
The ESG Investable Universe shall at least be reduced by 30% compared to the Index Initial Universe, as a result of the combine application of the aforementioned sector exclusions, normative screening and best-in-universe selection ("selectivity" approach).
The Index then selects the 50 securities that are best placed to seize the opportunities offered by the sustainable use of ocean resources.
The selection is also made respecting the constraints of thematic and sectoral diversification, GHG intensity and gender diversity. In fact, the GHG intensity of the Index shall be lower than the average GHG intensity of the Index Initial Universe. In turn, the Board gender diversity level of the Index shall be higher than the Board gender diversity of the Index Initial Universe.
The ESG analysis is carried out on all the constituents composing the Index.
It cannot be guaranteed that all constituents will comply with the ESG criteria set out herein at all times. For example, between two Index rebalancing dates as set out above, if a constituent no longer complied with the extra-financial criteria applied in constructing the Index, that constituent may not be excluded until the next Index rebalancing date, following the Index provider rules.
The Index is a Net Total Return index (calculated with net dividends reinvested).
Further information on the Index, its composition, calculation and rules for monitoring and periodic rebalancing, as well as information on the general methodology common to all ECPI indices, can be found at www.ecpigroup.com.
*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its index
Incomes are systematically reinvested.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

- Depositary: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS EASY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

- Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at https://www.bnpparibas-am.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Other risk materially relevant to the Product not included in the summary risk indicator:

- Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.
This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable,moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years Example Investment: EUR 10,000		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	**What you might get back after costs**	6,827.92 EUR	4,879.97 EUR
	Average return each year	-31.72%	-13.37%
Unfavourable	**What you might get back after costs**	9,023.01 EUR	10,492.03 EUR
	Average return each year	-9.77%	0.97%
Moderate	**What you might get back after costs**	11,020.22 EUR	18,938.94 EUR
	Average return each year	10.20%	13.62%
Favourable	**What you might get back after costs**	15,516.47 EUR	22,143.9 EUR
	Average return each year	55.16%	17.23%

The below scenarios occurred for an investment using a suitable proxy.
The favorable scenario occurred for an investment between 2016 and 2021.
The moderate scenario occurred for an investment between 2020 and 2025.
The unfavorable scenario occurred for an investment between 2024 and 2026.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.
In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	34.98 EUR	333.52 EUR
Annual Cost Impact (*)	0.35%	0.40% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.02% before costs and 13.62% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs (*)	We do not charge an entry cost.	0 EUR
Exit costs (*)	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.30% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2025.	30 EUR
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards or downwards.	4.98 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

(*) We do not charge an entry or exit cost on the secondary market. Retail investors who are neither authorised participants nor authorised investors will indeed generally be able to buy or sell shares only on the secondary market where shares of the Product are traded with the assistance of an intermediary (e.g. a broker). In this case, those investors may incur fees and costs which are payable to the intermediary but not charged by the Product itself or its Manufacturer. You can find this out from your financial adviser. It shall be noted that the prospectus describes the maximum costs applicable on the primary market usually for authorised participants and authorised investors and/or in exceptional circumstances.

Conversions not allowed.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.
The RHP has been defined and based on the risk and reward profile of the Product.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.
Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product. The Product has a share redemption cap scheme that allows redemption requests to be postponed in exceptional circumstances and in accordance with the conditions set out in the Product's prospectus.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by sending an email to amlu.complaints@bnpparibas.com or by writing to BNPP AM Luxembourg - Client Services - 60, avenue John F. Kennedy L-1855 Luxembourg.
