

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Lyxor Net Zero 2050 S&P 500 Climate PAB (DR) UCITS ETF - Acc A Sub-Fund of the SICAV MULTI UNITS LUXEMBOURG

ISIN code: (A) LU2198883410

Managed by Amundi Asset Management, a subsidiary of Amundi Group

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes among other characteristics ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and the downward evolution of the S&P 500 Net Zero 2050 Paris-Aligned ESG Net Total Return Index (the Benchmark Index") denominated in USD, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error"). The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index is representative of the performance of eligible equity securities from the S&P 500 Index (the "Parent Index") selected and weighted to be collectively compatible with a 1.5°C global warming scenario. The weighting strategy aims to minimize through optimization the difference in constituent weights to the Parent Index while simultaneously delivering a broad range of climate objectives covering transition risk (for instance a minimum self-decarbonization rate of greenhouse gas emissions intensity equating to at least 7% on average per annum), climate change opportunities (through substantially higher green-to-brown revenue share) and physical risk (through a reduced exposure to physical risks from climate change using Trucost's Physical Risk dataset as defined in the methodology of the Benchmark Index). The Benchmark Index aims to meet and maintain the criteria set out by the European Union's Technical Expert Group on Climate Benchmark's ESG Disclosures, to qualify as an EU Paris-Aligned Benchmark ("EU PAB").

The Fund follows an extra-financial approach significantly engaging that permits the reduction of overall greenhouse gas emissions intensity compared to the Parent Index by at least 50%. For further information in relation to the general and specific environmental, social and governance (ESG) objectives targeted by the Fund, please refer to the Transparency Code of the Fund available on <https://www.lyxoretf.com/>. Limits of the methodology of the Benchmark Index are described in the prospectus of the Fund through risk factors, such as the EU PAB label withdrawal or risk related to the carbon data used in the methodology of the Benchmark Index.

The analysis of companies' current and future greenhouse gas emission is partly based on declarative data, models and estimates. In the current state of the available data, all greenhouse gas emission data are not available, and some are model based (in particular those related to scope 3 which includes all greenhouse gas emissions that are not directly related to manufacturing of a product). The methodology of the Benchmark Index does not prevent to incorporate highly greenhouse gas emitting companies' securities.

S&P's website (<https://us.spindices.com/>) contains more detailed information about the S&P indexes.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the Benchmark Index constituents on the basis that any dividends or distributions are included in the Benchmark Index returns after withholding tax retention.

The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy.

The potential use of this technique is published on Lyxor's website: www.lyxoretf.com.

Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

Information on how the Index is consistent with environmental, social and governance characteristics is available in the prospectus.

The share currency is the US Dollar (USD).

Dividend Policy : the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorised participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in US equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Risk of Financial derivative Instruments: the Sub-Fund invest in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Sub-Fund may decrease significantly.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	Not Applicable for secondary market investors*
Exit charge	Not Applicable for secondary market investors*
Conversion charge	Not applicable

This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.

Charges taken from the Sub-Fund over a year

Ongoing charges	0.116%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	None

The **entry**, **exit** and **conversion charges** shown are maximum figures applied on the primary market only. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the year ending December 31, 2021. This figure may vary from year to year. It excludes:

- Performance fees,
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

*Secondary Market: because the Sub-Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Sub-Fund nor the Management Company but to the investor own intermediary.

In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Sub-Fund will pay related primary market transaction costs.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: amundi.com or amundiETF.com.

Past Performance

A : Until 04/11/2021, the Fund's Benchmark Index name was S&P 500 Paris-Aligned Climate Net Total Return Index.

The chart has a limited value as a guide to future performance.

The annualised performances displayed in this diagram are calculated net of all charges taken by the Sub-Fund.

The Sub-Fund was launched on July 15, 2020. The Share Class was launched on July 15, 2020.

The reference currency is the US Dollar.

When the Benchmark Index is denominated in a currency other than the Sub-Fund currency, the performance of the Benchmark Index is converted into the Sub-Fund's currency for comparison purpose. FOREX transactions are executed on a daily basis (WM Reuters 5 pm rate on the relevant date).

Practical Information

- Name of the depositary: SOCIETE GENERALE LUXEMBOURG.
- Further information about the UCITS (prospectus, periodical reports) can be obtained in English, free of charge, at the following address: Amundi Asset Management, 91-93, boulevard Pasteur, 75015 Paris, France.
