### Reference Index key features

The MSCI China All Shares Tech Select ESG Screened 100 Index aims to reflect the performance of the following market:

- Provides exposure to up to 100 Chinese companies which are exposed to development of new products and services from technology innovations leading to breakthroughs in areas including but not limited to internet and digitalisation, mobility, autonomous technology, industrial automation and digital healthcare
- Fulfil specific Environmental, Social and Governance (ESG) criteria
- Theme specific exposure
- Reviewed on a semi-annual basis

Additional information on the index, selection and weighting methodology is available at www.msci.com

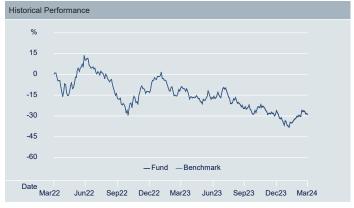

### **Kev Risks**

- —The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.
- —The Fund is exposed to less economically developed economies (known as emerging markets) which involve greater risks than well developed economies. Political unrest and economic downturn may be more likely and will affect the value of your investment.
- —The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events
- —The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.
- The Fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets.
