## OSSIAM BLOOMBERG ASIA PACIFIC ex JAPAN PAB NR (UCITS ETF 1C (EUR) ISIN: LU2491210618) a sub-fund of OSSIAM LUX (the "SICAV")

Management Company: Ossiam, part of the Natixis group of companies

### Objectives and Investment Policy

#### Investment objective

The investment objective of Ossiam Bloomberg Asia Pacific ex Japan PAB NR fund (the "Fund") is to replicate, before the Fund's fees and expenses, the performance of the Bloomberg PAB APAC DM ex-Japan Large & Mid Cap Index Net Return Index (the "Index") closing level.

The Fund is a financial product that pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector promotes the reduction of carbon emissions through the replication of the Index.

The Index is a Bloomberg Global Equity Paris-Aligned Index, which aims to provide long term return by investing in an equity portfolio seeking at least a 50% greenhouse gas intensity reduction compared to their corresponding parent index, here the Bloomberg Eurozone DM Large & Mid Cap Index and at least 7% reduction on average per annum.

The Index uses the reference 1.5 °C temperature scenario, with no or limited overshoot, as referred to in the Special Report on Global Warming of 1.5 °C from the Intergovernmental Panel on Climate Change. The constituents of the Index are selected, weighted or excluded with the aim that the resulting benchmark portfolio's carbon emissions be aligned with the objectives of the Paris agreement adopted under the United Nations Framework Convention on Climate Change, approved by the European Union on 5 October 2016.

The Index aims to comply with the minimum technical requirements as set out by the European Commission's delegated regulation dated 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards minimum standards for EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks.

The Index is expressed in the US Dollar (USD) and is calculated and published by Bloomberg.

The anticipated level of tracking error in normal conditions is 1.00% over a one-year period.

The Index is calculated and published by Bloomberg. For a detailed description of the Index, see section "Description of the Index" in the prospectus (the "Prospectus").

In addition, and on an ancillary basis, the Fund may use other derivatives for hedging and investment purposes, as described under "Use of Derivatives, Special Investment and Hedging Techniques" in the Prospectus.
