Objective and Investment Policy

This Sub-Fund is passively managed. The Sub-Fund is a financial product that promotes among other characteristics ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The objective of this Sub-Fund is to track the performance of MSCI Japan ESG Broad CTB Select Index, and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The Sub-Fund aims to achieve a level of tracking error of the Sub-Fund and its index that will not normally exceed 1%. The Index is a Net Total Return Index : dividends net of tax paid by the index constituents are included in the Index return. The Index is an equity index based on the MSCI Japan Index (the "Parent Index") representative of the large and mid-cap securities of the Japanese Market. The Index excludes companies from the Parent Index based on social or environmental criteria. Additionally, the Index aims to represent the performance of a strategy that reweights securities based upon the opportunities and risks associated with the climate transition to meet the EU Climate Transition Benchmark (EU CTB) regulation minimum requirements. For further information on the exclusions applied by the Index pursuant to the EU Climate Transition Benchmarks (CTB), please refer to the "Guidelines on funds' names using ESG or sustainability-related terms" section of the Prospectus. The Index is a Net Total Return Index: dividends net of tax paid by the index constituents are included in the Index return. The Index is constructed by applying a combination of values-based exclusions and an optimization process that minimizes the ex-ante tracking error compared to the Parent Index while ensuring that the ESG Score of the Index is at least equal to the ESG Score of the Parent Index and to meet the EU Climate Transition Benchmark (EU CTB) regulation minimum requirements while targeting a similar risk profile to the Parent Index. More information about the composition of the index and its operating rules are available in the prospectus and at: msci.com The Index value is available via Bloomberg (MXJPEBSL). The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.
