**3 - CHANGES IN THE COMPOSITION OF SECURITIES PORTFOLIO**

The report on the changes in the composition of the portfolio is available upon simple request free of charge from the registered office of the SICAV.

**4 - SWING PRICING**

On business days when it believes that trading in a sub-fund's shares will require significant purchases or sales of portfolio investments, the Board may adjust the sub-fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations. In general, the NAV will be adjusted upward when there is strong demand to buy sub-fund shares and downward when there is strong demand to redeem sub-fund shares. For any given business day the adjustment will normally not be larger than 2% of the NAV, but the Board can raise this limit when necessary to protect the interests of shareholders.

As at 31 March 2024, the swing pricing adjustment has been applied for some sub-funds. The Net Asset Value per share after application of swinging pricing is detailed in the Financial details.

The swing factor is the amount by which the NAV is swung when the swing pricing process is triggered after net subscriptions or redemptions exceed the swing threshold. The factors to consider when setting the swinging factor include net broker commissions paid by the sub-fund and fiscal charges (e.g. stamp duty and sales tax).

## SECURITIES FINANCING TRANSACTIONS AND OF REUSE REGULATION (“SFTR”)

The Regulation on Transparency of Securities Financing Transactions and of Reuse (the « SFTR ») entered into force on 12 January 2016 aiming to improve transparency in securities and commodities lending, repurchase transactions, margin loans and certain collateral arrangements. The disclosure requirements of the SFTR include the following details on securities lending:
