Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ESG Enhanced EUR Corp Bond December 2029, a subfund of the SICAV BNP PARIBAS EASY

Class "UCITS ETF Distribution" - ISIN code LU2823896738
This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

Objectives and investment policy

The Product's investment universe consists of the securities of the Bloomberg Euro Corporate December 2029 Maturity index (I38640EU Index) (the "Benchmark").
The Product will be dissolved and liquidated on December 31, 2029 (the "Maturity Date"),
The Product will invest at least 90% of its assets in fixed rate euro-denominated debt securities comprised in the Benchmark and with an investment grade credit rating.
To achieve its investment objective, the Product implements a strategy (the "Strategy") which (i) applies a binding ESG integration approach and improves its ESG profile compared to the Benchmark, and (ii) aims at achieving a comparable performance versus the one of the Benchmark (as opposed to aiming at outperforming the latter).
To aim at achieving such comparable performance versus the one of the Benchmark, the Product applies tracking-error, sector and duration controls towards the Benchmark.
The Strategy may be partially composed of green and/or social and/or sustainability bonds.
The extra-financial analysis coverage is at least 90% of the assets of the sub-fund (excluding ancillary liquid assets) and is based on the BNP PARIBAS ASSET MANAGEMENT proprietary extra-financial framework .
Furthermore, the Strategy does not select companies that do not comply with the BNP PARIBAS ASSET MANAGEMENT Responsible Business Conduct ("RBC") Policy based on 1) norms-based screens, such as the UN Nations Global Compact principles and OECD Guidelines for Multinational Enterprises, and 2) BNP Paribas Asset Management sector policies.
The Strategy also applies the BNP Paribas Group's sensitive countries framework, which includes restrictive measures on certain countries and/or activities that are considered as being particularly exposed to money laundering and terrorism financing related risks.
The universe of the Product's portfolio holdings consists of the components of the Benchmark Index. Consequently to the application of the ESG integration approach, their weightings may deviate from those of the Benchmark and the Product may not invest in some Benchmark components. The Product is actively managed.
a) Until the Final Year
The Strategy is constructed to select securities to consistently achieve especially the following targets:
- a minimum reduction of 20% of the investment universe due to the application of extra-financial exclusion criteria ("selectivity approach")
- a portfolio's ESG score higher than the ESG score of the Benchmark
- a minimum proportion of 30% of sustainable investments as defined in Article 2 (17) of SFDR, and

The ESG integration approach involves especially the evaluation of the three below non-financial criteria at the level of the issuers in which the Strategy invests:
- Environmental: such as energy efficiency, reduction of emissions of greenhouse gases, treatment of waste;
- Social: such as respect of human rights and workers' rights, human resources management (workers' health and safety, diversity);
- Governance: such as Board of Directors independence, managers' remuneration, respect of minority shareholders rights.

ESG scores enable to assist in the ESG evaluation of securities' issuers.
b) During the Final Year
During the Final Year, as the corporate bond securities will gradually mature, the sub-fund will replace them by investing in government bonds issued by France, Germany, Belgium and Netherlands maturing up to six months after the Maturity Date. As such, the proportion of euro investment grade corporate bonds will progressively decrease as the Product approaches the Maturity Date.
At all times during this period, the Product will achieve a portfolio's ESG score higher than the ESG score of the Benchmark.
A dividend may be distributed.

Risk and reward profile

Lower risk — Higher risk

Potentially lower rewards — Potentially higher rewards

1	2	**3**	4	5	6	7

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
  The risk category is justified by investment in bond-like instruments with an average residual lifetime, along with the option of investing in speculative securities with issuers that may be located in emerging countries.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- Credit Risk: This risk relates to the ability of an issuer to honour its commitments: downgrades of an issue or issuer rating may lead to a drop in the value of associated bonds.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at http://www.bnpparibas-am.com.

Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Primary market (authorised investors)	
Maximum entry charge (not paid to the UCITS)	3.00%
Maximum exit charge (not paid to the UCITS)	3.00%
Secondary market (all investors)	
Maximum entry charge (not paid to the UCITS)	None
Maximum exit charge (not paid to the UCITS)	None
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	0.12% (*)
Charges taken from the fund under specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

(*) The **ongoing charges** figure is based on past expenses determined as of 31 December 2025.

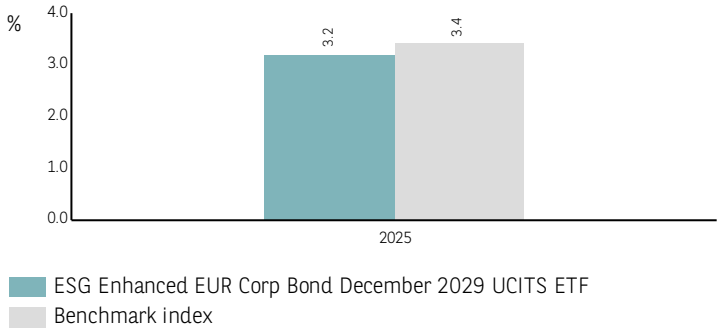

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Conversions not allowed.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at http://www.bnpparibas-am.com.

Past performance

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence in 2024.
- Past performance has been calculated in EUR.
- Performance returns are based on the net asset value with distribuable income reinvested.
