The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.
Date of production of the KID: 25/09/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS) qualifying as an exchange-traded fund (ETF). It is a sub-fund of BNP PARIBAS EASY, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.
BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Product is passively managed.
The Product seeks to replicate (with a maximum tracking error of 1%) the performance of the Solactive €STR Overnight Total Return Index* (Bloomberg: SOESTRON Index) (the Index) with the objective to provide exposure to the euro short-term rate (€STR) by investing in a substitute basket, composed of, inter alia, shares of companies, debt securities or cash, and/or short-term deposits (synthetic replication). When employing synthetic replication, the sub-fund will achieve exposure to the Index by entering into total return swaps (TRS).
The Index is an accumulating daily return strategy investing into overnight deposits, reflecting the performance of the €STR. €STR is the overnight borrowing costs applied by banks in the euro area, calculated and published by the European Central Bank.
When investing in a sample of debt securities, the Product's tracking error may be higher.
At least, 75% of the assets will be invested at all times in equities.
Further information on the Index, its composition, calculation and rules for periodical review and rebalancing and on the general methodology can be found on www.solactive.com.
There is no rebalancing of the Index.
Total Costs as defined below are preferential for the launch of the Product and will be applicable for a period of 12 months from the date of the launch of the Product. Performance Scenarios have been calculated taking into account these preferential costs.
A dividend may be distributed.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek preservation of and/or growth of and/or income from capital. Potential investors should have an investment horizon of at least 1 year.

Practical Information

- Depositary: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS EASY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at https://www.bnpparibas-am.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 1 year.

You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this Product as 1 out of 7, which is the lowest risk class. The fund's strategy is to replicate a very short-term interest rate index that has very low volatility. This justifies the risk category.
Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty Risk: this risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- Risk linked to derivatives: the use of derivatives can amplify fluctuations in the value of investments, thus increasing the volatility of returns.

For additional details regarding the risks, please refer to the prospectus.
This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable,moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 1 year **Example Investment: EUR 10,000**		**If you exit after 1 year**
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	**What you might get back after costs**	9,802.83 EUR
	Average return each year	-1.97%
Unfavourable	**What you might get back after costs**	9,802.83 EUR
	Average return each year	-1.97%
Moderate	**What you might get back after costs**	9,988.1 EUR
	Average return each year	-0.12%
Favourable	**What you might get back after costs**	10,527.21 EUR
	Average return each year	5.27%

The below scenarios occurred for an investment using a suitable proxy.
The favorable scenario occurred for an investment between 2023 and 2024.
The moderate scenario occurred for an investment between 2022 and 2023.
The unfavorable scenario occurred for an investment between 2021 and 2022.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.
In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year
Total Cost	10.11 EUR
Cost Impact (*)	0.10% each year

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other Products.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs (*)	We do not charge an entry cost.	0 EUR
Exit costs (*)	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.10% of the value of your investment per year. The amount is based on an estimate of the charges that will be taken out of your money.	10.11 EUR
Transaction costs	There are currently no transaction costs for this Product. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards.	0 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

(*) We do not charge an entry or exit cost on the secondary market. Retail investors who are neither authorised participants nor authorised investors will indeed generally be able to buy or sell shares only on the secondary market where shares of the Product are traded with the assistance of an intermediary (e.g. a broker). In this case, those investors may incur fees and costs which are payable to the intermediary but not charged by the Product itself or its Manufacturer. You can find this out from your financial adviser. It shall be noted that the prospectus describes the maximum costs applicable on the primary market usually for authorised participants and authorised investors and/or in exceptional circumstances.

Conversions not allowed.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 1 year.
The RHP has been defined and based on the risk and reward profile of the Product.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.
Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product. The Product has a share redemption cap scheme that allows redemption requests to be postponed in exceptional circumstances and in accordance with the conditions set out in the Product's prospectus.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by sending an email to amlu.complaints@bnpparibas.com or by writing to BNPP AM Luxembourg - Client Services - 60, avenue John F. Kennedy L-1855 Luxembourg.
