What is this product?

Type

The product is a UCITS - Part 1 sub-fund of a SICAV under Luxembourg law. The fund is a UCITS ETF.

Term

This product has a maturity until 30.09.2036. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The 1D share class of Xtrackers II Target Maturity Sept 2036 EUR Corporate Bond UCITS ETF was launched in 2025.

Objectives

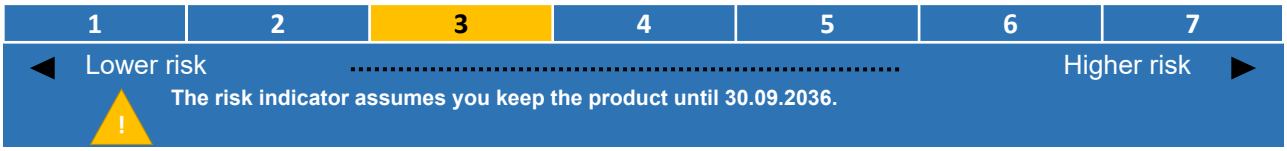

The fund is passively managed. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. More ESG information is available in the sales prospectus and on the DWS website. INVESTMENT OBJECTIVE: The aim is for your investment to reflect the performance of the Bloomberg MSCI Euro Corporate September 2036 SRI Index (index). DESCRIPTION OF INDEX: The index aims to reflect the performance of the investment grade, euro-denominated, fixed-rate corporate bond market with maturity dates on or between 1 October 2035 and 30 September 2036, and excluding bonds which do not fulfil specific ESG criteria. The bonds must meet certain sector, amount outstanding, and security type criteria. From 1 October 2035, the Reference Index will also include certain Euro-denominated Treasury bills issued by certain European governments with 1 to 3 months remaining to maturity, and which fulfil certain ESG criteria (bills). ESG CRITERIA: Based on MSCI ESG Research, the index excludes: (i) sovereign issuers rated below BB or, (ii) corporate issuers rated below B, (iii) corporate issuers with a “red” Controversies score, (iv) corporate issuers breaching certain thresholds in controversial activities, and (v) Sovereign issuers classified as “Not Free” or “Partly Free” based on Freedom House data. INDEX REBALANCING, CALCULATION AND ADMINISTRATION: The weight of each corporate issuer is limited to 3%. From the 1 October 2035 cash amounts received from maturing bonds will be re-invested into bills rather than corporate bonds at each rebalance. The index is rebalanced monthly. The index is administered by Bloomberg Index Services Limited. The index is calculated on a total return basis which means that the payments from coupons are reinvested. INVESTMENT POLICY: To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying a portfolio of securities that may comprise the constituents of the index or other unrelated investments as determined by DWS entities. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. FURTHER INFORMATION: Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is EUR. The fund distributes up to four times per annum. This fund is a sub-fund of Xtrackers II for which the sales prospectus and the periodic reports are prepared as a whole. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the sales prospectus for further details. You are not permitted to exchange your shares in this fund for other funds of Xtrackers II. The depositary is State Street Bank International GmbH, Luxembourg Branch. More detailed information of this fund, such as the sales prospectus as well as the latest annual and semi-annual report, can be obtained free of charge online at www.etf.dws.com. These documents are available in English or German. The documents as well as other information (including the latest share prices) are available free of charge.

Intended retail investor

The fund is designed for: (i) retail clients with (ii) basic knowledge and experience and (iii) are prepared to accept the level of risk indicated below (including losses up to the total invested amount). A typical investor will have (iv) an investment horizon in line with the recommended holding period displayed below. The fund is suitable for (v) general capital accumulation (growth).

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Credit risk, Derivatives risk, Bonds risk, Conflicts of interest risk, Exceptional circumstances risk, Interest rate risk, Sustainability risk, Maturity date risk. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus. You may lose some or all of your investment. Your risk is

limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and a suitable benchmark over the last 15.09 years. Markets could develop very differently in the future.

Recommended holding period: **Example Investment:**		10.09 years 10.000 EUR		
		If you exit after 1 year	**If you exit after 6 years**	**If you exit after 10.09 years**
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	**What you might get back after costs** Average return each year	6,350 EUR -36.5 %	4,840 EUR -11.4 %	3,790 EUR -9.2 %
Unfavourable	**What you might get back after costs** Average return each year	6,910 EUR -30.9 %	7,600 EUR -4.5 %	8,110 EUR -2.1 %

What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Bank International GmbH, Luxembourg Branch securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 EUR is invested.

	If you exit after 1 year	**If you exit after 6 years**	**If you exit after 10.09 years**
Total costs	19 EUR	121 EUR	189 EUR
Annual cost impact (*)	0.2 %	0.2 % each year	0.2 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.1% before costs and -0.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs
